Value Added Course on Java Enterprise Application Development

Software development Cluster of Department of Information Technology of Vidyalankar School of Information Technology organized Value Added Course on Java Enterprise Application Development for T.Y.B.Sc. IT students. The course is conducted by Mr. Shajil K and Ms. Rohini D.

The event details were as follows:

Date of activity	6th – 9th September 2021
Time	4.00 pm – 6.00 pm
Platform	Microsoft Teams

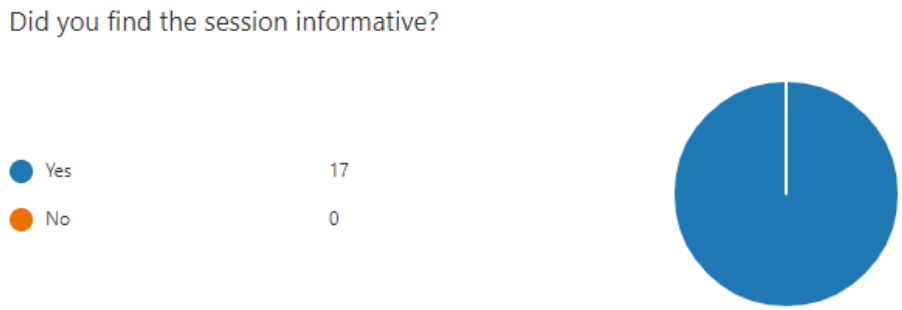
On First Day started with Java Servlets introduction, methods, Handling sessions through servlets for enterprise application, simple example covered. On Second Day started with handling multiple clients and servlet through request dispatcher and examples based on the same. In the Third session introduced with JDBC connectivity with database, connecting application with database the different techniques were covered. In the fourth session started with JSP and Lifecycle of JSP, Action elements, implicit objects, scope, Comments, JSP documents, JSP elements all topics were covered.

The sessions were very interactive, and students actively participated in discussion. There was very good feedback from students, and they showed interest in future sessions of Java application development.

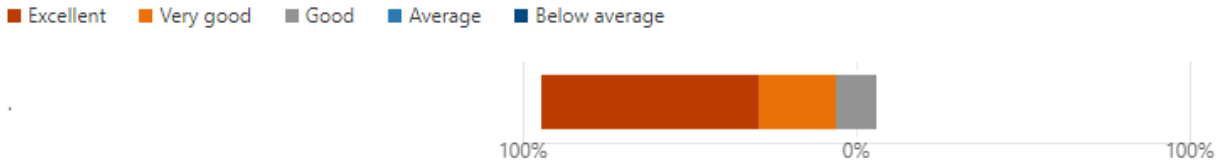
On an average 15 students from TY BSc IT and higher class attended the session. Students found the sessions very informative and knowledgeable.

All the attendees were provided with E-Certificates. The workshop overall received very positive feedback from the attendees, and all the attendees enjoyed the hands-on training to the utmost level.

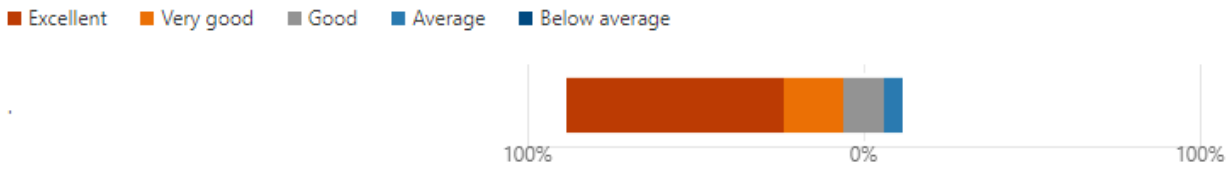
Analysis:



How well was the session meet your expectations?



How would you rate the quality of the course?



How would you rate the information shared by the speaker?

Department of B.Com. (Financial Markets)
"Basics of German Language"

Dates:	15/05/2021 – 25/06/2021
Timing:	5:00 – 6:30 pm (Three Days a week)
Mode of Workshop:	Online (Zoom)
No of Participants:	28
Conducted By:	**Ms. Myrah Merwani** (Foreign Language Expert)
Faculty – In Charge:	**Dr. Poonam Mirwani**

German has the largest number of native speakers in the European Union. German is among the ten most commonly spoken languages in the world. Knowledge of German increases the job opportunities with German and foreign companies domestically and abroad. German is the second most commonly used scientific language. Germany is the third largest contributor to research and development and offers research fellowships to scientists from abroad.

The objective of this Value Added Course was that by the end of the course students would be able to Read, Write and speak Basic German.

With great enthusiasm and zeal, 28 students of VSIT attended the VAC which was conducted from 15/05/2021 to 25/06/2021 (Three days a week) from 5:00 – 6:30 pm by Ms. Myrah Merwani (Foreign Language Expert) on Zoom Platform.

On completion of VAC all students were assessed on the basis of Presentation and Viva.
Participants were overjoyed to learn German Language.

VSIT

Value added course on English and Communication

A Value-added Course on English and Communication was organized by the Communication Cluster under the leadership of Prof. Anindita Banerji for the first-year undergraduate students of VSIT between November 04 and November 08, 2019. The five-day course was conducted in the Y-block seminar hall between 10 am and noon. Listening, reading, writing, speaking, interview and personal skills were the topics that formed the focus of the course. Every session was enlivened by a strategic mix of educational activities and insightful discussions between the 101 participants and the trainers. On day 1, the students were introduced to reading, deciphering body language and content development. Day 2 focused on writing skills. The students were introduced to linkers as means of connecting ideas and infusing creativity into otherwise repetitive and dull content. Listening skills formed the focus of the next day. Day 4 focused on speaking skills. Day 5 integrated the skills taught on the previous day to practical situations of interviews and interpersonal communication.

VAC in English & Communication

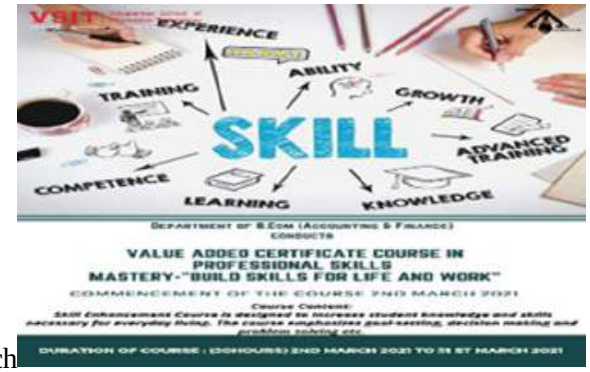
Value added course on Professional skill mastery-Build skills for life and work.

Event name:

Value added course- Professional skill mastery-Build skills for life and work.



Date of Activity: 2nd March 2021 to 24th March

Platform: Zoom

No. of Participants: 40

A "VALUE ADDED COUSRE" was organized by BAF department of Commerce from 02nd march 2021 to 24th march 2021 at MS Teams. The main purpose of this event was to enhance and generate soft skills regarding their respective jobs among the students. It was a well planned and executed camp and many students voluntarily participated in this noble cause.

A team of 7 teachers held informative sessions regarding their respective topics on soft skills.

The first session was held by Mrs. Snehaprabha mam from 2nd march to 3rd march on effective communication in which she explained effective ways to communicate, its hindrances, and solutions. Mam explained the topic with many examples and videos and games. The session was interactive, fun and many students participated in the conversation.

Second session was held by Mrs. Swagatika mam from 5th march to 6th march on critical thinking in which she taught us to carefully deconstruct a situation revealing the hidden issue and finding the solution. She also explained 5 basic steps of critical thinking which are, formulating the questions, gathering info; applying it, considering the implications and, exploring different point of views. Session was very interactive mam explained every part with numerous examples games and videos.

Third session was held by Mr. Shreyas sir on 8th march and 10th march on decision making in which he explained about the importance to generate the skill of decision making and how to make the correct decision. He also explained the student to focus on their priorities how to implement this skill in real life with some good examples. Session was energetic, interactive and full of knowledge.

Fourth session was held by Mrs. Prathama mam on leadership quality from 12th march to 13th march during the sessions she explained the students about leadership quality, gave examples of various leaders and taught the students how to generate leadership quality by some videos,

explanation, games etc. session was interactive and full of proficiency.

The fifth session of self -Awareness was held by Mrs. Agnus Anthony mam on 15th and 17th march in which she started by playing a melody to calm students mind and then explained the topic with some videos and examples, during the session she also explained the benefits of self -Awareness. Session was interactive and knowledgeable.

The sixth lesson on Inter-personal relationship was held by Mrs. Gunasundari mam from 19th to 20th march in which she explained about the importance of this skill and its requirement to survive world on personal and professional level. The session was very attractive students participated in it and learned many things. Mam explained the topic interestingly with videos and examples.

The last session of Building Positive Attitude was held by Mr. Sandeep sir in which he explained how to build a positive attitude, how to stay neutral in every situation, how to learn from every thing in life and at the end explained the case study of the great king Shri "CHATRAPATI SHIVAJI MAHARAJ" how Shivaji maharaj became king completed his life goals. Session was interactive and many students voluntarily participated in it.

As the end of the course was approaching, there was a sense of satisfaction on the faces of students as they learned, enjoyed all the sessions. The team of teachers and the BAF department appreciated all the students who participated in the event and making it a huge success.

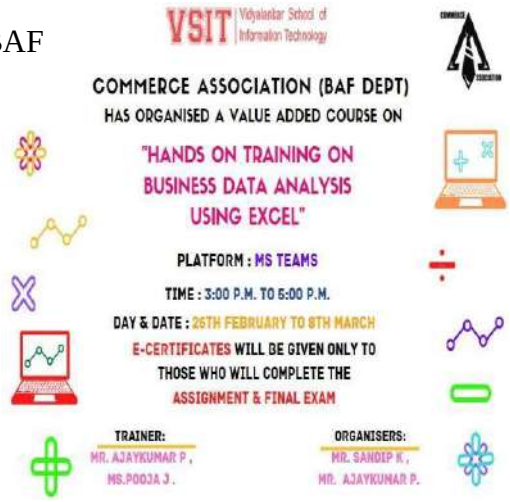
VALUE ADDED COURSE ON BUSINESS DATA ANALYSIS USING EXCEL

B. Com (Accounting & Finance) dept of Vidyalankar School of Information Technology organized itsonline hands-on Value-Added Course on Business Data Analysis using Excel. This course was mainly designed forTYBAF students of VSIT.



Duration: 15thFebruary 2021 to 15th March 2021
Time: 03.00 pm to 5.00 pm
Platform: Zoom

OBJECTIVES:

The following were the objectives of the session:

- Organize, analyse and present data for operations and reporting purposes.
- Perform "what-if" & data analysis for developing financial, marketing and plans.

- Use tools & techniques to process and enhance the usefulness of data.
- Organize and process statistical, mathematical, financial, and logical data.
- Employ new approaches such as PowerPivot for tabulating and managing data.
- Translate analysis into meaningful charts and graphs for better visual appeal.
- Automate repetitive tasks to minimize manual labour in data analysis

TRAINER: Ms. Pooja Jogu, Assistant Professor, BAF Department

The course was conducted by in-house faculty of VSIT, Ms. Pooja Jogu. She explained all the functions of excel in detail. The course was mainly aimed at imparting hands on knowledge and practice of MS Excel. The course was a blend of lectures and hands on practice wherein students performed the excel functions and also did a couple of assignments. The topics covered during the sessions included Autofill and Custom List, Named Range and 3D cell reference, Custom Sort and Advanced Filter, Conditional Formatting and Data Validation, Functions – Mathematical, Date, Text, Logical, Tables & Charts, Pivot Table, Pivot Charts and Power Pivot, Sparklines and Trend lines, What if Analysis, Goal Seek, Scenario Manager, Solver, Data Table.

A total of **36 students** successfully completed the course along.

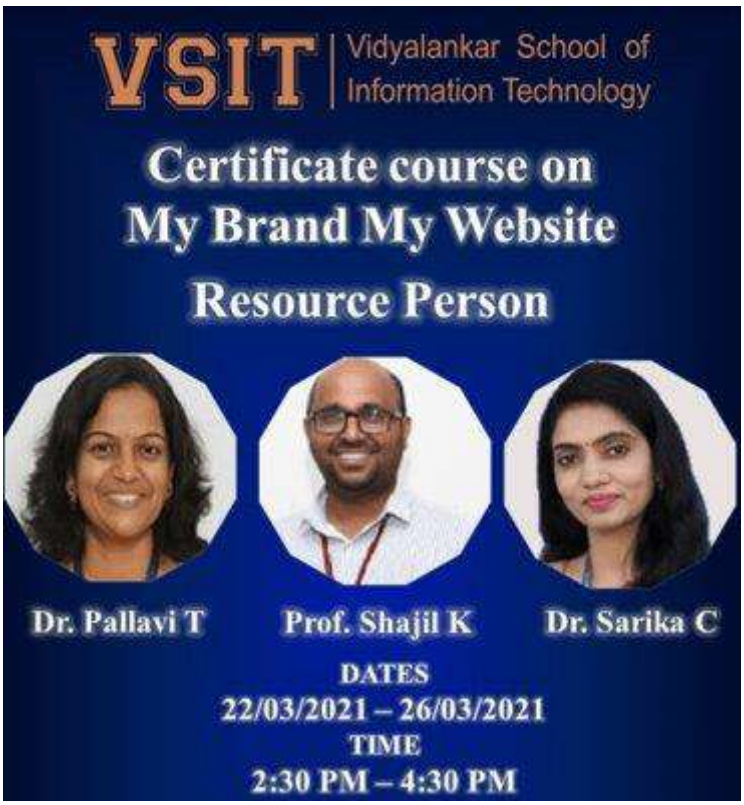
Value Added Course on My Brand My Website



Department of IT, VSIT organised a Value-Added Course on My Brand My Website for First year B.Sc. IT students. This event was conducted by Dr. Sarika Chouhan, Dr. Pallavi Tawde and Mr. Shajil Kumar.

The course was conducted on 22nd March to 26th March 2021 from 2.30 PM to 4:30 PM. Total 54 students of VSIT enrolled for the course and 1 student enrolled outside VSIT. No fee was charged for students belonging to VSIT. A fee of Rs. 500/- was proposed for students outside VSIT.

On the first day some basic information on web development, introduction to WordPress, difference between .com & .org website and how to create our account on WordPress were covered. On the second day how to make our home page in wordpress.com and customize it using various options like how to change background colour, add background image, using various text formats etc were taught. On third day knowledge on how to add pages, menus and how to download the WordPress desktop app were covered. On fourth day how to use

desktop app and some of its special features were covered. On the fifth day Design and create Footer and hosting website using WordPress were explained. All students were asked to present their web pages. It was totally a hands-on session where all student websites were verified and suggestions were given to improve the website functionality.

The students were given an assignment for 15 hours.

Report on Value-added Course on Adobe Photoshop and Adobe Premier Pro

Resource Person : Vinay Darekar & Ashni Methe

Date: 15-2-21

Platform : Microsoft Teams

Target Audience : SYBAMMC

Time : 2:00 PM to 4:00 PM

Topic: Value-added Course on Adobe Photoshop and Adobe Premier Pro

A Session on the topic "Value added course on Adobe Photoshop and Adobe Premier Pro" was held on 15th January 2021 at 2.00 pm which was the last day of the session. The Session was conducted by Vinay Darekar, Ashni Methe .It was organized by the Department of BMM for the SYBAMMC students.
The resource persons Vinay Darekar and Ashni Methe are the ex-students of VSIT. Both were extremely talented and experienced in Adobe Suite as they had come across many internships.
The highlights of the session were:

- Poster making
- Video footages, the uses and importance of various blending and editing modes.

. Lastly, the Session ended with some assignments on the discussed topic given by the supervisor. 60 students participated

Value Added Course on Oracle Certified Associate Java Programmer

Department of IT, VSIT organised a Value - Added Course on Oracle Certified Associate Java Programmer for second year B.Sc. IT students.

It was conducted by Ms. Seema Bhatkar and Ms.Ketaki Ghawali, Assistant professor at VSIT.

The course was conducted on 08th, 09th,10th March and 15th, 16th, 17th March 2021 from 3p.m to 5:30p.m. Total 35 students enrolled for the course. No fee was charged for students belonging to VSIT. A fee of Rs. 500/- was proposed for students outside VSIT.

On the first day, basic concepts of Java, variables, memory allocation were covered. These concepts helped students understand the entire flow of how data is managed in the memory when data is replaced or changed. A few problems were solved on the basis of the topics covered in the session. On the second day more enhanced topics of Java, like operators, string builder, classes were taught. On the third and fourth day we covered topics associated with arrays, inheritance and interfaces were covered. On the fifth and sixth day, we covered problems based on packages, date time and array list.

The students were given an assignment for 15 hours.

Value Added Course on Oracle Certified Associate - PLSQL

Department of IT, VSIT organised a Value - Added Course on Oracle Certified Associate PLSQL for second year B.Sc. IT students.

It was conducted by Mr. Hrishikesh Tendulkar and Ms. Kimaya Shelar, Ms. Rohini Desai Assistant professor at VSIT.

The course was conducted on 13th, 20th,27th March, and 3rd April 2021 from 10 a.m. to 12:30 p.m. Total 45 students of VSIT enrolled for the course and 1 student enrolled outside VSIT. No fee was charged for students belonging to VSIT. A fee of Rs. 500/- was proposed for students outside VSIT.

On the first day, basic concepts of PL/SQL variables, basic block concepts were covered. These concepts helped students understand the entire working of the Pl/SQL block. We also covered various types of blocks.

On the second day different constructs like if, case, while and for and more advanced data type storing techniques like %TYPE and %ROWTYPE and conversion were taught.

On the third day we covered topics like functions and procedures and various control modes in procedures and different types of procedures.

On the fourth day, we covered the topics like user defined packages and various types of triggers and quiz conducted as an activity.

The students were given an assignment for 15 hours.

Report of VAC on Social Media Management

A Value-Added Course on “Social Media Management” was conducted by the Department of Mass Media of Vidyalankar School of Information Technology. This course, with a duration of 30 hours, was conducted thrice a week, on Monday, Thursday, and Friday on the online meeting platform - Microsoft Teams. The scheduled time for the same was 9.00 a.m. to 10.00 a.m. A total number of 76 students attended the courses that commenced from January 18, 2021. The resource person for this course, Ms. Smita Deshmukh, is a writer, consultant, PR representative, professor, and media advisor. She holds an experience of working at the Indian Express, Times of India, Bombay Times and DNA. Ms. Deshmukh emphasised on the importance of social media in today's world. She mentioned that interviewers usually ask questions related to social media platforms to the candidates, regardless of their field of study. Through this VAC, students understood social media from the business perspective as India holds a vast online audience and thus, major e-commerce firms are focusing majorly on the Indian market. She shared the statistical data of Indians on internet and social media platforms and advised that all media professionals must establish an online presence as the advertisers are turning their heads towards the social media influencers to promote their products instead of the traditional media advertisements. She used the term 'Choreographed News' to define the customised distribution of news online. While explaining the need of a strong online presence, she mentioned an order of priority of social media platforms, which is as follows: 1) Twitter 2) Instagram 3) LinkedIn 4) YouTube. She concluded the session on an important note by saying, "No business can survive without social media, today.”

VAC on Public Speaking Attendance of all students

Value-Added Course on "Quantitative Aptitude for Competitive Examinations" March 2021

Date: 10th March to 24th April 2021.

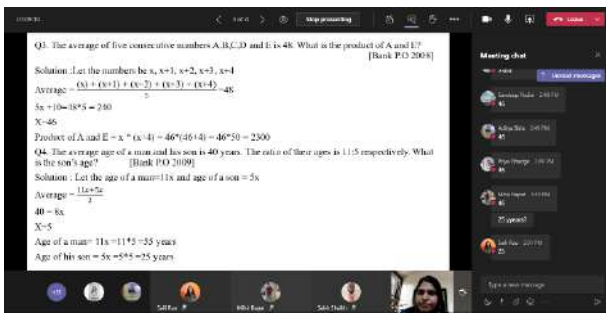
Time: 3.00 pm to 5.00 pm (Every Friday & Saturday).

Detailed report:

A Value-Added Course was organized and conducted by Electronics and Mathematics Cluster of VSIT on the topic "Competitive Examinations – Quantitative Aptitude". It was 30 hrs duration course conducted by the VSIT Faculty Ms. Geeta Sahu and Mr. Sabir Shaikh as a trainer. The course started from 10th March 2021 and completed on 24th April 2021. The training was conducted online via Ms. Teams. This course was open to all outside students as well and we have received overwhelming response from outside college students. Total 43 students participated.

A competitive examination is an examination where candidates are ranked according to their grades. If the examination is open for *n* positions, then the first *n* candidates in ranks pass, the others are rejected. These are used as some entrance examinations for reputed university and college admissions such as M.BA and M.C.A etc. Another type is union public civil service (U.P.S.C) examinations, bank probationary officer (P.O) examinations, railway recruitment board (R.R.B) examinations etc. required for positions in the public sector, the U.S. Foreign Service Exam, and the United Nations Competitive Examination. Competitive examinations are considered a democratic way of choosing worthy applicants without risking influence peddling, bias, or other concerns.

Keeping these things in mind various topics were taught to the students like: Problems based on Ages, Number systems, shortcut tricks for multiplication of 2-3digit numbers, Calendar Problems, Problems on Average calculation, Data Interpretation problems –Tabulations, Bar Graphs, Pie- Chart, Probability Problems, Ration and Proportion, Area and Volume Calculation, Problems on Percentage Calculation, Time and Work Calculation, Simplifications and many more. Five assignment solving for all the modules was also done.



Q3. The average of five consecutive numbers A,B,C,D and E is 48. What is the product of A and E? [Bank P.O 2008]

Solution :Let the numbers be x, x+1, x+2, x+3, x+4

Average = $\frac{(x)+(x+1)+(x+2)+(x+3)+(x+4)}{5}=48$

5x +10=48*5 = 240

X=46

Product of A and E = x * (x+4) = 46*(46+4) = 46*50 = 2300

Q4. The average age of a man and his son is 40 years. The ratio of their ages is 11:5 respectively. What is the son's age? [Bank P.O 2009]

Solution : Let the age of a man=11x and age of a son = 5x

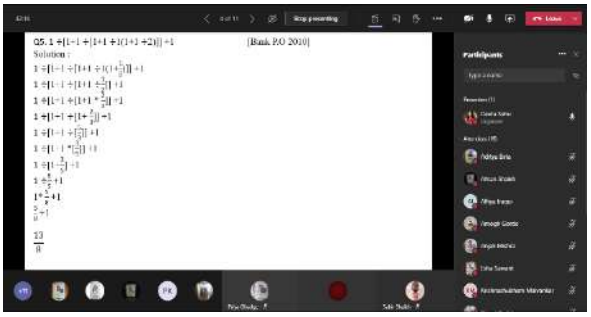
Average = $\frac{11x+5x}{2}$

40 = 8x

X=5

Age of a man= 11x =11*5 =55 years

Age of his son = 5x =5*5 =25 years



Q5. $1\div[1-1\div\{1+1\div(1+1\div2)\}]+1$ [Bank P.O 2010]

Solution :

$1\div[1-1\div\{1+1\div(\frac{1}{2})\}]+1$

$1\div[1-1\div\{1+1*\frac{2}{1}\}]+1$

$1\div[1-1\div\{1+2\}]+1$

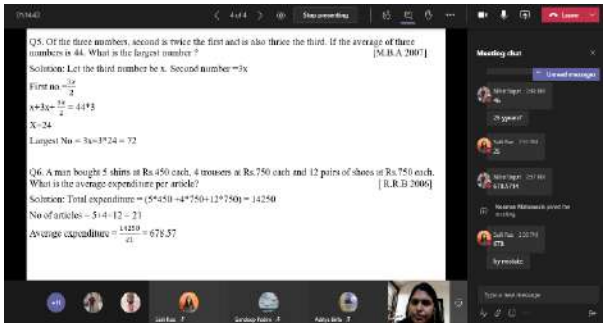
$1\div[1-1*\frac{1}{3}]+1$

$1\div[1-\frac{1}{3}]+1$

$1*\frac{3}{2}+1$

$\frac{3}{2}+1$

$\frac{13}{6}$



Q5. Of the three numbers, second is twice the first and is also thrice the third. If the average of three numbers is 44. What is the largest number ? [M.B.A 2007]

Solution: Let the third number be x. Second number =3x

First no. $=\frac{3x}{2}$

$x+3x+\frac{3x}{2}=44*3$

X=24

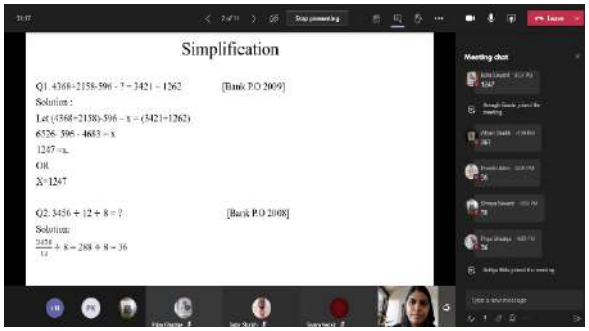
Largest No = 3x=3*24 = 72

Q6. A man bought 5 shirts at Rs.450 each, 4 trousers at Rs.750 each and 12 pairs of shoes at Rs.750 each. What is the average expenditure per article? [R.R.B 2006]

Solution: Total expenditure = (5*450 +4*750+12*750) = 14250

No of articles = 5+4+12 = 21

Average expenditure = $\frac{14250}{21}=678.57$



Simplification

Q1. 4368+2158-596 - ? = 3421 - 1262 [Bank P.O 2009]

Solution :

Let (4368+2158)-596 – x = (3421+1262)

6526- 596 - 4683 = x

1247 =x.

OR

X=1247

Q2. 3456 ÷ 12 × 8 = ? [Bank P.O 2008]

Solution:

$\frac{3456}{12}\times 8=288\times 8=36$

Value Added Course on Open – Source Tools

Department of Information Technology of Vidyalankar School of
Information Technology had organized a Value-Added Course on "Open – Source Tools".
The resource persons for the course were Mr. Asif Rampurawala, Ms. Prachi Mahajan and Ms. Ketaki Ghawali, Assistant Professors of Vidyalankar School of Information Technology. The details of the course were as follows:
Date: 19th March 2021 to 24th April 2021
Time: 2:30p.m to 4: 30p.m

Takeaways:

Ms. Ketaki started off the first day of the course by giving a brief introduction about Linux, its applications, job aspects and a general idea about how the course will be conducted over a span of 10 days.

Ms. Prachi then took the course ahead for the first day by giving the students a brief introduction about the Linux OS by showing them the GUI for the same. On all the subsequent days of the course, Ms. Ketaki and Ms. Prachi taught the basics of Linux commands, the scenarios where they can be used by using the hands – on approach.

During the last 5 sessions, the students were taught about shell scripts. A brief introduction about what shell scripts are and where and how they can be used in the real time environment was given to the students. Further, the basic syntax for writing a shell script and the settings required to make the script executable were shown to the students. The students performed these steps at the same time. A few more shell scripts were taught to the students where they learned about implementing conditional statements, looping constructs, writing functions, and using Linux commands within these statements.

The course helped students learn in depth about a new type of operating system, working with commands, and writing scripts to perform certain tasks on the machine. It gave them an exposure to explore the operating system.

Value Added Course on "Python and Statistics for Financial Analysis"

Resource Person : Ms. Snehal Tandale, Assistant Professor, VSIT

Date :18th January 2021-15th February 2021 (Mon, Wed, Fri)

Platform : Microsoft Teams

Target Audience : SY BBI and TY BBI

Time : 3:00 PM to 5:00 PM

Topic: Value Added Course on "Python and Statistics for Financial Analysis"

A Value Added Course was conducted on how to use Python and Statistics for analysing Financial Markets.

Python is now becoming the number 1 programming language. Due to python's simplicity and high readability, it is gaining its importance in the financial industry. The course combined both python coding and statistical concepts and applies into analysing financial data, such as stock data.

The Couse duration was 30 Hrs.

The Value Added Course was conducted by Prof. Snehal Tandale, VSIT and the session was attended by 44 students.

The VAC was conducted on Cloud Platform called Google CoLab.

The course started with learning the basics of Python. After learning basics, different packages required for analysis was explained and used practically. Facebook and Microsoft stock data was used for performing the analysis. Other topics that were covered included plottign graphs, models of distribution, sample, interval, sample variable, hypothesis testing, linear regression.

Value Added Course on Tally ERP 9 with GST

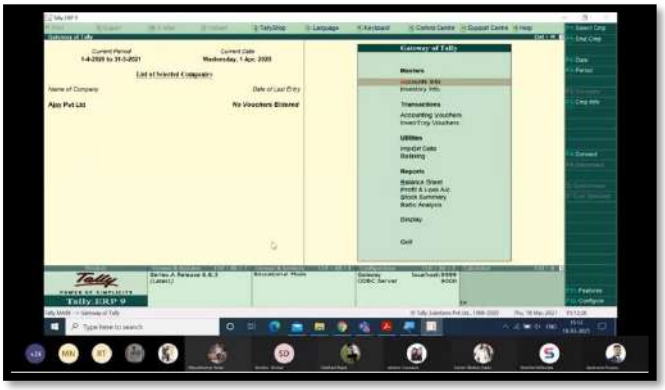
B.Com (Accounting & Finance) dept of Vidyalankar School of Information Technology organized its online hands-on Value Added Course on Tally ERP 9. This course was primarily targeted for SYBAF students of VSIT.

Duration:	1st March 2021 to 7th April 2021
Timing	3.00 pm to 5.00 pm
Platform	Microsoft Teams
Conducted by	Mr. Ajay Poojary
Faculty -In Charge	Mr. Ajay Poojary

Objectives:

The following were the objectives of the session:

- Overview of working of Tally ERP 9
- Basic and Advanced Features of Tally ERP 9
- GST Configurations in Tally ERP 9
- Recording entries in Tally ERP 9
- Generate GST invoices and transactions as per GST format
- Various GST Reports in Tally ERP 9



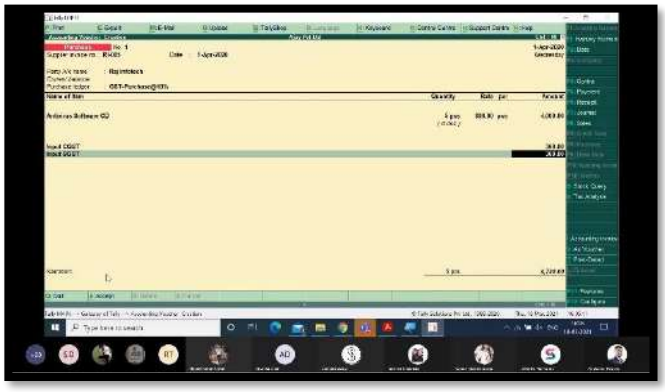
Trainers:

1) Mr.Shreyas Bondre, Assistant Professor, BAF Dept:
The course was started by in-house faculty of VSIT, Mr.Shreyas Bondre. He explained the basic concepts of GST in detail. He also explained the registration of dealers in GST and various tax slab rates in GST regime.

2) Mr.Ajaykumar Poojary, Assistant Professor, BAF Dept:

The course was further taken by Mr.Ajaykumar Poojary, where he started right from Tally ERP 9 fundamentals such as creating a company, creating ledgers and groups, creating inventory masters, to passing GST entries in Tally ERP 9.

3) Mr.Vijay Gawde, Vice-Principal, VSIT:
The course was concluded by Mr.Vijay Gawde, where he demonstrated various GST reports in Tally ERP 9 such as GSTR-1, GSTR-2, GSTR3-B and GSTR-9. He also explained the need and usage of filing of each returns.



A total of **43 students** have successfully completed the course along with all the assignments and also the Final Test.

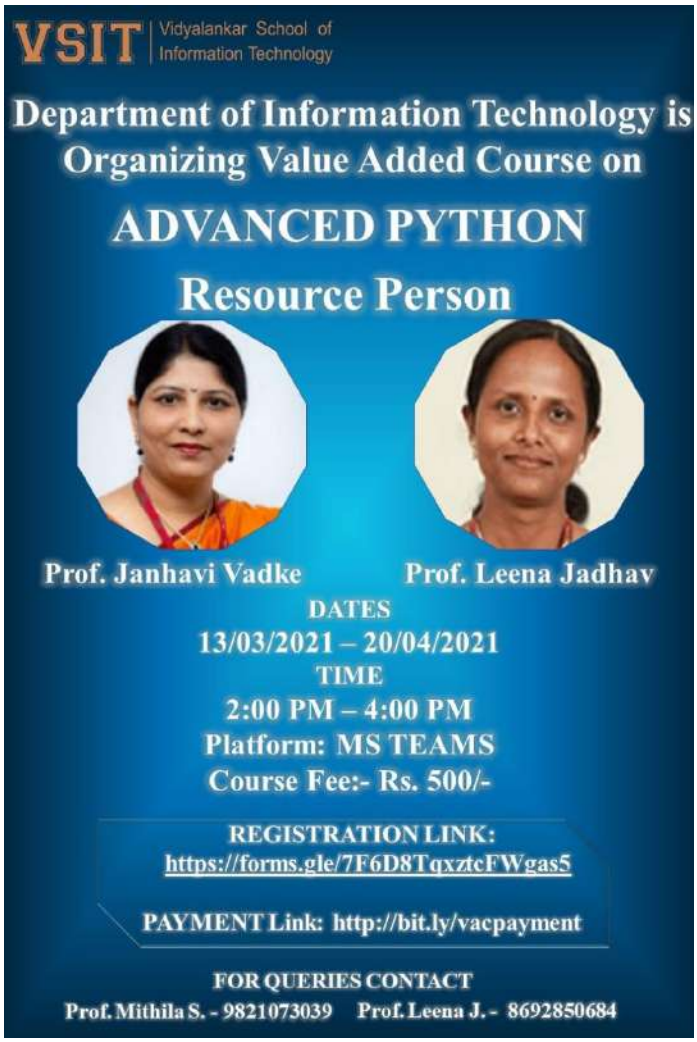
Value Added Course on Advanced Python



Software Development Cluster of Information Technology department had organized Value Added Course on Advanced Python from 13th March 2021 to 20th April 2021 at 2.00 pm to 4.00 pm. The Value Added Course was conducted by Prof. Janhavi Vadke and Prof. Leena Jadhav on Ms Teams for TYBScIT students to know the advanced concepts in Python Programming which is not covered in syllabus. Total 30 students enrolled for the course.

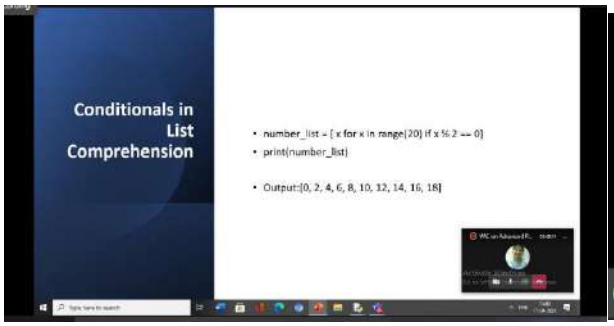
On First Day Prof. Janhavi Vadke started with introduction to Python Programming and Object-Oriented Programming and Prof. Leena Jadhav continued with super and advanced concept.

Different topics like working with Relational Databases and CSV, JSON data. Lamda functions, Collections, Advanced List Comprehensions, Mutable and Immutable built in Objects, Modules and Packages, Mapping and Filtering, Sort sequence, Testing and Debugging and web Scraping were covered in these sessions.

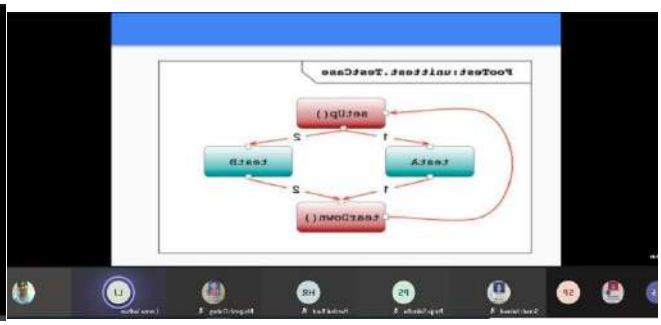
TYBScIT students found the sessions very useful as Python is widely used in the corporate world today. They were very interactive during the sessions and were simultaneously performing on online editor google collab. There was a very good feedback from students. On an average 20 students from TYBScIT attended the session.

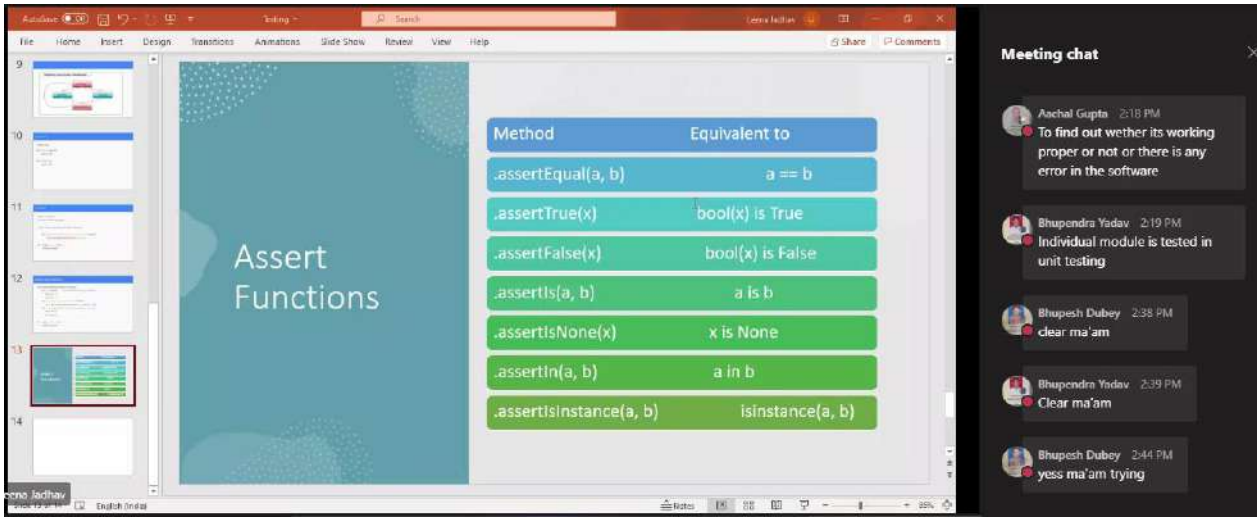
Super

Advanced List Comprehensions
Meeting chat



Conditionals in List Comprehension
number_list = [x for x in range(20) if x % 2 == 0]
print(number_list)
Output:[0, 2, 4, 6, 8, 10, 12, 14, 16, 18]





Assert Functions
Method
Equivalent to
.assertEqual(a, b)
a == b
.assertTrue(x)
bool(x) is True
.assertFalse(x)
bool(x) is False
.assertIs(a, b)
a is b
.assertIsNone(x)
x is None
.assertIn(a, b)
a in b
.assertIsInstance(a, b)
isinstance(a, b)

Department of B.Com. (Financial Markets)
"Stock Market & Online Trading Course"

Dates:	10th Nov,2020-14th Nov,2020
Timing:	5:00 pm – 7:00 pm
Mode of Workshop:	Online (Microsoft Teams)
No of Participants:	92
Conducted By:	**Mr.Mitesh Shukla in Association with Logic Online Academy**
Faculty – In Charge:	**Mr. Santosh Gupta**

This Course has made students aware about the basics and advanced phenomenon of our Indian Stock Exchanges. It has served as a guide about how companies make strategy to generate finance and finding ways to invest. It has given students global view on how to analyse company financial statements which had helped students to derive valuation of companies. The course had made aware on how to do online trading easy & in efficient way.

The following feedback was received from Students:

1. Students felt that how companies' valuation can be removed and select stocks for future investing and trading. Live Trading was presented effectively.
2. Students were of the opinion that VAC brought practical knowledge of trading in stock market in them.
3. Students opined that the trainer was highly knowledgeable.
4. Students that such workshops should be arranged regularly.

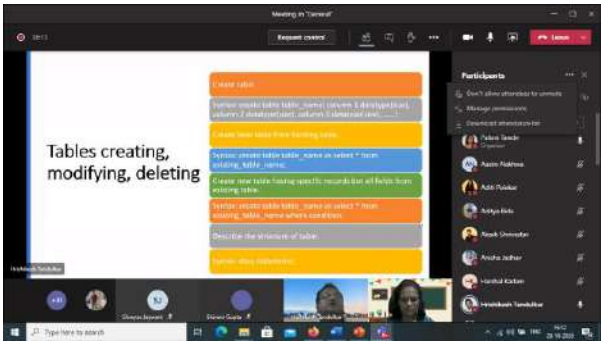
Value-Added Course on 'DBA: SQL Essentials'

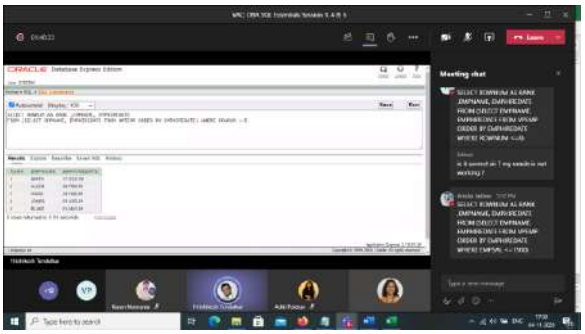
Date of activity:	28.10.2020 -12.11.2020
Venue:	MS Teams
Target Audience:	B.Sc. (IT) Students
No. of Students Attended:	**35**

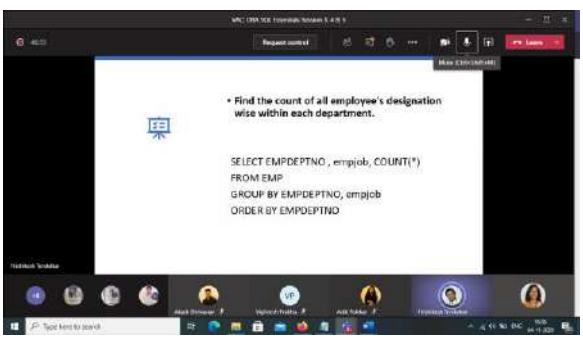
Software Development cluster of VSIT organized a 32-hour value-added course for "DBA: SQL Essentials" for all the S.Y.B.Sc. IT students.

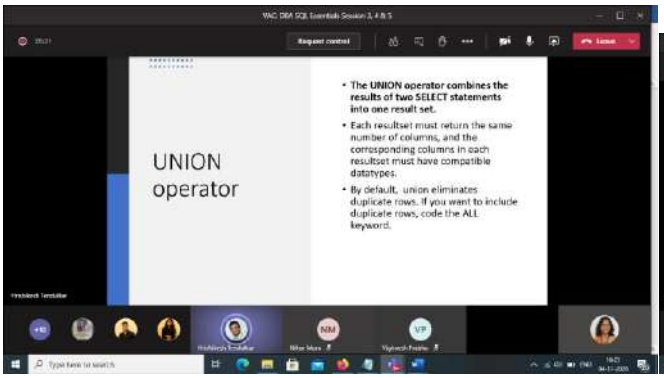
The objective of this course was to write SQL (Structured Query Language) from scratch with SQL Essentials training course which will easily help the students to step through writing SQL using Oracle and create the database for their projects efficiently. It was held from 28th October 2020 to 12th November 2020 in online mode on MS Teams platform.

This course consist of lecture series on the topics useful for all the database like Introduction of SQL and Oracle. Using DDL Statements to Create and Manage Tables, Manipulating Data Using DML. Retrieving Data Using the SQL Select Statement, Restricting and Sorting Data. Using Single Row functions, Using Conversion Functions and Conditional Expressions. Aggregated Data Using the Group Functions and Displaying Data from Multiple Tables. Using the Subqueries and SET operators. The course helped the students to learn the concepts of SQL essentials required for DBA very well. Different assignments were also given to students based on the concepts taught in the course which helped them to practice the concepts and write queries and output screens for the given problem statements. These sessions were taken by Mr. Hrishikesh Tendulkar and Mrs. Pallavi Tawde from 4:00 pm to 7:00 pm on MS Teams.









UNION
operator
• The UNION operator combines the results of two SELECT statements into one result set.
• Each resultset must return the same number of columns, and the corresponding columns in each resultset must have compatible datatypes.
• By default, union eliminates duplicate rows. If you want to include duplicate rows, code the ALL keyword.

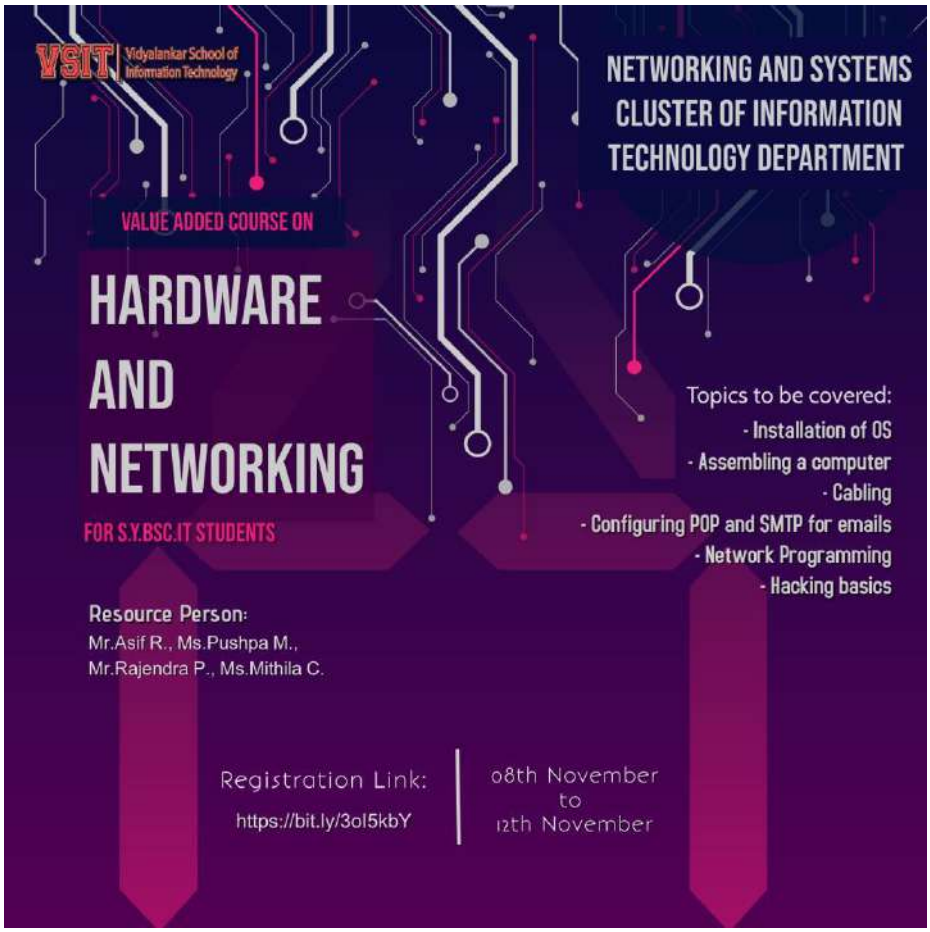
Value Added Course – "Hardware and Networking"

Date of activity	7th Nov 2020 to 12th Nov 2020
Time	Online sessions from 10.00 AM to 2 PM, Assignment: 4:00 pm to 6:00 pm
Venue	Online Using Microsoft Teams
Guest Speaker:	Mr. Asif Rampurawala, Ms. Pushpa Mahapatro, Mr. Rajendra Patole, Ms. Mithila Chavan

Networking and Systems cluster has organized Value Added Course – "**Hardware and Networking**" for S.Y.B.Sc – IT students from 8th Nov 2020 to 12th Nov 2020.



The resource persons for the sessions were Mr. Asif Rampurawala, Vice Principal, Ms. Pushpa Mahapatro, Cluster Mentor of Networking and Systems Cluster, Mr.Rajendra Patole, Lab Committee in charge and Ms. Mithila Chavan. The session started with the introduction of Resource Persons.

Day 1: 7th Nov 2020

The first day of the value-added course consisted of the Introduction to hardware parts in a CPU consisting of various hardware components such as RAM, CMOS battery, SMPS, transistors, resistors, hard disk, NIC chip and many more.

The other half of the session was based on wire crimping to with the help of RJ45 cable that are used in Ethernet connection. A demonstration was given on crimping the wire, with the help of wire crimper.

Day 2: 8th Nov 2020

The second day was based on the protocols used in networking. The TCP/IP and OSI models were discussed. The IPv4 and IPv6 addressing schemes were discussed in addition to the protocol's models. The protocol involves many methods to make the data safe for transfer including the error detection mechanisms, flow control and many more methods.

The other half of the session consisted of many problems-based learning that were given to students on decimal to hexa-decimal conversion, hexa-decimal to binary conversion that are automatically done by the computer, subnet masks, and many more.

Day 3: 9th Nov 2020

The third day consisted of the OS (operating system) installation of windows 10 and Linux operating systems. The process to how to install windows software and the Linux software was demonstrated. Before installing the software, the storage allocation was done with respect to the hard disks and the various possible errors while installation was discussed.

Day 4: 10th Nov 2020

The fourth day consisted of configuration of Mail, manually using SMTP, POP, and IMAP protocols. Different types of internet connections using the control panel was demonstrated using Dial-up and broad band connection, respectively. The other half of the session consisted of Packet Sniffing demonstration using Wireshark software.

Day 5: 11th Nov 2020

On the fifth day of the session, they were introduced to the socket programming by making them understand the need of libraries, methods, object flow, importance of data flow as well as the gamebased security concepts.

Day 6: 18th Nov 2020

On the sixth day of the session, they were introduced to the Hacking Machines on network. Students performed steps like: Prepare the IP address of the Victim. Download and Install Advanced Port Scanner. Open Advanced Port Scanner and Type the IP Address in the right column and Click Scan. It will list all Opened Ports of the Victim's PC or Router. After retrieving the IP address and the Opened Ports of the Victim. Students enjoyed the session.

On each day of VAC an assignment of 20 to 30 Marks was scheduled for all participants from 3:00 pm to 05:00 pm. Three assignments were of MCQ's type. Two Lab activity was given as assignment which consisted of PBL based. There were 19 participants for the course. All the attendees were provided with E-Certificates. The workshop overall received very positive feedback from the attendees, and all the attendees enjoyed the hands-on training to the utmost level. Students appreciated the session a lot.

Value Added Course on Open – Source Tools: Linux in Easy Steps

Department of Information Technology of Vidyalankar School of
Information Technology had organized a Value-Added Course on "Open – Source Tools: Linux on Easy Steps".
The resource persons for the course were Mr. Asif Rampurawala, Ms. Prachi Mahajan and Ms. Ketaki Ghawali, Assistant Professors of Vidyalankar School of Information Technology. The details of the course were as follows:
Date: 15th Jan 2022 to 5th Mar 2022
Time: 9:30a.m to 1: 30p.m

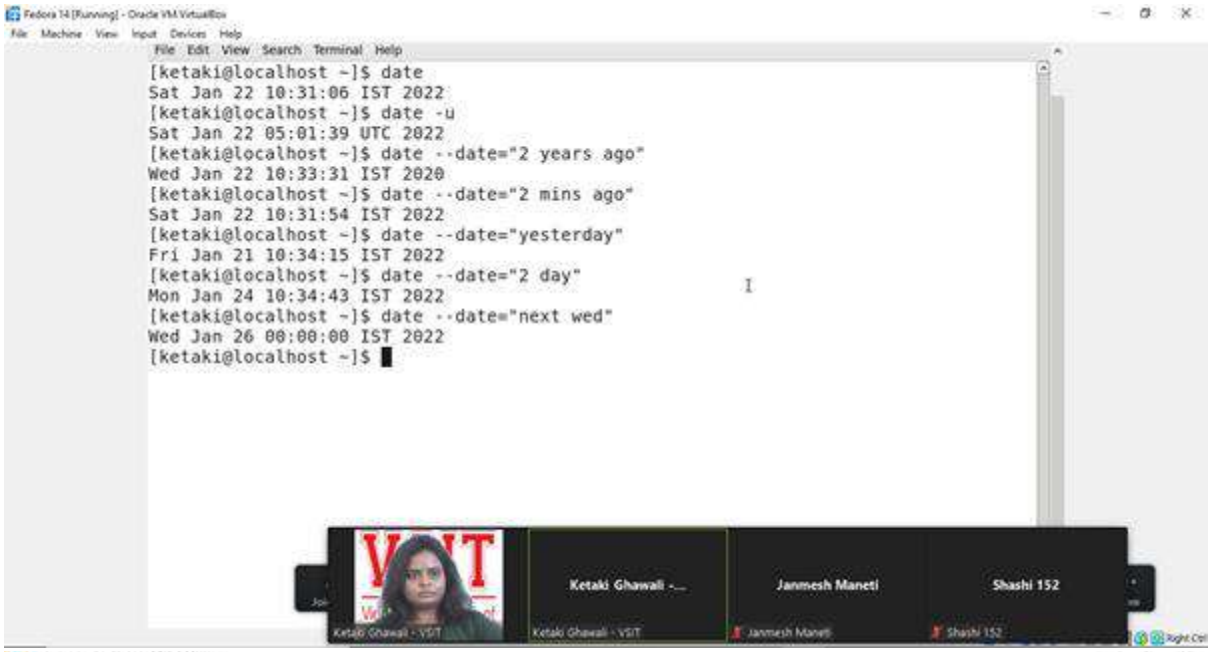
Takeaways:

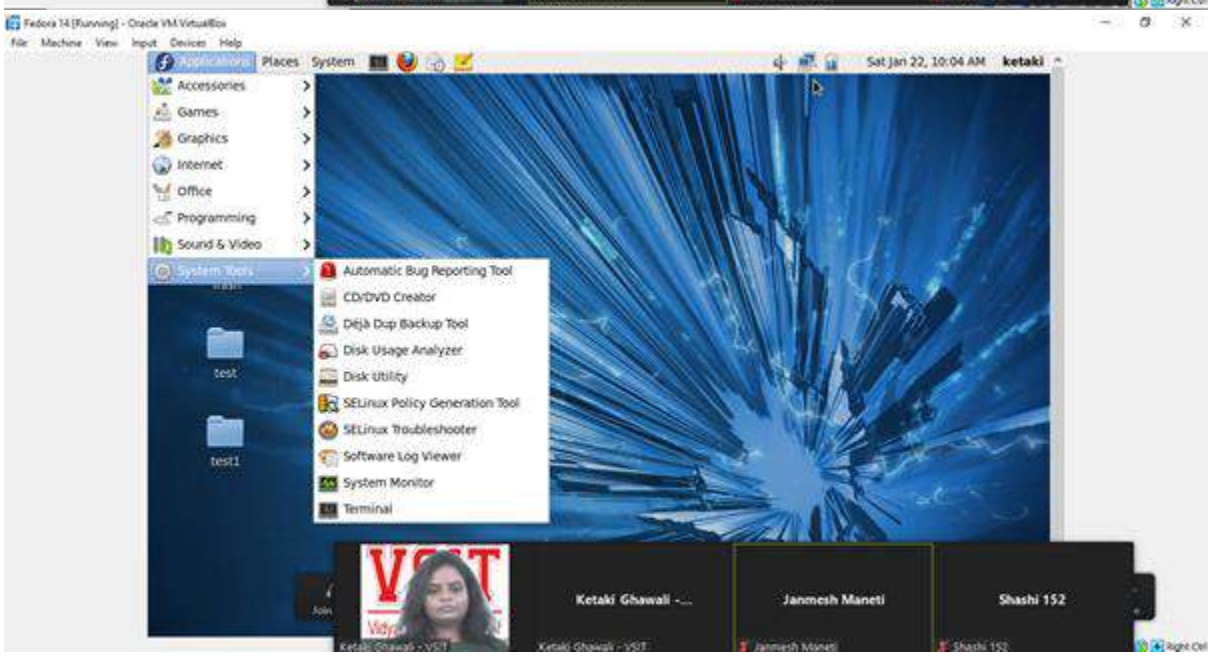
Ms. Ketaki started off the first day of the course by giving a brief introduction about Linux, its applications, job aspects and a general idea about how the course will be conducted over a span of 8 days.

Ms. Prachi then took the course ahead for the first day by giving the students a brief introduction about the Linux OS by showing them the GUI for the same. On all the subsequent days of the course, Ms. Ketaki and Ms. Prachi taught the basics of Linux commands, the scenarios where they can be used by using the hands – on approach.

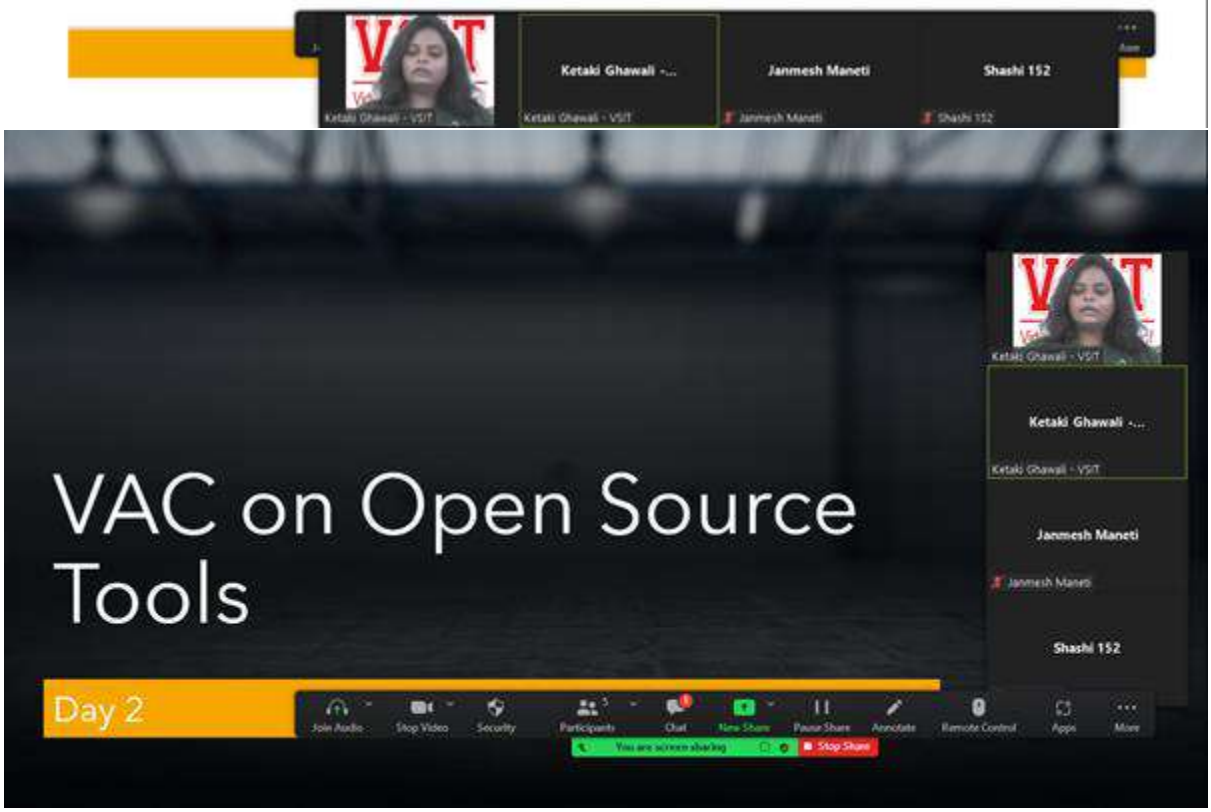
During the last 5 sessions, the students were taught about shell scripts. A brief introduction about what shell scripts are and where and how they can be used in the real time environment was given to the students. Further, the basic syntax for writing a shell script and the settings required to make the script executable were shown to the students. The students performed these steps at the same time. A few more shell scripts were taught to the students where they learned about implementing conditional statements, looping constructs, writing functions, and using Linux commands within these statements. Towards the end of the session a small test was conducted, which gave us an idea about how well have the students understood the concept.

The course helped students learn in depth about a new type of operating system, working with commands, and writing scripts to perform certain tasks on the machine. It gave them an exposure to explore the operating system.





Login Prompt



ACTIVITY #1

TRY THE BASIC COMMANDS

- **Start your Virtual Box**
- **Login**
- **Run the commands**
- **Check the output**

Report for Value Added Course on "Behavioural Economics"

Organised by – BMS Department of VSIT

Organising Club – Enactus The Management Club of VSIT

Date – 30th March 2021 to 10th April 2021

Platform – Microsoft Teams

Speakers: Prof. Abhijit Rane and Prof. Sagar Gaikwad.

No. of Attendees – 28

Professors took sessions on all working days between 30th March,2021 to 10th April,2021. 11 sessions were held for the completion of the course.

Day-1, 30th March, 2021, Tuesday, Prof. Abhijit Rane addressed the first session for the course. He gave a Brief introduction of human behaviour and psychological thinking, also he discussed Difference between Standard economics and Behavioural economics, Main motives behind studying behavioural economics, Come back of behavioural economics in late 90's. He took a detailed revision of basic economic concepts, like micro and macro-economics, utility.

DAY 2, 31st March,2021, Wednesday Prof. Sagar Gaikwad discussed the introduction of Behavioural Economics with the students, he introduced the concepts of Equity, Marginal Utility and its law, difference between total and marginal Utility and calculation of marginal utility, Assumption, limitation of law of equity, Marginal utility.

Day 3

10 Important principles of economics were discussed in the 3rd session. A brief information on taxation knowledge was given to the students (Types of taxes, etc.) also explanation on people's face trade off concept was given. A glance over through the concepts like Rational people thinking at the margin and Significance of opportunity cost in decision making.

Day 4

Started with an introduction about law of return to sale. Explanation about law of variable proportions was given. Detailed information was provided on the topic of Producing Equilibrium. Explanation of an Isoquant and an indifference through graphs. Difference between Isoquant curve and indifference curve.

Day 5

Brief description about indifference curve income effect. Followed by explanation of indifference curve price effect, Video explanation of indifference curve income effect, indifference curve price effect, brief introduction to indifference curve substitution effect.

Day 6

Started with a brief introduction of homo economics, Explanation on homo economics and emotionalist, explained assumptions of homo economics. A quick summary on homo economics was given. Video explanation on behavioural economics in action and economics was provided.

Day 7

On the 7th day a new topic was started "Survey Responses". Advantages and disadvantages of survey were discussed. Determinants of successful surveys were pointed by the speaker. Steps to developing a successful questionnaire for survey were explained. Also the 'Five W's and one H' were discussed.

Day 8

A Brief introduction of game theory and its application areas, Explanation of John von Neumann and john Nash's work on game theory, Explanation on elements and assumptions of game theory was provided. Introduction of behavioural economics and Heuristics, availability and Anchoring of Heuristics were also discussed.

DAY 9

Started with the explanation of behavioural economics choice architecture, video explanation of how choice architecture influences us was given. A brief description about choice architecture was provided. The difference between behavioural economics and choice architecture were discussed. Voluntary marketing mix and nudge strategies to promote healthy restaurants were provided.

Day 10

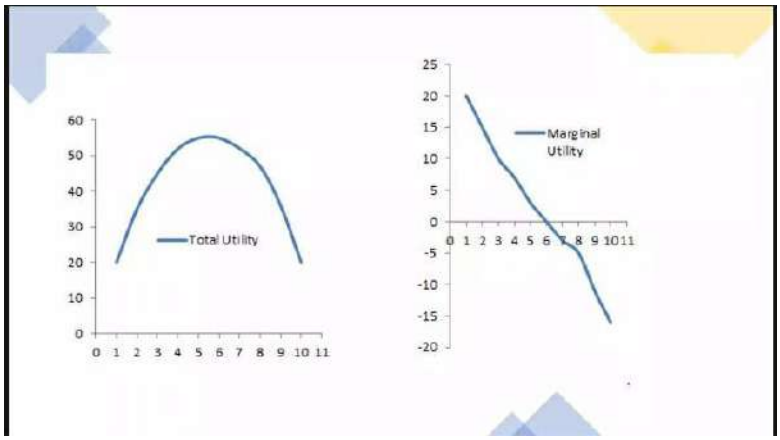
Day 10 began with the introduction to behavioural principles for policy design, Explanation to decision making insights, web chart of principles of behavioural economics. Nudge theory was explained with the help of a video. Deviation from rationality and possible behavioural economics application explained.

Day 11

On the last day of the course explanation of three major human probabilities were discussed. A brief summary on availability heuristic as provided. A Revision of choice architecture and what all things that makes people happy was taken. Explanation of what is deviation from rationality and possible behavioral economics.

The last session was conducted on 10-April, 2021 by Prof. Abhijeet Rane, he also took a test of the students at the ending of the session. The Speakers were happy to see the response from the students side. The students were delighted to receive such an enlightening and in depth knowledge on economics.

Attached are some pictures from the session.



10 Principles of Economics

How People Make Decisions

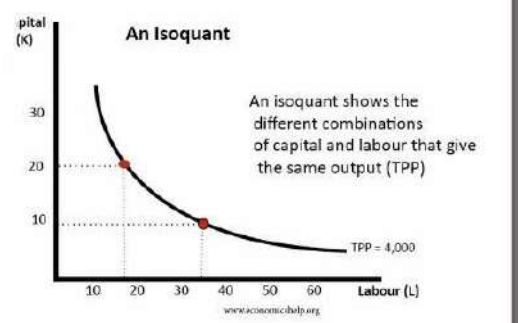
- People face trade-offs
- The cost of something is what you give up to get it
- Rational people think at the margin
- People respond to incentives

How People Interact With Each Other

- Trade can make everyone better off
- Markets are usually a good way to organize economic activity
- Governments can sometimes improve market outcomes

The Forces and Trends That Affect How The Economy as a Whole Works

- A country's standard of living depends on its ability to produce goods and services
- Prices rise when the government prints too much money
- Society faces a short-run trade-off between inflation and unemployment

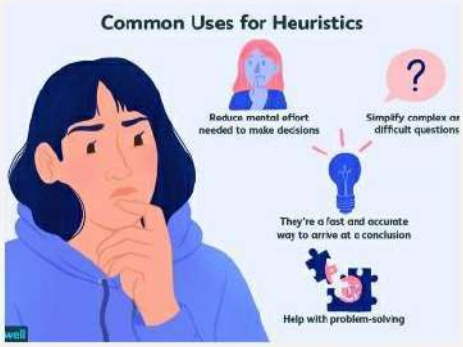


Isoquants

Iso-quant Curve	***Indifference Curve***
Iso-quant curves related with production theory.	Indifference curves are related with demand theory.
It shows the various combinations of two inputs on an equal output.	It shows the various combinations of two commodities.
Iso-quant curve show constant levels of output which can be measured.	These curves show the constant level of satisfaction which cannot be measured.
Iso-quant represents combination of two factors.	Indifference curve represents combination of two good / commodity.
It provide economic and uneconomic information region of production.	It provides no any information about economic and uneconomic region of consumption of goods.
Its slope influenced depends upon Marginal Rate of Substitution between commodities consumed by the consumer.	Its slope influenced depends upon Marginal Rate of Substitution between commodities consumed by the consumer.

Government can sometimes improve market outcomes

- There are two broad reasons for the government to interfere with the economy: the promotion of efficiency and equality.
- Government policy can be most useful when there is market failure.
- Definition of market failure: a situation in which a market left on its own fails to allocate resources efficiently.
- Examples of Market Failure
- Definition of externality: the impact of one person's actions on the well-being of a bystander. (Ex.: Pollution)
- Definition of market power: the ability of a single economic actor (or small group of actors) to have a substantial influence on market prices.
- Because a market economy rewards people for their ability to produce things that other people are willing to pay for, there will be an unequal distribution of economic prosperity.
- Note that the principle states that the government can improve market outcomes. This is not saying that the government always does improve market outcomes.



A heuristic is a mental shortcut that allows people to solve problems and make judgments quickly and efficiently. These rule-of-thumb strategies shorten decision-making time and allow people to function without constantly stopping to think about their next course of action.

Equi-Marginal Utility

- Law of Equi-Marginal Utility explains the relation between the consumption of two or more products and what combination of consumption these products will give optimum satisfaction. Marginal Utility is the additional satisfaction gained by consuming one more unit of a commodity.

Value-Added Course on 'Logic Building'

Date of activity: 13.10.2020 -16.10.2020 and 11.11.2020-12.11.2020
Venue: MS Teams
Target Audience: FY B.Sc. (IT) Students
No. of Students Attended: **40**

Software Development cluster of VSIT organized a 30-hour value-added course for "Logic Building" for all the B.Sc. IT students.

The objective of this course was to build the strong foundation for writing program independently and enhance the logical skills. It was held from 13th October 2020 to 20th October 2020 and 11th-12th November in online mode on MS Teams platform.

This course consisted of lecture series on the topics useful for all the programming subjects like Basic Input and Output and Conditional statements, Looping Statements, Program on patterns printing, Functions, arrays, structures and object-oriented programming concepts. Some students face problems in understanding concepts like looping, arrays, and pointers. The course helped them to overcome these problems and to learn the concepts very well. Different assignments were also given to students based on the concepts taught in the course which helped them to practice the concepts and write algorithms and pseudo-code for given problem statements. These sessions were taken by Dr. Amita Jain and Ms. Ketaki Ghawali. from 4:00 pm to 6:30 pm on MS Teams.

OBJECT
An object could be defined as a person, place, or thing.
Objects in programming can be used to model objects from the real world.
Using objects is a useful way of grouping together details.
Every sentence in the English language would be excruciatingly long if we couldn't all recognize words like "refrigerator" or "pizza."

Course Name – Working with Cassandra Database

About the Course

This course teaches you the basics of working with Cassandra. This course will teach you how to create a database, create a table, and insert and model data. Following are the modules covered during the course period

- Introduction to Cassandra and its Architecture
- Installing Cassandra and Communicating with Cassandra
- CRUD operations in Cassandra Database
- Deep Dive into Cassandra Database
- Creating an application
- Discussing Case Studies

Date of Commencement – 30 Aug 2021

Date of Completion - 04 Sep 2021

Total Registered Students - 44

Average Attendance – 20 students

Consolidated Attendance and Grade Sheet

Report

Value Added Course on Working with Cassandra Database

Networking and Systems Cluster of Department of Information Technology of Vidyalankar School of Information Technology organized Value Added Course on Working with Cassandra Database for T.Y.B.Sc. IT students. The course is conducted by Ms.Seema Murkar and Ms. Spruha More .

The event details were as follows:

Date: 30th Aug – 4th Sep 2021

Time: 3 pm to 5.30 pm

Takeaways:

On the first day of VAC NoSQL database Concept & Cassandra Database Architecture were covered. The second day began with introduction to Cassandra data model, later on the same day students have done the installation of Cassandra Shell on their terminals. On third & fourth CRUD operations and Data Modelling were covered where students have learnt basic to advanced queries to handle unstructured data and also learnt how to mapped relational database onto non- relational database.

. On the fifth day of VAC connection of Cassandra database with Java application were covered where first the required drivers and the steps for connection were discussed then students could successfully transfered data between Java Application And Cassandra database.

On the lastday few case studies were discussed - Hotel Booking Application table designing in Cassandra database, online shopping cart application.

On each day of VAC an assignment of 20Marks were scheduled for all participants from 7:00PM to 10:00PM. The first three assignments were of MCQ's type based on Cassandra Architecture, data model & installation , fourth and fifth assignment consisted of PBL based on CRUD operations , sixth assignment covered questions based on converting relational database to non-relational database.

All the attendees were provided with E-Certificates. The workshop overall received very positive feedback from the attendees, and all the attendees enjoyed the hands-on training to the utmost level.

Analysis:

The analysis is based on the feedback form filled by 14 students although having an average attendance of 20 students for session; the analysis generates the following.

Row Labels	Count of Did you find the session informative?
Yes	14
No	0
Grand Total	**14**

Average of How would you rate the quality of the course?
4.64(On 5)

Average of How would you rate the information shared by the speaker?

Value-Added Course on 'R for Data Analytics'

Date of activity:	**0**5.11.2020 -07.11.2020 and 09.11.2020-10.11.2020
Venue:	MS Teams
Target Audience:	M.Sc. (IT) and SY B.Sc. (IT) Students
No. of Students Attended:	**25**

Software Development cluster of VSIT organized a 32-hour value added course on "R for Data Analytics" for all the M.Sc. (IT) and SY B.Sc. (IT) Students.

The objective of this course was to make students acquaint with R programming language/ software environment for statistical computing and graphics from scratch and make them understand what data analysis is and how to use R for data analysis. It was held from 5th November 2020 to 7th November 2020 and 9th November 2020 to 10th November in online mode on MS Teams platform.

This course consisted of lecture series on the different topics like What is R, features of R, how to install R and R studio, different objects in R. The course helped students to learn the concepts very well. Different assignments were also given to students based on the concepts taught in the course which helped them to practice on the concepts, create data frames, analyze them, and generate different charts for the given problem statements. These sessions were taken by Ms. Beena Kapadia and Dr. Amita Jain from 4:00 pm to 7.00 pm on MS Teams.

Value Added Course in Python for Data Science

Date of activity	22nd , 23rd , 26th and 27th October 2020
Time	4.00 pm – 6.00 pm
Platform	Microsoft Teams
Organised by	Software Development Cluster
Faculty in charge	Ms. Janhavi V, Ms Leena J
No. of Students	31

Software Development cluster of Information Technology department had organized Value Added Course in Python for Data Science on 22nd , 23rd , 26th and 27th October 2020. The Value Added Course was planned for SYBScIT and higher grade students to know the basic knowledge of Data Science which is not covered in syllabus.

On First Day Prof. Leena J started with Python Programming introduction, history and application and Prof. Janhavi V continued with data structure List and methods. On Second Day data structure tuples and dictionary was covered along with arrays in NumPy. In the Third session operations with NumPy and series in Pandas was covered. And in the fourth session Dataframe in Pandas, Panel and plotting with Matplotlib was covered.

The sessions were very interactive, and students actively participated in discussion. There was a very good feedback from students and they showed interest in future sessions of Python for Data Science.

On an average 31 students from SYBScIT and higher class attended the session. Students found the sessions very informative and knowledgeable.

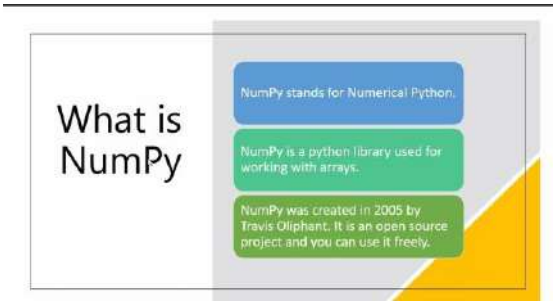
Installation of NumPy
C:\users\leena\pip install numpy
Once NumPy is installed, import it in your program

Step
import numpy as np
arr = np.array([1, 2, 3, 4, 5, 6, 7])
print(arr[1:5:2])
Meeting chat



What is NumPy
NumPy stands for Numerical Python.
NumPy is a python library used for working with arrays.
NumPy was created in 2005 by Travis Oliphant. It is an open source project and you can use it freely.

Value-Added Course on 'Embedded C'

Date of activity: **19**.10.2020 -20.10.2020 and 21.10.2020
Venue: MS Teams
Target Audience: B.Sc. (IT) Students
No. of Students Attended: **37**

Software Development cluster of VSIT organized a 06-hour value added course on "Embedded C" for all the B.Sc. (IT) Students.

The objective of this course was to make students acquaint with Embedded C language and to understand the embedded system specification and develop simple applications. It was held from 19th October 2020 to 21st October in online mode on MS Teams platform.

This course consisted of lecture series on the different topics like What is Embedded C, features of Embedded C, how to install Keil software. The course helped students to learn the concepts very well. Quiz were also given to students based on the concepts taught in the course which helped them to practice on the concepts, create simple applications. These sessions were taken by Ms. Beena Kapadia and Ms. Akshatha Jain from 4:00 pm to 6.00 pm on MS Teams.
