

Python for Data Science Value Added Course

Course Fee

Course fee Rs. 500/- (Non VSIT students), Nil (VSIT students)

Number of students expected: 30

Faculty Members

Dr. Pallavi Tawde

Ms. Leena Jadhav

Ms. Janhavi Vadke

Duration and Venue

30 hours course (Online Mode)

Course content

Date	Time	Topics to be covered	Duration
6 th Sep 2021	3.00 p.m. – 5.30 p.m.	Module – 1 Introduction: Introduction to Data Science and packages	2.5 Hrs.
		Assignment-1: Installation of Data science packages	3 Hrs.
7 th Sep 2021	3.00 p.m. – 5.30 p.m.	Module – 2 Numpy: Array and related operations, Matrix and associated operations	2.5 Hrs.
		Assignment-2: Problem solving with Numpy functions	5 Hrs.
8 th Sep 2021	3.00 p.m. – 5.30 p.m.	Module – 3 Pandas: Dataframe, Pandas Dataframe operations, Control Structures, Functions	2.5 Hrs.
		Assignment-3: Case study on real life applications	5 Hrs.
9 th Sep 2021	3.00 p.m. – 5.30 p.m.	Module – 4 Data Visualization: Matplotlib, Reading data from files and plotting, Introduction to classification and regression	2.5 Hrs.
		Assignment-4: Plotting of different graphs on real life data and Project	7 Hrs.
Total			30 Hours

Criteria for Certification

Certificates will be awarded only to those participants who:

1. Attend all sessions meaningfully
2. Submit assigned work given by instructor on time
3. Submission of mini projects made by the students using tools learned from workshop

Take Away for Students

1. Course Manual
2. Certificate of completion

 Vidyalankar School of Information Technology	<h2>Note</h2>
---	---------------

Date: - 23rd July 2021

Sub: - Value added course on “Python for Data Science” for SYBSc.IT students.

VSIT proposes to organize Value added course on **“Python for Data Science”**.

Objective:

1. To Work with multi-dimensional array using Numpy.
2. To learn processing, manipulating, and analyzing the real-world data for various purposes.
3. To learn Data Visualization for future Prediction.

Contents of the course:

Date	Time	Topics to be covered	Duration
6 th Sep 2021	3.00 p.m. – 5.30 p.m.	Module – 1 Introduction: Introduction to Data Science and packages	2.5 Hrs.
		Assignment-1: Installation of Data science packages	3 Hrs.
7 th Sep 2021	3.00 p.m. – 5.30 p.m.	Module – 2 Numpy: Array and related operations, Matrix and associated operations	2.5 Hrs.
		Assignment-2: Problem solving with Numpy functions	5 Hrs.
8 th Sep 2021	3.00 p.m. – 5.30 p.m.	Module – 3 Pandas: Dataframe, Pandas Dataframe operations, Control Structures, Functions	2.5 Hrs.
		Assignment-3: Case study on real life applications	5 Hrs.
9 th Sep 2021	3.00 p.m. – 5.30 p.m.	Module – 4 Data Visualization: Matplotlib, Reading data from files and plotting, Introduction to classification and regression	2.5 Hrs.
		Assignment-4: Plotting of different graphs on real life data and Project	7 Hrs.
Total			30 Hours

Outcome: To perform Mathematical and Logical operation and Data analysis and visualization

Details of the course:

Dates: 6th Sep 2021 to 9th Sep 2021

Course Duration: 30 Hours

Requirements:

- Basic concepts of Python Programming are required

Platform: Zoom Platform**Resource Person/In-charges:** Leena Jadhav, Janhavi Vadke and Dr. Pallavi Tawde**Target students:**

- SY BSc IT and other college students of all courses

Expected No. of Students: 50

Permission may kindly be granted.

| <input type="checkbox"/> | Time | 3.00 pm to 5.30 pm |
| <input type="checkbox"/> | No. of Participants | Registered - 29 |

Software Development Cluster of Information Technology department had organized Value Added Course on Python for Data Science from 6th September 2021 to 9th September 2021 at 3.00 pm to 5.30 pm. The Value Added Course was conducted by Dr. Pallavi Tawde, Prof. Janhavi Vadke and Prof. Leena Jadhav on Zoom platform for SYBScIT/Computer Science students to know the basic knowledge of Data Science which is not covered in syllabus. Total 30 students enrolled for the course. Students from different colleges like Gurunanak College, Sia College, K.M Agarwal College also attended the session with VSIT.

On First Day Prof. Janhavi Vadke started with introduction to Data Science packages and applications.

On Second Day Prof. Leena Jadhav covered NumPy package with their applications. In the Third session Basic concepts of Pandas and applications of pandas are covered. In the fourth session Matplotlib and AI algorithms like Classification and Linear Regression was covered by Prof. Pallavi tawde

The sessions were very interactive, and students actively participated in discussion. There was a very good feedback from students and they showed interest in future sessions of Python for Data Science

VSIT | Vidyalankari School of Information Technology
6th Sep to 9th Sep 2021
Time 3 to 5:30 pm
Organized by Department of IT

PYTHON FOR DATA SCIENCE

Dr. Pallavi Tawde | Leena Jadhav | Janhavi Vadke

Course Highlights

- Data Science and packages
- Data Visualization
- Classification, Regression

Negative Slicing

```
import numpy as np  
arr = np.array([1, 2, 3, 4, 5, 6, 7])  
print(arr[-2])
```

NumPy Array Slicing

Why Use NumPy

- The array object in NumPy is called ndarray, it provides a lot of supporting functions that make working with ndarray very easy.
- Arrays are very frequently used in data science, where speed and resources are very important.

- Example
- `import numpy as np`
- `arr = np.array([[1, 2, 3, 4], [5, 6, 7, 8]])`
- `print(arr.shape)`
- Output: (2,4)
- array has 2 dimensions, and each dimension has 4 elements.

CERTIFICATE OF VAC

This is to certify that

KHAN AQDAS

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

JADYN DIAS

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'R2K', is written above a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

ROSHAN THOMAS

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

SOUMYA PEDNEKAR

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

YOGESH SUBHASH DUDHAL

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

RUPALI SHASHIKANT SAPKAL

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

ADITYA ARUN GAIKWAD

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

SOHAM SANDEEP RAUL

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

SHUBRATO MAJI

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

SAHIL SAYYED

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

TANMAY PARAB

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

AKASH NARKAR

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

LOKESH GUTTULA SATYANARAYANA

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

ABHISHEK CHINCHOLIKAR

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

SHRAVANI ANAND KADAM

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

SABINA CHAUDHARI

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

WAZHUL KAMAR

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'R2K', is written above a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

APEKSHA UMARE

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

ANIRUDDH RAJESH PEDNEKAR

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'R2K', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

PRIYANKA RAVINDER NAMA

has successfully completed the Value Added Course on "PYTHON FOR DATA SCIENCE" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Java Enterprise Application Development Value Added Course

Course Fee

Course fee Rs. 200/- (Non VSIT students), Nil (VSIT students)

Number of students expected: 50

Faculty Members

Mr. Shajil Kumar

Ms. Rohini Desai

Duration and Venue

30 hours course (Online Mode)

Course content

Date	Time	Topics to be covered	Duration
06 th September 2021	3:00 pm- 5:30 pm	Developing enterprise application using servlet. Two types of servlet. Handling sessions through servlets for enterprise application. Request Response paradigm through servlets	2.5 hours
		Assignment 1- Design Servlet Project for Login Authentication Assignment 2: Develop Simple Question Answer Application	5 hours
07 th September 2021	3:00 pm- 5:30 pm	Handling life cycle methods of servlets. Handling multiple clients and servlet through request dispatcher	2.5 hours
		Assignment 3: Design Servlet for Employee Feedback form and handle multiple clients using sessions	5 hours
08 th September 2021	3:00 pm- 5:30 pm	Develop database application using JDBC: Design of JDBC, JDBC configuration, Executing SQL statement, Query Execution, result sets, row sets, metadata, Transaction.	2.5 hours
		Assignment 4: Write a java program to display all the content of a database table named (depttable). Table Detail: depttable(deptno int primary key, deptname varchar(10), deptloc varchar(10)) Write java program to insert one record of information into the database table named (usertable), by accepting the details from the user. Table Detail: usertable(uid int primary key, uname varchar(10), upass varchar(10)).	5 hours

09 th September 2021	3:00 pm- 5:30 pm	JSP: Introduction, disadvantages, JSP v/s Servlets, Lifecycle of JSP, Action elements, implicit objects, scope, Comments, JSP documents, JSP elements	2.5 hours
	<p>Assignment 5:</p> <p>Project – 1 Create a java bean with a read/write property for the username. Write a JSP page that retrieve the username from the client and uses the bean to store the detail</p> <p>Project – 2 Develop a JSP Project to Authenticate User Login as per the registration details. If login success the forward user to Index Page otherwise show login failure Message</p>		5 hours

Criteria for Certification

Certificates will be awarded only to those participants who:

1. Attend all sessions meaningfully
2. Submit assigned work given by instructor on time
3. Submission of mini projects made by the students using tools learned from workshop

Take Away for Students

1. Develop and Host Own Website
2. Certificate of completion

Date: - 6th September to 9th September, 2021
Session Time: - 2:00PM to 5:30 PM
Assignment Time :- 6:00 PM to 10:00 PM
Audience: - TYIT Students
Platform: - MS TEAMS app
Faculty in charge: Mr. Shajil K and Ms. Rohini D

Software development Cluster of Department of Information Technology of Vidyalankar School of Information Technology organized Value Added Course on Java Enterprise Application Development for T.Y.B.Sc. IT students. The course is conducted by Mr. Shajil K and Ms. Rohini D.

On First Day started with Java Servlets introduction, methods, Handling sessions through servlets for enterprise application, simple example covered. On Second Day started with handling multiple clients and servlet through request dispatcher and examples based on the same. In the Third session introduced with JDBC connectivity with database, connecting application with database the different techniques were covered. In the fourth session started with JSP and Lifecycle of JSP, Action elements, implicit objects, scope, Comments, JSP documents, JSP elements all topics were covered.

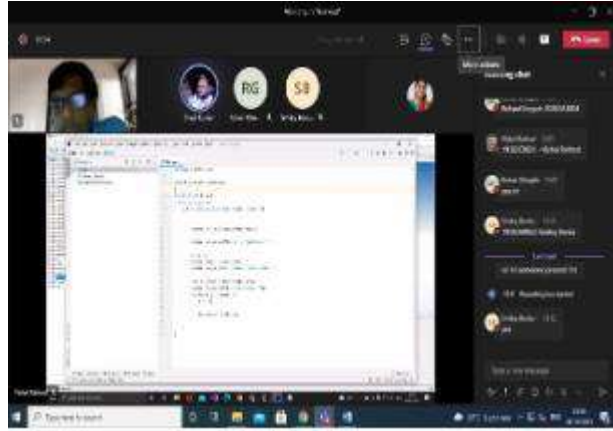

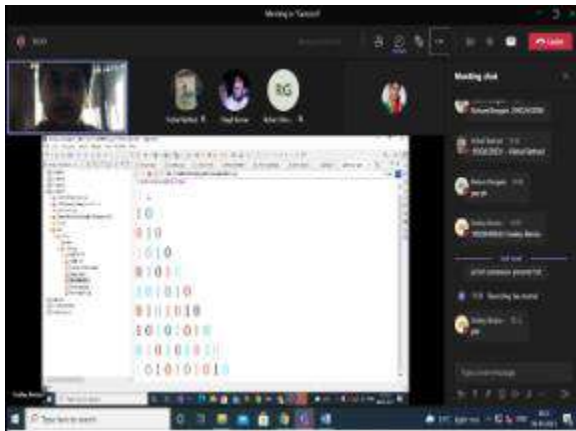

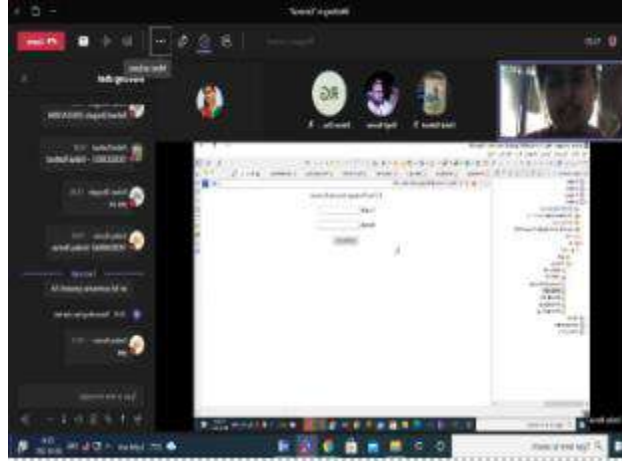

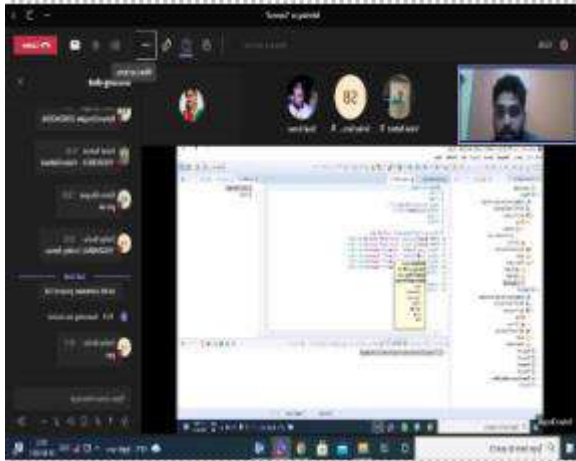

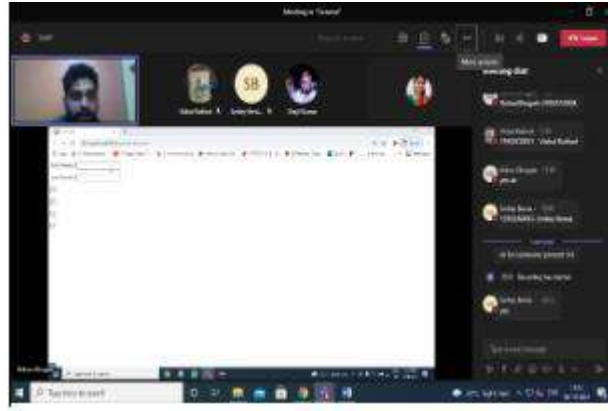

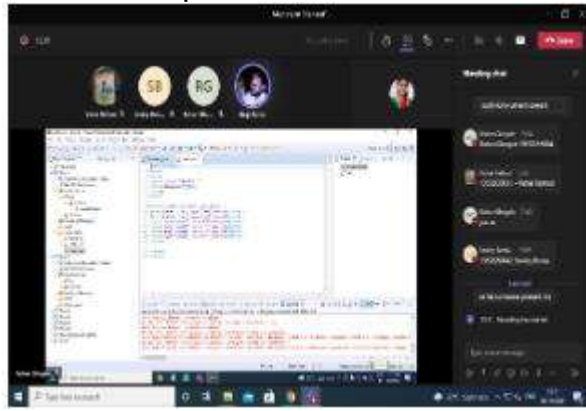

The sessions were very interactive, and students actively participated in discussion. There was very good feedback from students, and they showed interest in future sessions of Java application development.

On an average 15 students from TY BSc IT and higher class attended the session. Students found the sessions very informative and

knowledgeable.

All the attendees were provided with E-Certificates. The workshop overall received very positive feedback from the attendees, and all the attendees enjoyed the hands-on training to the utmost level.

Some Glimpse of the Session:

Feedback Analysis:

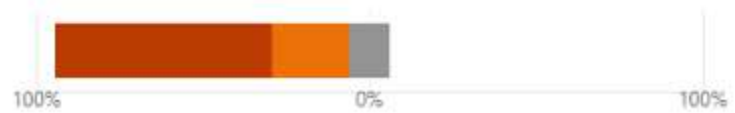

Did you find the session informative?

Yes	17
No	0

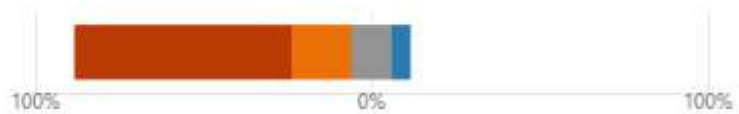

How well was the session meet your expectations?

Excellent Very good Good Average Below average

How would you rate the quality of the course?

Excellent Very good Good Average Below average

How would you rate the information shared by the speaker?

Excellent Very good Good Fair

CERTIFICATE OF VAC

This is to certify that

SUDI KSHA SAWANT

has successfully completed the Value Added Course on "Java Enterprise Application Development" from 06 September 2021 to 09 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Course content

Date	Time	Topics to be covered	Duration
04 th Oct 2021	3.00 p.m. – 5.00 p.m.	Module – 1 <ul style="list-style-type: none"> • Introduction of SQL and Oracle • Using DDL Statements to Create and Manage Tables 	2 Hrs.
		Assignment-1: Oracle Installation and use of livesql.oracle.com.	3 Hrs.
05 th Oct 2021	3.00 p.m. – 5.00 p.m.	Module – 2 <ul style="list-style-type: none"> • Manipulating Data Using DML • Retrieving Data Using the SQL Select Statement 	2 Hrs.
		Assignment-2: Creation of Different Real-Life Databases and using DML operations on it.	3 Hrs.
06 th Oct 2021	3.00 p.m. – 5.00 p.m.	Module – 3 <ul style="list-style-type: none"> • Restricting and Sorting Data • Using Single Row functions 	2 Hrs.
		Assignment-3: Queries on Real life Databases.	3 Hrs.
07 th Oct 2021	3.00 p.m. – 5.00 p.m.	Module – 4 <ul style="list-style-type: none"> • Using Conversion Functions and Conditional Expressions • Aggregated Data Using the Group Functions 	2 Hrs.
		Assignment-4: Write queries using group by clause, conversion functions and conditions.	3 Hrs.
08 th Oct 2021	3.00 p.m. – 5.00 p.m.	Module – 5 <ul style="list-style-type: none"> • Displaying Data from Multiple Tables • Using the Subqueries and SET operators 	2 Hrs.
		Assignment-5: Displaying data from various tables using subqueries and SET operators.	3 Hrs.
09 th Oct 2021	3.00 p.m. – 5.00 p.m.	Module – 6 <ul style="list-style-type: none"> • Creating other Schema Objects 	2 Hrs.

	• Controlling User Access	
	Assignment-6: Creating various database objects and inserting the data. Apply user access on it.	3 Hrs.
Total		30 Hours

Criteria for Certification

Certificates will be awarded only to those participants who:

1. Attend all sessions meaningfully
2. Submit assigned work given by instructor on time
3. Submission of mini projects made by the students using tools learned from workshop

Take Away for Students

1. Write simple as well as complex SQL queries and will be able to use various operators and also use operators to display table from multiple tables.
2. Certificate of completion

Date: - 10th July 2021

Sub: - Value added course on “DBA- SQL Essentials”

Software Development Cluster of VSIT proposes to organize Value added course on “DBA-SQL Essentials”.

Objective:

1. Learn how to write SQL (Structured Query Language) from scratch with SQL Essentials training course.
2. This course will easily help the students to step through writing SQL using Oracle.
3. Developing the database for their mini projects and final year projects efficiently.

Contents of the course:

Report on “DBA-SQL Essentials”

Organised by: - Software Development Cluster of Information Technology

Date: - 4th -9th October, 2021

Time: - 3:00PM to 5:00PM

Audience: - SYBScIT Students

Platform: - MS TEAMS app

Faculty in charge: Prof. AashaChavan, Prof. Hrishikesh Tendulkar and Dr. Pallavi Tawde

Software and Development Cluster of Department of Information Technology of Vidyalkar School of Information Technology organized Value Added Course on “DBA-SQL Essentials” for S.Y.B.Sc. IT students. On the first day of VAC DBA SQL Essentials introduction to database was done and students were told about creation of tables and inserting data into those tables. They were also given the knowledge of various data types used in Oracle. Knowledge about various commands like alter, drop, rename etc. was also done along with hands on practice.

On the second day of VAC, we started with the basic SQL statements and then students also did practice of sorting and restricting the data in various ways. They also studied various types of character functions, date functions and numeric functions.

On the third day students studied the SET operators and more advanced functions like CUBE and ROLLUP and basic GROUP BY functions.

On the fourth day students studied various functions used in GROUP BY clause and learnt to create different types of views and different types of objects like synonyms, sequences etc.

On fifth day of VAC students learnt different types of joins and its various applications and subqueries. They learnt how to grant and revoke the permissions given on the objects created to different users.

On the last day students were told to solve the assignment and test was conducted in MCQ format. All the attendees who have cleared the exam and completed the assignment were provided with E-Certificates. The workshop overall received very positive feedback from the attendees, and all the attendees enjoyed the hands-on training to the utmost level.

Module Name	Hours
Module 1: Introduction to Cassandra and its Architecture	3 hrs
Understanding what Cassandra is? Cassandra Features Data Model Snitch, Gossip , Replication and Virtual Nodes	
Module 2: Installing and Communicating with Cassandra	3 hrs
Installing and Configuring Cassandra Environment Understanding ways to communicate with Cassandra Using cqlsh	
Module 3: CRUD Operations in Cassandra	6 hrs
Create database and table . Inserting Data Updating and Deleting Data	
Module 4 : Deep Dive into Cassandra	3 hrs
Modeling Data	
Module 5: Creating an Application	3 hrs
Setting Up A Development Environment Creating an Application Page Connecting to Cassandra Cluster Executing query and Displaying Result	
Module 6: Discussing Case Studies	6 hrs
Discussing various industry related Case Studies	

Criteria for Certification

Certificates will be awarded only to those participants who:

1. Attend all sessions meaningfully
2. Submit assigned work given by instructor on time
3. Submission of case studies made by the students using tools learned from workshop

Take Away for Students

1. Build high performing database System using Cassandra.
2. Certificate of completion

 Vidyalankar School of Information Technology	<h2>Note</h2>
---	---------------

Date: - 2nd July 2022

Sub: - Value added course on “Working with Cassandra Database” for TY BScIT students

Information Technology Department is organizing a Value added course on “Working with Cassandra Database” for T.Y.BSc.IT and M.Sc.IT students. The objective of this course is to train students to build high performing database System using Cassandra. **Certificate** of participation will be provided to the participants. Course contents are hereby attached with the note.

Event details:

Resource Person	Date and Time	Topics	Assignments
Ms. Seema Murkar, Ms. Spruha More	16/07/2022 10:00 am to 1 pm	Introduction to Cassandra and its Architecture	Assignment 1
	16/07/2022 1:30 pm to 04:30 pm	Installing Cassandra and Communicating with Cassandra	
	23/07/2022 10:00 am to 4:30 pm	CRUD operations in Cassandra Database	Assignment 2
	30/07/2022 10:00 am to 1:00 pm	Deep Dive into Cassandra Database	Assignment 3
	30/07/2022 1:30 pm to 04:30 pm	Creating an application	Assignment 4
	06/08/2022 10:00 am to 4:30 pm	Discussing Case Studies and Creating Case Study Model	Assignment 5

Total Duration: 30 hrs

Faculty In-charge: Ms. Seema Murkar, Ms. Spruha More

No. of Student expected: 30 (25(VSIT)+5(Outsiders))

Course Fee: Rs. 500/- (for outsiders)

Permission may kindly be granted.

**Principal
To,
Director**

Value Added Course on Working with Cassandra Database

Networking and Systems Cluster of Department of Information Technology of Vidyalankar School of Information Technology organized Value Added Course on Working with Cassandra Database for T.Y.B.Sc. IT students. The course is conducted by Ms.Seema Murkar and Ms. Spruha More .

The event details were as follows:

Date: 30th Aug – 4th Sep 2021

Time: 3 pm to 5.30 pm

Takeaways:

On the first day of VAC NoSQL database Concept & Cassandra Database Architecture were covered. The second day began with introduction to Cassandra data model, later on the same day students have done the installation of Cassandra Shell on their terminals. On third & fourth CRUD operations and Data Modelling were covered where students have learnt basic to advanced queries to handle unstructured data and also learnt how to mapped relational database onto non- relational database.

. On the fifth day of VAC connection of Cassandra database with Java application were covered where first the required drivers and the steps for connection were discussed then students could successfully transferred data between Java Application And Cassandra database.

On the lastday few case studies were discussed - Hotel Booking Application table designing in Cassandra database, online shopping cart application.

On each day of VAC an assignment of 20Marks were scheduled for all participants from 7:00PM to 10:00PM. The first three assignments were of MCQ's type based on Cassandra Architecture, data model & installation , fourth and fifth assignment consisted of PBL based on CRUD operations , sixth assignment covered questions based on converting relational database to non- relational database.

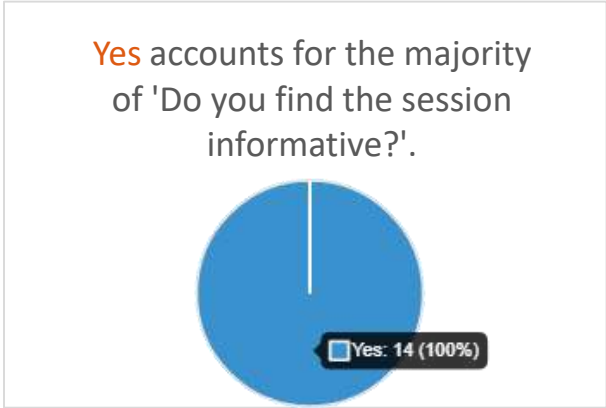

All the attendees were provided with E-Certificates. The workshop overall received very positive feedback from the attendees, and all the attendees enjoyed the hands-on training to the utmost level.

Analysis:

The analysis is based on the feedback form filled by 14 students although having an attendance of 35 for session; the analysis generates the following.

Row Labels	Count of Did you find the session informative?
Yes	14
No	0
Grand Total	14

Average of How would you rate the quality of the Session?
4.57(On 5)

Average of How would you rate the information shared by the speaker?
4.64(On 5)

HISTORY

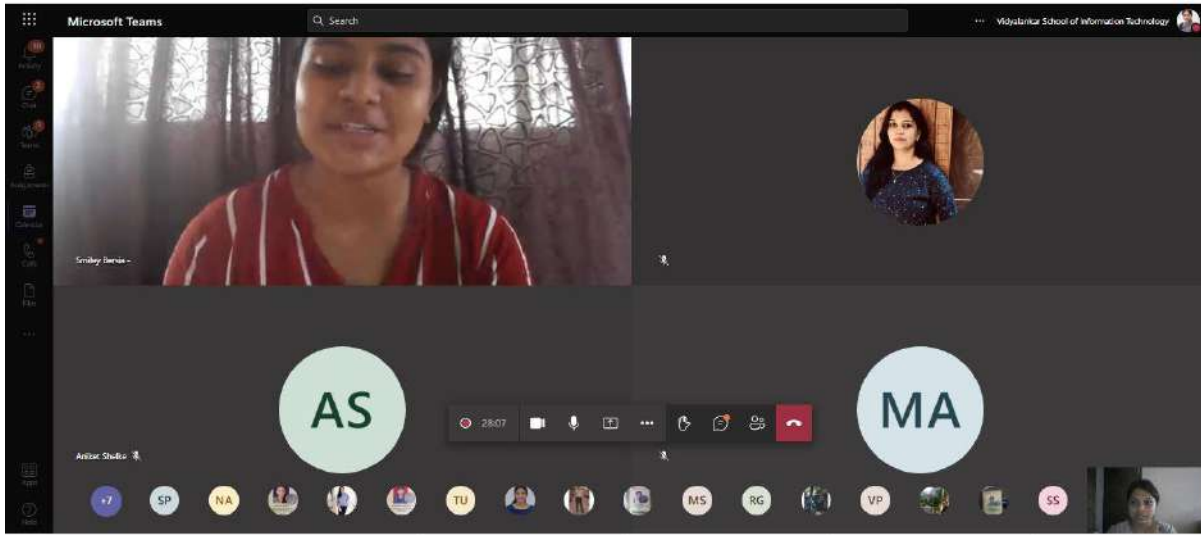

- Principles - Simple, Robust, Portable, Platform-independent, Secured, High Performance, Multithreaded, Distributed, Architecture Neutral, Object-Oriented, Interpreted, and Dynamic.
- Born in 1995 by James Gosling at Sun Microsystems (which is now a subsidiary of Oracle Corporation) and released in 1995.
- GreenTalk → Oak → Java
- How was Java named??

The slide also features a timeline from 1995 to 2020 with various milestones and images related to Java's development.

CAREER PROSPECTS – ADVANCED SKILLS

- Hadoop/Big Data
- Mobile technologies (Android or iOS)
- Advanced JavaScript framework (e.g., Angular, React, VueJS)
- Spring Boot/Microservices
- AI and Machine Learning
- Blockchain
- Python
- Cloud Computing - Amazon Web Services, Azure, Google Cloud

The slide includes a background image of a person's hands typing on a keyboard with code visible on the screen.

CERTIFICATE OF VAC

This is to certify that

DARSHAN BHILARE

has successfully completed the Value Added Course on "Working With Cassandra Database" from 30 August 2021 to 04 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'R2K', is written above a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

DIVYA SHINDE

has successfully completed the Value Added Course on "Working With Cassandra Database" from 30 August 2021 to 04 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

JAGDISH SINGH

has successfully completed the Value Added Course on "Working With Cassandra Database" from 30 August 2021 to 04 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

ROSHAN DEVADIGA

has successfully completed the Value Added Course on "Working With Cassandra Database" from 30 August 2021 to 04 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

PRADNYA POPHALE

has successfully completed the Value Added Course on "Working With Cassandra Database" from 30 August 2021 to 04 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written above a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

TANAYA THAKUR

has successfully completed the Value Added Course on "Working With Cassandra Database" from 30 August 2021 to 04 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

RAHUL ANKAM

has successfully completed the Value Added Course on "Working With Cassandra Database" from 30 August 2021 to 04 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

YASHVIR KAMBLE

has successfully completed the Value Added Course on "Working With Cassandra Database" from 30 August 2021 to 04 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'R2K', is written above a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

MISBAH SHAIKH

has successfully completed the Value Added Course on "Working With Cassandra Database" from 30 August 2021 to 04 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

NIHAR MORA

has successfully completed the Value Added Course on "Working With Cassandra Database" from 30 August 2021 to 04 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

Exam 98-382: Introduction to Programming Using JavaScript – Skills Measured

Audience Profile

Candidates for this exam should be able to recognize and write syntactically correct JavaScript code, use data types supported by JavaScript, and be able to recognize and write JavaScript code that will logically solve a given problem.

Candidates are expected to have at least 100 hours of instruction or hands-on experience with the JavaScript programming language. Candidates should also be familiar with JavaScript features and capabilities, and understand how to write, debug, and maintain well-formed, well documented JavaScript code.

Skills Measured

NOTE: The bullets that appear below each of the skills measured are intended to illustrate how we are assessing that skill. This list is not definitive or exhaustive.

NOTE: In most cases, exams do NOT cover preview features, and some features will only be added to an exam when they are GA (General Availability).

Program with JavaScript Operators, Methods, and Keywords (20-25%)

Complete or debug code that uses assignment and arithmetic operators

- assignment; increment; decrement; addition; subtraction; division; multiplication; modulus; compound assignment operators

Apply JavaScript best practices

- comments; indentations; naming conventions; noscript; constants; reserved keywords; debugger keyword; setting breakpoints; console.log

Evaluate the use of inline and external scripts

- when to use, how to use, and what happens when both are used

Implement exception handling

- try; catch; finally

Complete and debug code that interacts with the Browser Object Model (BOM)

- manage state; display dialogs; determine screen size

Program with Variables, Data Types, and Functions (25-30%)

Declare and use variables of primitive data types

- number; boolean; string; null; undefined; typeof operator; type checking functions; use strict; converting between data types; formatting numbers; string operations; single quote vs double quote (nesting); initialization

Declare and use arrays

- single-dimensional arrays; multi-dimensional arrays; iteration; initialization; define an array; sort and search an array; use push, pop, shift, and unshift methods; use the length property; access an array element

Complete and debug code that uses objects

- properties; methods; instantiation; date object; retrieve date and time parts; localize date format (MM/DD vs DD/MM); add and subtract dates

Complete and debug code that uses built-in Math functions

- random; round; abs; floor; ceiling; min; max; pow; sqrt

Complete and debug a function that accepts parameters and returns a value

- reusable code; local versus global scope, redefine variables, pass parameters, value versus reference, return values

Implement and Analyze Decisions and Loops (20-25%)

Evaluate expressions that use logical and comparison operators

- ==; !=; <, >; <=; >=; !; &&; ||

Complete and debug decision statements

- if; else if; switch; nested if

Complete and debug loops

- for; while; do; break; continue

Interact with the Document Object Model (15-20%)

Identify and construct the Document Object Model (DOM) tree

- window; document; body; other HTML elements

Identify and handle HTML events

- onchange; onmouseover; onload; onclick; onmouseout; onkeydown

Complete and debug code that outputs to an HTML document

- innerHTML; document.write

Complete and debug code that locates, modifies, and adds HTML elements and attributes

- getElementById; getElementsByTagName; getElementsByClassName; setAttribute; createElement

Interact with HTML Forms (5-10%)

Complete and debug code that retrieves input from forms and sets form field values

- retrieve form values; identify the DOM path; get values from different types of elements; populate values; mask values

Complete and debug code that performs input validation

- case; string comparisons; Not-A-Number (NaN)

Describe the form submission process

- onsubmit; post versus get; potential targets for submission

**Batches for VAC on Cross Platform Mobile App Development
with Microsoft Certification**

Study Guide

Exam SC-900: Microsoft Security, Compliance, and Identity Fundamentals

Purpose of this document

This study guide should help you understand what to expect on the exam and includes a summary of the topics the exam might cover and links to additional resources. The information and materials in this document should help you focus your studies as you prepare for the exam.

Useful links	Description
How to earn the certification	Some certifications only require one exam, while others require more. On the details page, you'll find information about what skills are measured and links to registration. Each exam also has its own details page covering exam specifics.
Your Microsoft Learn profile	Connecting your certification profile to Learn brings all your learning activities together. You'll be able to schedule and renew exams, share and print certificates, badges and transcripts, and review your learning statistics inside your Learn profile.
Passing score	All technical exam scores are reported on a scale of 1 to 1,000. A passing score is 700 or greater. As this is a scaled score, it may not equal 70% of the points. A passing score is based on the knowledge and skills needed to demonstrate competence as well as the difficulty of the questions.
Exam sandbox	Are you new to Microsoft certification exams? You can explore the exam environment by visiting our exam sandbox. We created the sandbox as an opportunity for you to experience an exam before you take it. In the sandbox, you can interact with different question types, such as build list, case studies, and others that you might encounter in the user interface when you take an exam. Additionally, it includes the introductory screens, instructions, and help topics related to the different types of questions that your exam might include.

Useful links	Description
	It also includes the non-disclosure agreement that you must accept before you can launch the exam.
Request accommodations	We're committed to ensuring all learners are set up for success. If you use assistive devices, require extra time, or need modification to any part of the exam experience, you can request an accommodation.
Take a practice test	Taking a practice test is a great way to know whether you're ready to take the exam or if you need to study a bit more. Subject-matter experts write the Microsoft Official Practice Tests, which are designed to assess all exam objectives.

Objective domain: skills the exam measures

The English language version of this exam will be updated on November 4, 2022. If you're taking this exam's English version before this date, the following Skills Measured is what you should study. If you want to review changes to the future version, scroll to the end of this document.

Some exams are localized into other languages, and those are updated approximately eight weeks after the English version is updated. Other available languages are listed in the **Schedule Exam** section of the **Exam Details** webpage. If the exam isn't available in your preferred language, you can request an additional 30 minutes to complete the exam.

Note

The bullets that follow each of the skills measured are intended to illustrate how we are assessing that skill. Related topics may be covered in the exam.

Note

Most questions cover features that are general availability (GA). The exam may contain questions on Preview features if those features are commonly used.

Skills measured

- Describe the concepts of security, compliance, and identity (10–15%)
- Describe the capabilities of Microsoft Azure Active Directory (Azure AD), part of Microsoft Entra (25–30%)
- Describe the capabilities of Microsoft Security solutions (25–30%)
- Describe the capabilities of Microsoft compliance solutions (25–30%)

Functional groups

Describe the concepts of security, compliance, and identity (10–15%)

Describe security and compliance concepts

- Describe the shared responsibility model
- Describe defense in depth
- Describe the Zero-Trust model
- Describe encryption and hashing
- Describe compliance concepts

Define identity concepts

- Define identity as the primary security perimeter
- Define authentication
- Define authorization
- Describe identity providers
- Describe Active Directory
- Describe the concept of Federation

Describe the capabilities of Microsoft Azure Active Directory (Azure AD), part of Microsoft Entra (25–30%)

Describe the basic identity services and identity types of Azure AD

- Describe Azure AD
- Describe Azure AD identities
- Describe hybrid identity
- Describe the different external identity types

Describe the authentication capabilities of Azure AD

- Describe the authentication methods available in Azure AD
- Describe Multi-factor Authentication
- Describe self-service password reset
- Describe password protection and management capabilities available in Azure AD

Describe access management capabilities of Azure AD

- Describe conditional access
- Describe the benefits of Azure AD roles
- Describe the benefits of Azure AD role-based access control

Describe the identity protection and governance capabilities of Azure AD

- Describe identity governance in Azure AD

- Describe entitlement management and access reviews
- Describe the capabilities of Azure AD Privileged Identity Management (PIM)
- Describe Azure AD Identity Protection

Describe the capabilities of Microsoft Security solutions (25–30%)

Describe basic security capabilities in Azure

- Describe Azure DDoS protection
- Describe Azure Firewall
- Describe Web Application Firewall
- Describe Network Segmentation with VNet
- Describe Azure Network Security groups
- Describe Azure Bastion and JIT Access
- Describe ways Azure encrypts data

Describe security management capabilities of Azure

- Describe Cloud security posture management (CSPM)
- Describe Microsoft Defender for Cloud
- Describe the enhanced security features of Microsoft Defender for Cloud
- Describe security baselines for Azure

Describe security capabilities of Microsoft Sentinel

- Define the concepts of SIEM and SOAR
- Describe how Microsoft Sentinel provides integrated threat management

Describe threat protection with Microsoft 365 Defender

- Describe Microsoft 365 Defender services
- Describe Microsoft Defender for Office 365
- Describe Microsoft Defender for Endpoint
- Describe Microsoft Defender for Cloud Apps
- Describe Microsoft Defender for Identity
- Describe the Microsoft 365 Defender portal

Describe the capabilities of Microsoft compliance solutions (25–30%)

Describe Microsoft's Service Trust Portal and privacy principles

- Describe the offerings of the Service Trust portal
- Describe Microsoft's privacy principles

Describe the compliance management capabilities of Microsoft Purview

- Describe the Microsoft Purview compliance portal
- Describe compliance manager

- Describe the use and benefits of compliance score

Describe information protection and data lifecycle management capabilities of Microsoft Purview

- Describe data classification capabilities
- Describe the benefits of content explorer and activity explorer
- Describe sensitivity labels
- Describe Data Loss Prevention (DLP)
- Describe Records Management
- Describe Retention Policies and Retention Labels

Describe insider risk capabilities in Microsoft Purview

- Describe Insider Risk Management
- Describe communication compliance
- Describe information barriers

Describe resource governance capabilities in Azure

- Describe Azure Policy
- Describe Azure Blueprints
- Describe the capabilities in the Microsoft Purview governance portal

Study Resources

We recommend that you train and get hands-on experience before you take the exam. We offer self-study options and classroom training as well as links to documentation, community sites, and videos.

Study resources	Links to learning and documentation
Get trained	Choose from self-paced learning paths and modules or take an instructor led course
Find documentation	Microsoft security documentation Azure security documentation Azure Active Directory documentation Microsoft Sentinel documentation Microsoft 365 Defender documentation Microsoft Purview Get started with the Microsoft Service Trust Portal
Ask a question	Microsoft Q&A Microsoft Docs
Get community support	Security, compliance, and identity community hub
Follow Microsoft Learn	Microsoft Learn - Microsoft Tech Community
Find a video	Exam Readiness Zone Microsoft Learn Shows

Microsoft Certified

Security, Compliance, and Identity Fundamentals

Mrunmayee Hemant Patil

has successfully completed the requirements of

Security, Compliance, and Identity Fundamentals

Date Issued: February 10, 2022

A handwritten signature in black ink, appearing to read "N. Satya Nadella".

Satya Nadella
Chief Executive Officer

Microsoft Certified

Security, Compliance, and Identity Fundamentals

Pradnya Maloji Pophale

has successfully completed the requirements of

Security, Compliance, and Identity Fundamentals

Date Issued: February 10, 2022

A handwritten signature in black ink, appearing to read "N. Satya Nadella".

Satya Nadella
Chief Executive Officer

Microsoft Certified

Security, Compliance, and Identity Fundamentals

Mishra Anjali Ravinarayan

has successfully completed the requirements of

Security, Compliance, and Identity Fundamentals

Date Issued: February 10, 2022

A handwritten signature in black ink, appearing to read "N. Satya Nadella".

Satya Nadella
Chief Executive Officer

Microsoft Certified

Security, Compliance, and Identity Fundamentals

Shreya Umesh Sawant

has successfully completed the requirements of

Security, Compliance, and Identity Fundamentals

Date Issued: February 10, 2022

A handwritten signature in black ink, appearing to read "N. Satya Nadella".

Satya Nadella
Chief Executive Officer

Microsoft Certified

Security, Compliance, and Identity Fundamentals

Akash Shrivastav

has successfully completed the requirements of

Security, Compliance, and Identity Fundamentals

Date Issued: February 10, 2022

A handwritten signature in black ink, appearing to read "N. Satya Nadella".

Satya Nadella
Chief Executive Officer

Microsoft Certified

Security, Compliance, and Identity Fundamentals

Aditi Anand Joshi

has successfully completed the requirements of

Security, Compliance, and Identity Fundamentals

Date Issued: February 10, 2022

A handwritten signature in black ink, appearing to read "N. Satya Nadella".

Satya Nadella
Chief Executive Officer

Microsoft Certified

Security, Compliance, and Identity Fundamentals

Anamika Sunil Salvi

has successfully completed the requirements of

Security, Compliance, and Identity Fundamentals

Date Issued: February 10, 2022

A handwritten signature in black ink, appearing to read "N. Salvi".

Satya Nadella
Chief Executive Officer

Microsoft Certified

Security, Compliance, and Identity Fundamentals

KHAN WASIM AYUB

has successfully completed the requirements of

Security, Compliance, and Identity Fundamentals

Date Issued: February 10, 2022

A handwritten signature in black ink, appearing to read "N. Satya Nadella".

Satya Nadella
Chief Executive Officer

Microsoft Certified

Security, Compliance, and Identity Fundamentals

BARASKAR AAVISHKAR CHANDRAKANT

has successfully completed the requirements of

Security, Compliance, and Identity Fundamentals

Date Issued: February 10, 2022

A handwritten signature in black ink, appearing to read "N. Satya Nadella".

Satya Nadella
Chief Executive Officer

Microsoft Certified

Security, Compliance, and Identity Fundamentals

Yashvir Kamble

has successfully completed the requirements of

Security, Compliance, and Identity Fundamentals

Date Issued: February 10, 2022

A handwritten signature in black ink, appearing to read "N. Satya Nadella".

Satya Nadella
Chief Executive Officer

Microsoft Certified

Security, Compliance, and Identity Fundamentals

Tabish Aizaz Ukaye

has successfully completed the requirements of

Security, Compliance, and Identity Fundamentals

Date Issued: February 10, 2022

A handwritten signature in black ink, appearing to read "N. Satya Nadella".

Satya Nadella
Chief Executive Officer

Microsoft Certified

Security, Compliance, and Identity Fundamentals

Vighnesh Vishnu Phadtare

has successfully completed the requirements of

Security, Compliance, and Identity Fundamentals

Date Issued: February 10, 2022

A handwritten signature in black ink, appearing to read "N. Satya Nadella".

Satya Nadella
Chief Executive Officer

Microsoft Certified

Security, Compliance, and Identity Fundamentals

Vaishnavi Jakkani

has successfully completed the requirements of

Security, Compliance, and Identity Fundamentals

Syllabus / Course content

Module 1: Problems on Ages

1. Age based on ratios
2. Calculate present and future age
3. Objective type questions

Module 2: Odd Man Out Series

1. Number series
2. Missing number
3. Wrong number
4. Pattern Matching

Module 3: Ratio and Proportion

1. Proportion
2. Mean proportion
3. Direct and indirect proportions

Module 4: Blood Relationship

1. Family Tree.
2. Coding and decoding the relationships.
3. Relational Puzzle.

Module 5: Calendar Problems

1. Odd days
2. Leap year
3. Days of the week related to odd days
4. Finding the day of any year

Module 6: Data Interpretation & Percentage Calculation

1. Tabulation
2. Bar Graph
3. Pie Chart
4. Line Graphs
5. Concept of percentage
6. Result on population
7. Result on depreciation

Module 7: Assignment 1

1. Problems based on Age
2. Average
3. Numbers

Module 8: Assignment 2

1. Problems based on Calendar.
2. Ration and Proportions.

Module 9: Assignment 3

1. Problems based on Logical reasoning.

Module 10: Assignment 4, 5

1. Problems based on Data Interpretation & Blood Relations.
2. Problems based on odd man out series, wrong number, pattern, series.

Date: - 24th July 2021

Sub: - Value added course on “Quantitative Aptitude for Competitive Examinations”

Electronics and Mathematics Cluster of VSIT proposes to organize Value added course on **“Quantitative Aptitude for Competitive Examinations”**.

Objective

This course will help the students who are aspiring for a wide range of competitive entrance examinations like – Bank P.O, S.S.C, U.P.S.C, MBA. MCA, CAT, MAT, XAT etc.

Contents of the course:

Date	Topics to be covered	Duration
30 Aug 2021 Monday	Module 1: Problems on Age, Average and Numbers Age based on ratios Calculate present and future age, Objective type questions from previous exams.	2 Hours
31 Aug 2021 Tuesday	Module 2: Odd Man Out Series Number series, Missing number Wrong number, Pattern Matching, Alphabet series.	2 Hours
1 Sept 2021 Wednesday	Module 3: Ratio and Proportion Proportion, Mean proportion Direct and indirect proportions	2 Hours
2 Sept 2021 Thursday	Module 4: Blood Relationships Family Tree, Coding and Decoding the relationships, Relational Puzzle.	2 Hours
3 Sept 2021 Friday	Module 5: Calendar Problems Odd days, Leap year Days of the week related to odd days, Finding the day of any year	2 Hours
4 Sept 2021 Saturday	Module 6: Problems on Percentage Calculation & Data Interpretation Concept of percentage, Result on population, Result on depreciation. Problems on Tabulation, Bar Graph, Pie Chart, Line Graphs, Histogram.	2 Hours

6 Sept 2021 Monday	Assignment 1 – Problems based on Age, Average and Numbers	2.5 Hours
7 Sept 2021 Tuesday	Assignment 2- Problems based on Calendar, Ration and Proportions.	2.5 Hours
8 Sept 2021 Wednesday	Assignment 3- Problems based on Logical reasoning.	2.5 Hours
9 Sept 2021 Thursday	Assignment 4- Problems based on Data Interpretation & Blood Relations	2.5 Hours
10 Sept 2021 Friday	Assignment 5- Problems based on odd man out series, wrong number, pattern, series.	2.5 Hours
11 Sept 2021 Saturday	Problem Solving Sessions	2.5 Hours
13 Sept 2021 Monday	Doubt Solving Sessions	3 Hours
Total Duration:		30 Hours

Outcome: Students Will be able to appear for competitive examinations such as - Bank PO, CAT, MAT, MBA, U.P.S.C, S.S.C, L.I.C.A.D.O, MCA, etc.

Details of the course:

Time: 3:00 pm – 5:00 pm

Course Duration: 30 Hours

Requirements: Laptop/Desktop/Mobile

Platform: MS Teams/Zoom

Target students: Students of all courses

Expected No. of Students: 30

Fees: Rs.300 or Rs.500 (as per VAC Committee)

Resource Person/In-charges: MS. Geeta Sahu and Mr. Sabir Moin Shaikh

Permission and Sanction may kindly be granted.

Highlights

- A Value-Added Course was organized and conducted by Electronics and Mathematics Cluster of VSIT on the topic “Competitive Examinations – Quantitative Aptitude”.
- It was 30 hrs. duration course conducted by the VSIT Faculty. This course was open to all outside students
- A competitive examination is an examination where candidates are ranked according to their grades.
- These are used as some entrance examinations for reputed university and college admissions such as M.BA and M.C.A etc.

Another type is union public civil service (U.P.S.C) examinations, bank probationary officer (P.O) examinations, railway recruitment board (R.R.B) examinations etc.

Glimpses

Q5. $1 \div [1+1 \div [1+1 \div (1+1 \div 2)]] + 1$

[Bank P.O 2010]

Solution :

$$1 \div [1+1 \div [1+1 \div (1+1 \div 2)]] + 1$$

$$1 \div [1+1 \div [1+1 \div \frac{3}{2}]] + 1$$

$$1 \div [1+1 \div [1+1 \times \frac{2}{3}]] + 1$$

$$1 \div [1+1 \div [1+\frac{2}{3}]] + 1$$

$$1 \div [1+1 \div \frac{5}{3}] + 1$$

$$1 \div [1+1 \times \frac{3}{5}] + 1$$

$$1 \div [1+\frac{3}{5}] + 1$$

$$1 \times \frac{5}{8} + 1$$

$$\frac{5}{8} + 1$$

$$\frac{13}{8}$$

$$\frac{13}{8}$$

Question 3: A, B and C's age are such that A is youngest and C is eldest. Difference between A and B's age is same as the difference between B and C's age. The sum of A and C's age is 108. Find B's age

Solution:

A's age < B's age < C's age

Difference in A's and B's age = Difference in B's and C's age

This means that B's age is at the middle of A's and C's ages.

B's Age = (Sum of A's and C's ages) / 2 = 108 / 2 = 54 years

Question 2: Referring to his two sons Ram and Shyam, their father said, "12 years ago, Ram was 3 times as old as Shyam. 12 years later, the ratio of their ages will be 2:3. What is the present age of Ram?"

Solution:

Let us consider Shyam's present age as K years

12 years ago, Shyam's age = K-12 years

So Ram's age is 3 times Shyam's = 3(K-12) = (3K-36) years → was 12 years ago

Hence, Ram's present age = (3K-36) + 12 years = (3K-24) years

12 years later from present day,

Shyam's age = K+12 years

Ram's age = (3K-24) + 12 = (3K-12) years

**Value Added Course on Open – Source Tools: Linux in
Easy Steps**

Department of Information Technology of Vidyalankar School of Information Technology had organized a Value-Added Course on “Open – Source Tools: Linux on Easy Steps”.

The resource persons for the course were Mr. Asif Rampurawala, Ms. Prachi Mahajan and Ms. Ketaki Ghawali, Assistant Professors of Vidyalankar School of Information Technology. The details of the course were as follows:

Date: 15th Jan 2022 to 5th Mar 2022

Time: 9:30a.m to 1: 30p.m

Takeaways:

Ms. Ketaki started off the first day of the course by giving a brief introduction about Linux, its applications, job aspects and a general idea about how the course will be conducted over a span of 8 days.

Ms. Prachi then took the course ahead for the first day by giving the students a brief introduction about the Linux OS by showing them the GUI for the same. On all the

subsequent days of the course, Ms. Ketaki and Ms. Prachi taught the basics of Linux commands, the scenarios where they can be used by using the hands – on approach.

During the last 5 sessions, the students were taught about shell scripts. A brief introduction about what shell scripts are and where and how they can be used in the real time environment was given to the students. Further, the basic syntax for writing a shell script and the settings required to make the script executable were shown to the students. The students performed these steps at the same time. A few more shell scripts were taught to the students where they learned about implementing conditional statements, looping constructs, writing functions, and using Linux commands within these statements. Towards the end of the session a small test was conducted, which gave us an idea about how well have the students understood the concept.

The course helped students learn in depth about a new type of operating system,

Value Added Course on Hardware and Networking

Networking and Systems Cluster along with Lab development committee had organized a Value Added Course on the Basics exploration of Hardware & Networks for VSIT students.

The motto of this course was to explore essential knowledge of computer system, hardware & network to students and to make them familiar with their daily based technical related issues or doubts they face. This course included introduction to various hardware utilized in the campus, software's used the analyzing them and the structure of network.

Following are the details of the course:

Student Details:	BSc.IT Total: 30 Students
Dates:	From 30 th Nov 2021 to 18 th Dec 2021

Timings:	10:00AM to 12:00 PM
Venue:	Computer Labs, VSIT
Conducted By:	Mr. Rajendra P., Ms. Mithila S., Ms. Swati B., Ms. Pritee J., Ms. Vaishali T., Mr. Akshay M.
Faculty In-Charge:	Mr. Rajendra P., Ms. Mithila S.,

Following topics and concepts were taught during the workshop:

Day 1:

- The session kicked off with Mr. Rajendra P. Sir, Ms. Mithila S & all Laboratory Staff, VSIT with interactive PowerPoint presentation and demonstration of all computer hardware components
- Further taking inputs from them on future that can replace this parts of computer System.
- Introduced students with college open systems placed in the Tree area.
- The day ended with a brainstorming session to understand their thinking process as well as technical queries & doubts were resolved.

Day 2:

- Course started with Mr. Rajendra P. Sir, Ms. Mithila S & Ms.Swati B. giving the explanation on BIOS Settings in details.
- How to boot system using a USB device and its further configuration.
- As the course was live on MS Teams, students were shown all hardware components live on camera with real-time examples.
- Also provided live hands-on practical on assembling and de-assembling PC
- Further Ms.Swati B & Ms.Pritee J. gave explanation on how to create bootable devices using third party software,
- Introduction of Partitioning and formatting a hard disk drive using USB device, BIOS settings, handling computer manage settings, etc.
- Introduction of Boot devices and how to boot with different options.

Day 3:

- *PowerPoint Presentation and Demonstration on Introduction to Operating Systems, Its Types & Applications.*
- Live practical demonstration of both windows & Linux OS installation done on a computer, guided students with installation steps & informative guidelines.

- After complete installation process, admin & local user creation, system settings, networking settings are shown to students.
- Explained How OS Plays an Essential Role of Intermediate Between Computer Hardware & External User

Day 4:

- Course started with Mr. Rajendra P. Sir, Ms. Mithila S & Ms.Swati B by explaining & showing how to download OS image file from Microsoft site.
- Using that image OS Virtualization demonstration shown to students.
- Also VirtualBox software was use to create one Virtual machine in a computer & installation of Windows7 operating system was done.

Day 5:

- Course started with Mr. Rajendra P. Sir, Ms. Mithila S, Ms.Swati B & Ms.Pritee J.
- Introduced students with all networking hardware devices & components.
- Showed internal lab network infrastructure, explained all options available in network & Internet settings, how to share data on network & identify each host in the network using IP addresses.
- Introduced students with all system settings in control panel settings.

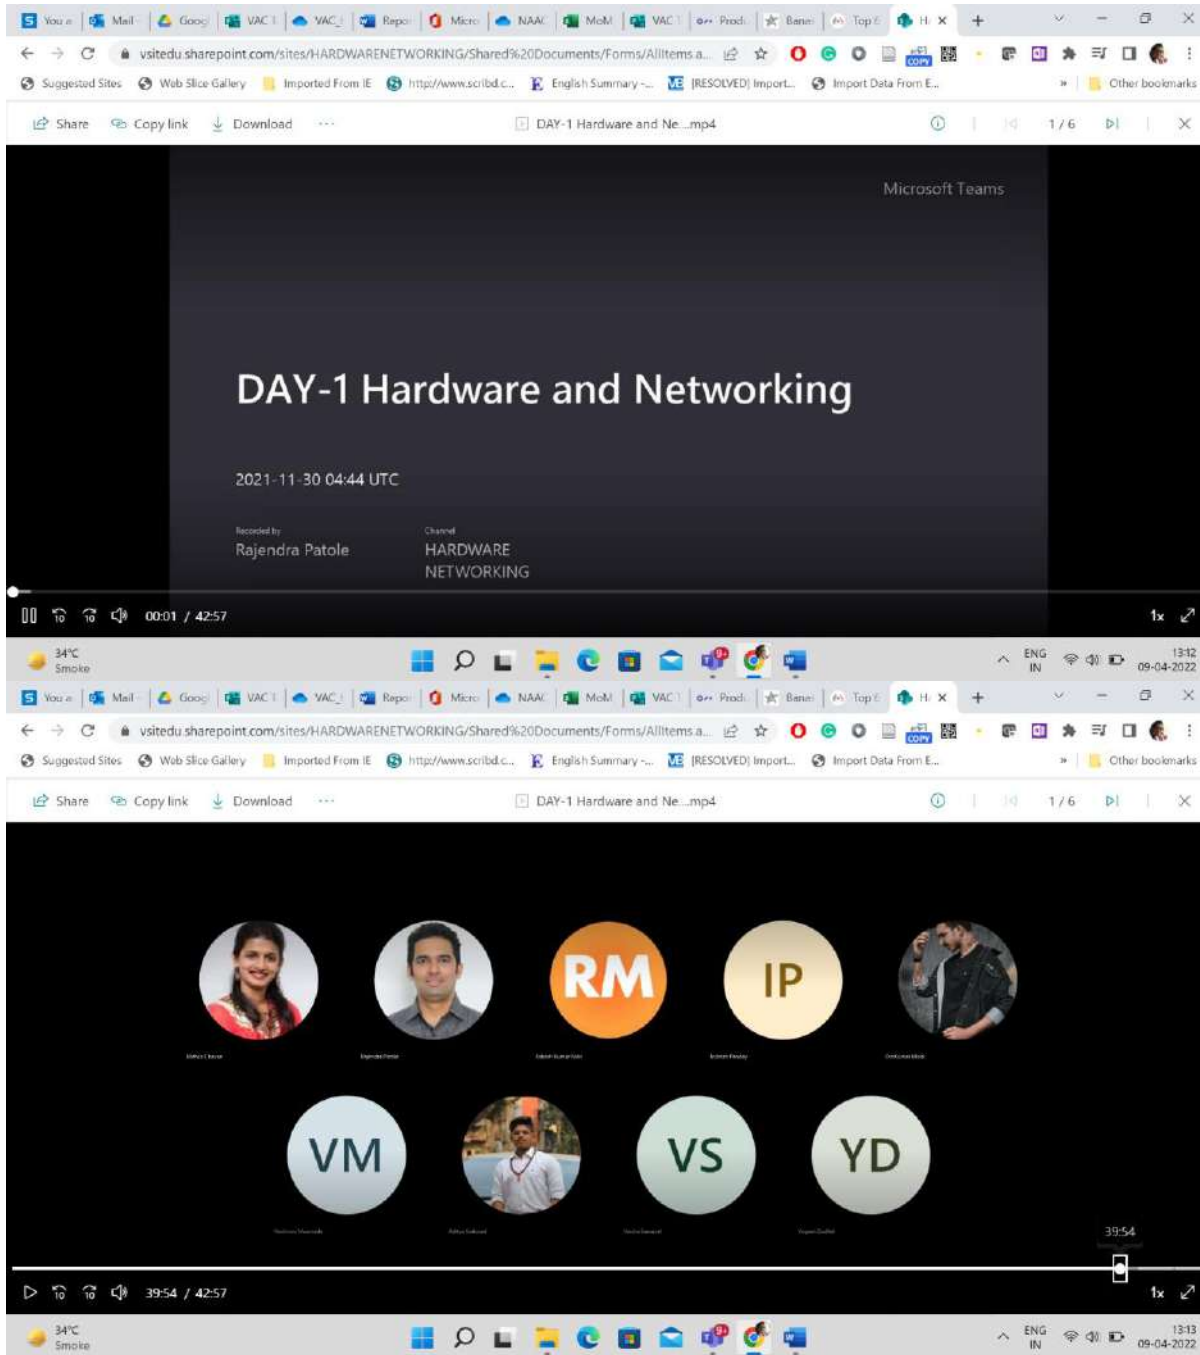

Day 6:

- At the starting of session, we made students understand about networking concepts & components e.g., RJ 45 connectors, LAN Tester, Crimping tool, etc.
- Explained regarding colour codes & Cable crimping. Brief introduction to straight & cross cables, punching IO ports using punching tool.
- Also showed how to enable, disable, checking & editing network adapter settings in windows.

All the speakers gave live demonstration using MS teams to students, efforts were taken make the activity fully interactive & informative for them. It was very useful as students were able to get their queries solved on the very moment.

As the workshop & course was successfully completed, the students were thankful as they could get very essential & interesting knowledge through this workshop. We have made available all the course recordings for the students on MS teams for future review. These will be helpful for them.

Course content

Date	Time	Topics to be covered	Duration
5th Feb, 2022	1 pm – 5:30 pm	Module – 1 Setup: Overview of Web Development and WordPress, WordPress installation, Domain Name & Hosting, Install WordPress, Login	4 Hrs.
		Assignment-1: WordPress installation	1 Hr.
12th Feb, 2022	1 pm – 5:30 pm	Module – 2 Website Development using Theme and Templates: Options Delete Plugins, Change Password, Update WordPress, Update Permalinks, Search Engine Ready, Install Theme, Install Template, Change Website Name, Create a New Page	4 Hrs.
		Assignment-2: Start with a Website development using different Theme and Templates	1 Hr.
26th Feb, 2022	1 pm – 5:30 pm	Module – 3 Website Development using Menu: Design Homepage, Mobile Friendly, About Page, Services Page, Projects Page, Contact Page, Contact Form, Add Menu Item, Transparent Menu Navigation Button, Create Logo, Insert Logo, Delete Page	4 Hrs.
		Assignment-3: My Brand My Website using pages and menu navigation	1 Hr.
5th Mar, 2022	1 pm – 5:30 pm	Module – 4 Blog and Live Chat for My Customer: Blog & Live Chat, Design Blog Post, Add Blog Post, Set Blog to Homepage, Design Blog Page, Create Blog Page, Delete Blog Post, Live Chat	4 Hrs.
		Assignment-4: Add Blog for customer interaction	1 Hr.
12th Mar, 2022	1 pm – 5:30 pm	Module – 5 Creating database for WordPress, creating tables, inserting, updating and fetching data.	4 Hrs.
		Assignment-5: Add Live Chat into My Brand My Website for my customer interaction	1 Hr.
19 th Mar, 2022	1 pm – 5:30 pm	Module – 6 Google Analytics & Hosting: Design and create Footer, Adding Google Analytics into the web page, hosting website using GitHub, hosting website using WordPress	4 Hrs.
		Assignment-6: Hosting My Brand My Website	1 Hr.
Total			30 Hours

Criteria for Certification

Certificates will be awarded only to those participants who:

1. Attend all sessions meaningfully
2. Submit assigned work given by instructor on time
3. Submission of case studies made by the students using tools learned from workshop

Take Away for Students

1. Developing Websites for Business/Entrepreneurs requirement using WordPress
2. Host a website in Domain using WordPress and GitHub
3. Creating blog & Live Chat for your business
4. Creating database for wordpress
5. Certificate of completion

Date: - 7th December 2021

Sub: - Value added course on “My Brand My Website”

Information Technology Department is organizing a Value added course on “**My Brand My Website**”.

Objective:

1. Developing Websites for Business/Entrepreneurs requirement using WordPress
2. How to easily host a website in Domain using WordPress and GitHub
3. Creating blog & Live Chat for your business
4. Creating database for wordpress

Software Development Cluster organised a Value - Added Course on My Brand My Website, Deployment and Maintenance using WordPress for first year B.Sc. IT students. It was conducted by Ms. Seema Bhatkar and Ms. Ketaki Ghawali, Assistant professor at VSIT.

The course was conducted from 12th May 2022 to 18th May 2022. Total 17 students enrolled for the course. Since only in-house students had registered, they were not charged any fees.

On the first day HTML5 tags and CSS concepts were covered. Next day onwards they were taught to design the website using WordPress CMS. The students first learnt to design static webpages. On the second day more enhanced tools were taught. On the third and fourth day we taught students how to design responsive website using php and mysql. On the same day students implemented the same for the webpages that they had designed on the previous day. Entire fifth day was utilized to design a proper working website. On completion of the project, the certificates were given to them.

Oracle Database: Advance PL/SQL Value Added Course

Course Fee

Course fee Rs. 500/- (Non VSIT students), Nil (VSIT students)

Number of students expected: 50

Faculty Members

Ms. Kimaya Shelar

Hrishikesh Tendulkar

Rohini Desai

Duration and Venue

30 hours course (Online Mode)

Course content

Date	Time	Topics to be covered.	Duration
Day 1, 25 th April 2022	10:00 am to 12.30 pm & 1.00 pm to 4:30 pm	Introduction to PL/SQL, Declaring PL/SQL identifier's, interacting with the Oracle Server, Writing Control Structures, Student Activity/Assignment	6 hours
Day 2, 26 th April 2022	10:00 am to 12.30 pm & 1.00 pm to 4:30 pm	Using Explicit Cursors, Handling Exceptions with PL/SQL, Creating Stored Procedures, Student Activity/Assignment	6 Hours
Day 3, 27 th April 2022	10:00 am to 12.30 pm & 1.00 pm to 4:30 pm	Creating Stored Functions, Creating Packages, Using More Package Concepts, Student Activity/Assignment	6 hours
Day 4, 28 th April 2022	10:00 am to 12.30 pm & 1.00 pm to 4:30 pm	Utilizing Oracle Supplied Packages in Application Development, Dynamic SQL and Metadata, Design Considerations for PL/SQL Code, Student Activity/Assignment	6 hours
Day 5, 29 th April 2022	10:00 am to 12.30 pm & 1.00 pm to 4:30 pm	Creating Triggers, Applications for Triggers, Student Activity/Assignment and Doubt Solving, Mini Project and Presentation	6 Hours

Criteria for Certification

Certificates will be awarded only to those participants who:

1. Attend all sessions meaningfully
2. Submit assigned work given by instructor on time
3. Submission of case studies made by the students using tools learned from workshop

Take Away for Students

1. Understanding PL/SQL programming concepts.
2. Certificate of completion

Date: - 12th April 2022

Sub: - Value added course on “Oracle Developer/Administrator Certified Associate (OCA)” for SYBSc IT Students

VSIT proposes to organize Value added course on “**Oracle Developer/Administrator Certified Associate (OCA)**” for SYBSc IT and other college students

Objective:

1. To help them prepare for the OCA Certification.
2. Understanding PL/SQL programming concepts.

Contents of the course:

Date	Time	Topics to be covered.	Duration
Day 1, 25 th April 2022	10:00 am to 12.30 pm & 1.00 pm to 4:30 pm	Introduction to PL/SQL, Declaring PL/SQL identifier's, interacting with the Oracle Server, Writing Control Structures, Student Activity/Assignment	6 hours
Day 2, 26 th April 2022	10:00 am to 12.30 pm & 1.00 pm to 4:30 pm	Using Explicit Cursors, Handling Exceptions with PL/SQL, Creating Stored Procedures, Student Activity/Assignment	6 Hours
Day 3, 27 th April 2022	10:00 am to 12.30 pm & 1.00 pm to 4:30 pm	Creating Stored Functions, Creating Packages, Using More Package Concepts, Student Activity/Assignment	6 hours
Day 4, 28 th April 2022	10:00 am to 12.30 pm & 1.00 pm to 4:30 pm	Utilizing Oracle Supplied Packages in Application Development, Dynamic SQL and Metadata, Design Considerations for PL/SQL Code, Student Activity/Assignment	6 hours
Day 5, 29 th April 2022	10:00 am to 12.30 pm & 1.00 pm to 4:30 pm	Creating Triggers, Applications for Triggers, Student Activity/Assignment and Doubt Solving, Mini Project and Presentation	6 Hours

This course introduces students to PL/SQL and helps them understand the benefits of this powerful programming language. In the class, students learn to create PL/SQL blocks of application code that can be shared by multiple forms, reports, and data management applications. Students learn to create anonymous PL/SQL blocks and are introduced to stored procedures and functions. They learn about declaring variables, trapping exceptions and they also learn to declare and control cursors.

In class students learn to develop, execute and manage PL\SQL stored program units like procedures, functions, packages and database triggers. Student also learns to manage object dependencies and recompilation of invalid objects. This course also describes the characteristics and ways of manipulation of large objects. Students are introduced to the utilization of some of the Oracle-supplied packages.

Details of the course:

Course Duration: 30 Hours

Requirements: Laptop/Desktop

Platform: Offline/Zoom Platform

Fees:

No charges for VSIT students

Non – VSIT - Rs. 500/-

Resource Person/In-charges:

Hrishikesh T, Kimaya Shelar & Rohini Desai

Target students: SYBSc IT and other college students.

Expected No. of Students: 50

Permission and Sanction may kindly be granted.

Oracle Developer/Administrator Certified Associate (OCA)

Department of IT, VSIT organised a Value - Added Course on Oracle Developer/Administrator Certified Associate (OCA) for Second Year B.Sc. IT students.

It was conducted by Mr. Hrishikesh Tendulkar and Dr. Kimaya Shelar, Ms. Rohini Desai Assistant professor at VSIT.

The course was conducted on 25th April to 29th April 2022 from 10.00 a.m. to 12:30 p.m. Break 1.00 p.m. to 4.30 p.m. Total 30 students of VSIT enrolled for the course and No fee was charged for students belonging to VSIT.

On the first day, basic concepts of PL/SQL variables, basic block concepts were covered. These concepts helped students understand the entire working of the PL/SQL block. We also covered various types of blocks.

On the second day different constructs like if, case, while and for and more advanced data type storing techniques like %TYPE and %ROWTYPE and conversion were taught.

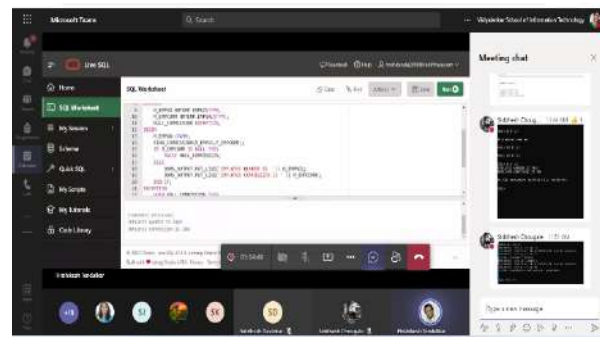

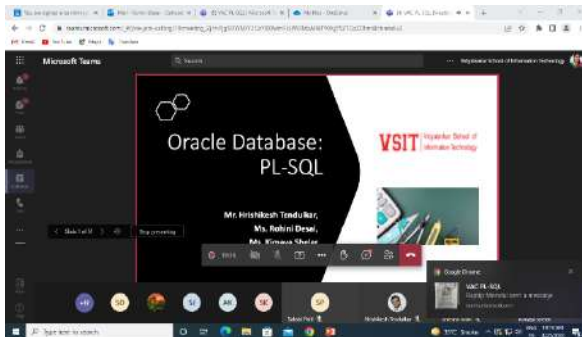

On the third day we covered topics like functions and procedures and various control modes in procedures and different types of procedures.

On the fourth day, we covered the topics like user defined packages and various types of triggers.

On the fifth day, revision of topics of with doubt solving and a test was conducted based on the topics covered in the course.

Every day in the second half of each session an assignment was given based on the topic taught in first session which they had to submit on that day itself.

The overall course was conducted in 30 hrs.

Mr. Umesh Koyande

Ms. Amraja Shivkar

Ms. Maitreyi Joglekar

Duration and Venue

30 hours course (Offline Mode)

Venue- Lab X-114

Course content

Module 1: Introduction

1. Overview of Arduino UNO
2. Introduction to IDE of Arduino
3. Programming Arduino in C language.

Module 2: Interfacing LED with Arduino

1. Blinking on-board LED
2. Blinking External LED
3. Changing Intensity of External LED
4. Blinking Tricolour LED

Module 3: Interfacing Push button with Arduino

1. Use of Push button as input signal
2. Controlling LED using Push button
3. Interfacing 4 LEDs and using them –
 - a. Blink LEDs and generate different patterns
 - b. Design 4 bit up and down counter using LEDs

Module 4: Seven Segment Display

1. Overview of Seven Segment Display
2. Common Anode Seven Segment Display
3. Common Cathode Seven Segment Display
4. Interface Seven Segment Display with Arduino board

Module 5: Applications with Seven Segment Display

1. Mod-10 Up Counter
2. Mod-10 Down Counter
3. Controlled Up - Down Counter with push button
4. LED as indicator object counter

Module 6: Liquid Crystal Display

1. Overview of 16x2 LCD
2. Interface 16x2 LCD with Arduino board
3. Display your name on LCD
4. Change position of text in display

Module 7: Applications with Liquid Crystal Display

1. Timer with delay
2. Counter with Push Button
3. Moving Display

Module 8: Interfacing Sensors-I

1. Temperature Sensor- DHT 11
2. Humidity Sensor- DHT 22
3. InfraRed sensor- M395
4. Ultrasonic/SONAR Sensor- HC SR04

Module 9: Interfacing Sensors-II

5. Sound Sensor-KY 038
6. Buzzer alarm Sensor module
7. Rain drop detector- FC 37
8. Flame detector
9. Smoke Detector- MQ 2

Module 10: Design of various Applications (Mini Project)

1. Traffic light signal
2. 7 segment display counter using push button and IR sensor.
3. LCD counter using push button and IR sensor.
4. Digital Watch/temperature display on LCD.
5. Fire alarm
6. Obstacle Detection Alarm
7. Any other suitable mini project

Day and Date	Session 1 11:00 am – 01:00 pm	Session 2 2:00 pm– 5 pm
Monday 23 rd May 2022	Module 1 Arduino Introduction	Module 2 Arduino programming and Interfacing LED
Tuesday 24 th May 2022	Module 3 & 4 Interfacing push button and 7-segment display	Module 5 Applications with 7-segment display
Wednesday 25 th May 2022	Module 6 Interfacing Liquid Crystal Display (LCD)	Module 7 Applications with LCD
Thursday 26 th May 2022	Module 8 Interfacing Sensor-I	Module 8 Interfacing Sensor-I Applications
Friday 27 th May 2022	Module 9 Interfacing Sensor-II	Module 9 Interfacing Sensor-II Applications
Saturday 28 th May 2022	Module 10 Mini Project	Module 10 Mini Project

Software requirements:

- Internet connectivity
- Arduino IDE (Arduino.Ink)

Hardware requirements:

- Arduino UNO Boards
- LEDs, Tricolour LEDs
- Push Buttons, 16x2 LCDs, CA 7-segment display
- Sensors- Infrared Sensor, Temp Humidity sensor, Ultrasonic, Flame Sensor, Rain drop Sensor, Sound Sensor, Buzzer Alarm Module, Rotary Sensor, Smoke Detector

Criteria for Certification

Certificates will be awarded only to those participants who:

1. Attend all sessions meaningfully
2. Submit assigned work given by instructor on time
3. Submission of mini projects made by the students using tools learned from workshop

Take Away for Students

1. Course Manual
2. Certificate of completion

Date: 18th May 2022

Subject: Value Added Course

Electronics & Mathematics Cluster of IT Dept. is planning following Value Added Course for B.Sc.IT students.

Duration: 6 Days (23rd May – 28th May 2022)

Sr. No.	Course	No. of Hrs.	Training cost in Rs.	Expected no. of students	Total Estimated Cost in Rs.
1	Arduino VAC	30	1000	40	40,000/-

All the details of the course are attached with the note.

Arduino

Value Added Course

Details

- Duration 23rd May 2022 to 27th May 2022).
- Venue X-114
- Time 10.00 am to 5.00 pm
- No. of Participants Registered - 33 and Certified – 32

Resource Person

Ms. Umesh Koyande
Assistant Professor VSIT,
Wadala, Mumbai.

Ms. Amraja Shivkar
Assistant Professor VSIT,
Wadala, Mumbai.

Mr. Maitreyi Joglekar
Assistant Professor VSIT,
Wadala, Mumbai.

About VAC

- A Value-Added Course was organized and conducted by Electronics and Mathematics Cluster of VSIT on the topic “Arduino”.
- Students got hands on training on Arduino Uno. They learnt to interface different sensors and actuators.
- Students have developed mini project on last day and that was evaluated by the trainers

Schedule

Sr. No.	Date	Session 1 10:00 am – 1:00 pm	Session 2 2:00 pm – 5:00 pm
1.	Monday 23rd May 2022	Module 1 Arduino Introduction	Module 2 Arduino programming and Interfacing LED
2.	Tuesday 24th May 2022	Module 3 & 4 Interfacing push button and 7-segment display	Module 5 Applications with 7-segment display
3.	Wednesday 25th May 2022	Module 6 Interfacing Liquid Crystal Display (LCD)	Module 7 Applications with LCD
4.	Thursday 26th May 2022	Module 8 Interfacing Sensor-I	Module 9 Interfacing Sensor-II Applications
5.	Friday 27th May 2022	Module 10 Mini Project	Module 10 Mini Project

Day I Highlights

- Introduction to the course was given in the beginning of VAC. The schedule, assessment and evaluation were also discussed with the participants.
- The formation of pairs of the participants took place and the students were given the kits accordingly.
- Explanation of all part of Arduino Uno was given. Participants were able to identify different parts of Arduino and understood its significance.

Arduino

Value Added Course

Day 2 Highlights

- Interfacing with LEDs was explained. Participants were made aware about the blinking LED program.
- Participants were able to make traffic signal system with the help of Arduino and LEDs
- Explanation of Liquid Crystal Display was discussed. Participants were able to display their own name on display.

Day 3 Highlights

- More advanced programs were taught on the 3rd day. It included controlling the LED with the push button, interfacing of more than one LED, etc.
- Explanation about common anode and common cathode seven segment display was given. Using a combination of seven segment LEDs participants were asked to program it as a up & down counter.

Day 4 Highlights

- Day 4 was all about the sensors! The most exciting part of this course was working with the sensors. Humidity sensors, temperature sensor, Ultrasonic sensor and many more.
- Explanation of different sensors like rain sensor, flame sensor, smoke sensor was given and participants were asked interface those with Arduino to see their response.
- Actuators like LED, Buzzers were given as well so that if the sensor detects a value that crosses the threshold value, then the buzzer will make particular sound and LED indicate the changes.

Day 5 Highlights

- The basic idea of mini project was given to the participants. Different types of project participants can make was also discussed.
- Participants were provided all the extra components that were needed for the mini project.
- Trainers were available and taking rounds to solve queries of participants.
- Principal Dr. Rohini Kelkar ma'am & Vice Principal Mr. Asif Rampurawala sir were called as the guests to view the projects created by the participants.

They both were extremely happy and motivated the trainers to conduct more such courses & advised participants to try and build more such projects on a commercial level.

Feedback Analysis

Your Overall Impression about Value Added Course "Arduino"

CERTIFICATE OF PARTICIPATION

This is to certify that

Arjun Shinde

has successfully completed Value Added Course
on “**Arduino**” from 23rd May 2022 to 27th May 2022

Ms. Amraja Shivkar
Asst. Professor
(Trainer)

Ms. Maitreyi Joglekar
Asst. Professor
(Trainer)

Dr. Rohini Kelkar
Principal

CERTIFICATE OF PARTICIPATION

This is to certify that

Aniket Kadam

has successfully completed Value Added Course
on “**Arduino**” from 23rd May 2022 to 27th May 2022

Ms. Amraja Shivkar
Asst. Professor
(Trainer)

Ms. Maitreyi Joglekar
Asst. Professor
(Trainer)

Dr. Rohini Kelkar
Principal

CERTIFICATE OF PARTICIPATION

This is to certify that

Mohd Ameen Shaikh

has successfully completed Value Added Course
on **“Arduino”** from 23rd May 2022 to 27th May 2022

Ms. Amraja Shivkar
Asst. Professor
(Trainer)

Ms. Maitreyi Joglekar
Asst. Professor
(Trainer)

Dr. Rohini Kelkar
Principal

CERTIFICATE OF PARTICIPATION

This is to certify that

Siddharth Ankam

has successfully completed Value Added Course
on “**Arduino**” from 23rd May 2022 to 27th May 2022

Ms. Amraja Shivkar

CERTIFICATE OF PARTICIPATION

This is to certify that

Siddhesh Bhambay

has successfully completed Value Added Course
on “**Arduino**” from 23rd May 2022 to 27th May 2022

Ms. Amraja Shivkar
Asst. Professor
(Trainer)

Ms. Maitreyi Joglekar
Asst. Professor
(Trainer)

Dr. Rohini Kelkar
Principal

Python for Data Science Value Added Course

Course Fee

Course fee: Nil (VSIT students)

Number of students expected: 50

EdTech Company Name:

ExcelR

Duration and Venue

30 hours course (Hybrid Mode)

Course content

Python for Data Science (Everyday 3 hrs)

	Topic	Sub Topic
Day 1	Intro	Python Introduction - Python IDEs and Jupyter notebook
	Quick intro on	Operators, Loops, Strings
	Lists & Tuples	Python List - Accessing values in list & Tuple, Delete list & Tuple elements , Indexing slicing , Built in Function - cmp(), len(), min(), max(), List Comprehension
Day 2	Dictionaries	Dictionary - Accessing values from dictionary, Deleting and updating elements in Dict.
		Properties of Dict. , Built in Dict functions & Methods.
		Date & time -Time Tuple , calendar module and time module
Day 3	Functions	Function - Define function , Calling function
		pass by refernece as value , Function arguments , Anonymous functions , return statements
		Scope of variables - local & global
Day 4	Data Handling	Loading ,Storage
		CSV, Excel, JSON
		Reading Text Files in Pieces
Day 5		XML data and web scrapping , API example
		Binary Data Formats
		HDF5 Format

Day 6	Numpy	Datatypes for Numpy
		Basic Indexing and Slicing Boolean Indexing
		Mathematical and Statistical Methods
Day 7	Pandas	Introduction to pandas Data Structures
		DataFrame, DataFrame attributes and Methods
		Summarizing and Computing Descriptive Statistics
Day 8	Data Wrangling	Combining and Merging Data Sets
		Database-style DataFrame Merges
		Merging on Index
Day 9		Reshaping and Pivoting
		Data Transformation
		Removing Duplicates
Day 10		Replacing Values
		Detecting and Filtering Outliers
		Computing Indicator/Dummy Variables
Day 11		String Manipulation
	String Object Methods	
	Regular expressions	
Day 12	Data Visualization	Matplotlib
		Matplotlib
		Matplotlib
Day 13		Seaborn
		Seaborn
		Seaborn
Day 14	Webscraping	Overview
		Practical Applications
		Scraping the data from websites/social media

Criteria for Certification

Certificates will be awarded only to those participants who:

1. Attend all sessions meaningfully
2. Submit assigned work given by instructor on time

Take Away for Students

1. Use various data cleaning methods and visualization techniques to analyze the data set.
Generate complete report on descriptive analysis of the data set.
2. Create an automatic framework to build and validate machine learning algorithms.
3. Certificate of completion

Value Added Course on “Python for Data Science”

Date:	16 th May – 3 rd June 2022
Venue:	X-103
Time:	10:00 am – 2:00 pm
Guest Speaker:	Ms. Neha Gupta [Assistant Manager @KPMG]

VSIT VAC committee organised a 40hr VAC for TYBScIT students on the topic of “Python for Data Science in collaboration with **ExcelR** an edTech company” where the Speaker – Ms. Neha Gupta was teaching through online **Zoom** platform held at College campus. The VAC lasts till 15 days from May 16th – June 3rd 2022.

The VAC was first circulated in online platforms officially by VSIT 15 days prior where every student outside of the college also can join. Ms. Neha Gupta [Assistant Manager @KPMG] gave an introduction about herself on Day 1 and started. The overall course covers bunch of topics like Basic Python- Introduction to Python Programming, Data Structures – Immutable and Mutable data types, File operations, Exception Handling, to Advanced one- Web Scrapping, Data Wrangling, Exploratory Data Analysis-1 (EDA-1), Data cleaning, correlation, transformations, visualizations. Benefits of this course covered a bunch of Information of course on python for Data Science from industry experts, chance to solve real time assignments, opportunities of projects and internships.

Apart from this sessions recaps – Python- as versatile, easy to read, learn and write- English-like syntax, interpreted language, free and open source, vast libraries support – Python package manager (pip), python package index (Pypi), portable and interactive, dynamically typed language (no need to mention data type based on the value assigned, it takes data type), (IOT) Internet of Things opportunities, highly efficient (Python’s clean object -oriented design provides enhanced process control, and the language is equipped with excellent text processing and integration capabilities as well as it's own unit testing framework, which makes it more efficient),user -friendly Data Structures.

This is how VSIT’s VAC - Python for Data Science was held and every student at the end were fully equipped with Data science capabilities of python programming. Students have also gave confirmation for future VAC courses to professors – **Prof. Sanjeela Sagar** ma’am and **Leena Jadhav** ma’am who were incharging this course.

42 students attended the Value -Added Course.

Value Added Course on International Financial Management

Introduction

Businesses are functioning in interconnected global environment and are exposed to international competition. Managing such businesses requires understanding of global financial environment and currency risks. The objective of this course is to provide knowledge on forex markets, international Parity conditions, forex risks, currency derivatives and hedging issues, issues with currency investment strategies, issues with cross border financing decisions and cross border investment decisions.

Objective

After completing this course students should be able to

- ✓ Demonstrate basic understanding of foreign exchange market and exchange rates
- ✓ Demonstrate basic understanding of how to use foreign exchange derivatives and other techniques to manage foreign exchange exposures of firms.
- ✓ Demonstrate basic understanding of the issues pertaining to multinational financing and investment decisions
- ✓ Demonstrate basic understanding of International Taxation System

Pedagogy

Interactive class lectures, numerical problem solving, case analysis (cases could be mini cases or long cases depending on the requirement), and other readings. Assignments will be given to students on a regular basis.

Course Content

Module	Content	Hours
1	Foreign Exchange Market and Theories: Introduction , Evolution of foreign exchange market and foreign exchange System, Forex Market participants, Forex market in India, Exchange Rate Regime (Fixed and Flexible), Currency Basket Regime, Exchange rate movements, factors that influence exchange rates.	4
2	Exchange Rate Arithmetic: FOREX Quotation, BID Ask and Spread, Cross Rate calculation, understanding currency appreciation and depreciation, Understanding TT Buying /Selling Rates, TC Buying/Selling Rates, and Bill Buying/Selling Rates, Forward point quotation and rule of “High-Low” & “Low High”, Calculation of Premium/Discount on forward rates Factors affecting forward rates. Forward swap points, Cross rate with bid-ask spread. Forward cross rates Implied cross rates Cross rates and Triangular Arbitrage.	7
3	International Parity Conditions: Concepts of international arbitrage, Interest Rate parity, Purchasing Power Parity and the International Fisher effect.	3
4	Foreign Exchange Exposures and Management: nature and measurement of foreign exchange exposure. Types of exposures and the various types of translation methods. concept of exposure forward and foreign exchange exposure, various tools and techniques of foreign risk management and the risk management products.	4
5	Derivative Markets: FORWARD, FUTURES, OPTION and SWAP	6
6	International Taxation: international tax system, principles of taxation, double taxation, tax havens and transfer pricing. International tax management strategy and Indian tax environment.	6

Value added course on International Financial Management.**Event name:**

Value added course- International Financial Management

Date of Activity: 12th August 2021 to 10th September 2021

Platform: MS Teams

Registered Students: 80

No. of Participants: 40

Resource Person: Dr. Swagatika Nanda, Ms. Pooja Jogu, Mr. Shreyas Bondre

A “VALUE ADDED COURSE” was organized by BAF department of Commerce from 12th August 2021 to 10th September 2021 on MS Teams. The main purpose of this course was to enhance and upgrade the knowledge in International Finance to make students corporate competitive. It was a well planned and executed course and many students voluntarily participated.

A team of 3 teachers were engaged to deliver the sessions. The duration of value-added course was 30 hours. The objective of this course is to provide knowledge on forex markets, international Parity conditions, forex risks, currency derivatives and hedging issues, issues with currency investment strategies, issues with cross border financing decisions and cross border investment decisions.

After completing this course students should be able to

- ✓ Demonstrate basic understanding of foreign exchange market and exchange rates
- ✓ Demonstrate basic understanding of how to use foreign exchange derivatives and other techniques to manage foreign exchange exposures of firms.
- ✓ Demonstrate basic understanding of the issues pertaining to multinational financing and investment decisions
- ✓ Demonstrate basic understanding of International Taxation System

Proper assessment of the course has been taken by conducting a test of 60 marks. The question paper link is shared.

Problem

Given: current market price is Rs. 45,000 per kg. Investment is Rs. 200 and interest rate is 10% p.a. Calculate the fair price of a 4 months futures contract.

Symbolically

i_h = Inflation rate of Home country
 i_f = Inflation rate of Foreign country
 e_0 = Exchange rate (in direct quote) at time zero i.e. beginning period
 e_t = Exchange rate at time t

$$\frac{e_t}{e_0} = \frac{(1+i_h)^t}{(1+i_f)^t}$$

$$e_t = e_0 \times \left(\frac{1+i_h}{1+i_f}\right)^t \quad \text{or} \quad e_t = e_0 \times \left(\frac{1+i_h}{1+i_f}\right)^t$$

Where $\frac{e_t}{e_0}$ is called as PPP rate.

Handwritten notes:
 $e = 40$
 $NR = 5\%$
 $US = 1\%$

CERTIFICATE OF VAC

This is to certify that

AKSHATA SALUNKHE

has successfully completed the Value Added Course on "International Financial Management" from 12 August 2021 to 10 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Principal

Dr. Rohini Kelkar

CERTIFICATE OF VAC

This is to certify that

ANKITKUMAR SINGH

has successfully completed the Value Added Course on "International Financial Management" from 12 August 2021 to 10 September 2021 of 30 hours, organized and conducted by Vidyalankar School of Information Technology.

A handwritten signature in black ink, appearing to read 'Rohini Kelkar', is written over a horizontal line.

Name of the VAC: Business Data Analysis Using Excel

Course fee Rs. Nil/-

Number of students expected: 100

Programme: BAF & BBI

Semester: VI

Trainers

Mr. Ajaykumar Poojary, Assistant Professor BAF Dept.

Ms. Pooja Jogu, Assistant Professor BAF Dept.

Ms. Dipti Shirodkar, Assistant Professor BAF Dept.

Ms. Snehal Tandale, Assistant Professor BBI Dept.

Duration and Venue

Date- 25/01/2022 to 25/02/2022

Duration- 32 hours course

Mode & Platform- Online (MS Teams)

Course content

Topics Covered

- Getting Started with the Basics
- Autofill and Custom List
- Named Range and 3D cell reference
- Custom Sort and Advanced Filter
- Conditional Formatting and Data Validation
- Functions – Mathematical, Date, Text, Logical, Financial functions, Lookup functions
- Relative and Absolute Reference
- Tables & Charts, Pivot Table, Pivot Charts and Power Pivot
- Sparklines and Trend lines
- What if Analysis, Goal Seek, Scenario Manager, Solver, Data Table
- Macros and VBA
- Protecting and Share Worksheet and Workbook

Assessment Procedure

Certificates will be awarded only to those participants who:

1. Attend all sessions meaningfully
2. Submit assigned work given by instructor on time
3. Appear for final exam (MCQ) and score minimum 50%

Take Away for Students

1. Course Materials (PDF notes, excel practice files)
2. Certificate of completion

VALUE ADDED COURSE ON BUSINESS DATA ANALYSIS USING EXCEL

Commerce dept of Vidyalankar School of Information Technology organized its online hands-on Value-Added Course on Business Data Analysis using Excel. This course was mainly designed for Third Year BAF and BBI students of VSIT.

Duration: 25th January 2022 to 25th February 2022 (32 hrs)

Time: 02.00 pm to 05.00 pm

Platform: MS Teams

OBJECTIVES:

The following were the objectives of the session:

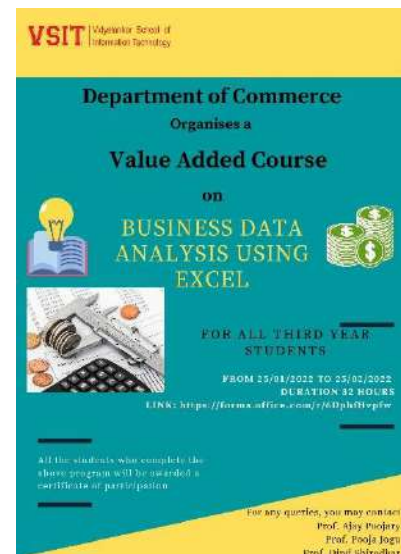

- Organize, analyse and present data for operations and reporting purposes.
- Perform "what-if" & data analysis for developing financial, marketing and plans.
- Use tools & techniques to process and enhance the usefulness of data.
- Organize and process statistical, mathematical, financial, and logical data.
- Employ new approaches such as PowerPivot for tabulating and managing data.
- Translate analysis into meaningful charts and graphs for better visual appeal.
- Automate repetitive tasks to minimize manual labour in data analysis

TRAINERS:

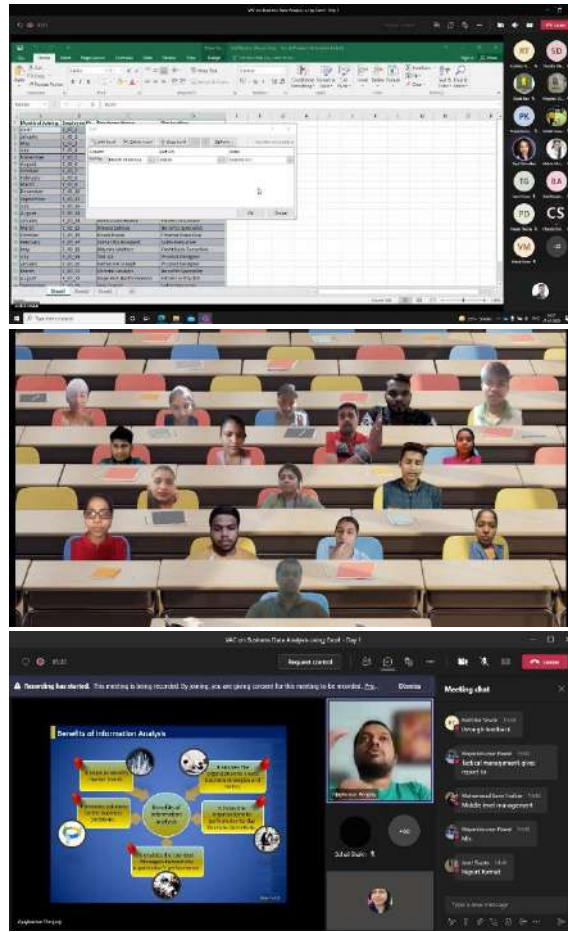

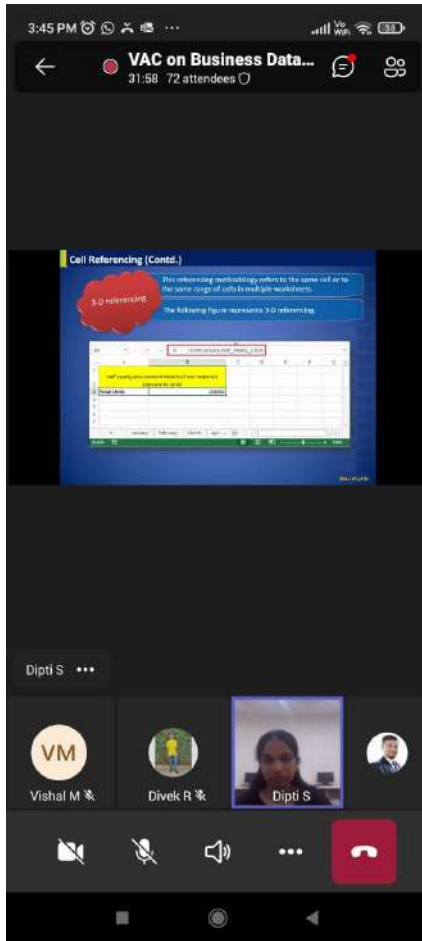

Mr. Ajaykumar Poojary, Ms. Pooja Jogu, Ms. Dipti Shirodkar, Ms. Snehal Tandale.

The course was conducted by in-house faculty members of VSIT. They explained all the functions of excel in detail. The course was mainly aimed at imparting hands -on knowledge and practice of MS Excel. The course was a blend of lectures and hands on practice wherein students performed the excel functions and did a couple of assignments. The topics covered during the sessions included Autofill and Custom List, Named Range and 3D cell reference, Custom Sort and Advanced Filter, Conditional Formatting and Data Validation, Functions – Mathematical, Date, Text, Logical, Tables & Charts, Pivot Table, Pivot Charts and Power Pivot, Sparklines and Trend lines, What-if Analysis, Goal Seek, Scenario Manager, Solver, Data Table.

A total of 83 students have registered for the course, but only 63 students successfully completed the course along with all the Assignments and Final exam.

Glimpses of activity:

TEL, Train Earn & Learn – Skill Development Program

Department of B.Com (Accounting And Finance) in Association with Western Indian Regional Council of ICAI conducted a 12 Days Skill Development Program ‘TEL, Train Earn and Learn’. It was conducted for the under-graduate students of VSIT. The program had batch of 65 students. Each day students had sessions on different topics.

Duration: 28th Feb 2022 to 12th Mar 2022 (36 hrs)

Time: 03.00 pm to 06.00 pm

Platform: Blue Jeans

On Day 1, the resource person was CA. Dr. P.G Valecha, founder and CEO of Optic Exports International, Visiting faculty at ICAI, BSE and NIMSME. The session began by students being introduced with how ICAI was formed and moto song of ICAI was played. He delivered a lecture on ‘Business communication’ and threw light on how good and effective communication plays an important role in individuals’ life.

On Day 2, the resource person was CA Kausar Meherali, faculty at the institute of ICAI. This personality holds an experience of 7 years. The lecturer spoke on ‘personality development’. Students were made familiar with emerging ideas and trends on how to develop personality in the 21st century contexts.

On Day 3, the resource person was CA Jyoti Malkani, business strategist, BFSI sector specialist & expertise in Taxation. The session was on social and business etiquettes. The speaker spoke on the importance of etiquettes in both personal as well as professional ground. She also spoke on how oneself should groom themselves while entering into the corporate sector.

On Day 4 & Day 5, the resource person was CA Nishit Shah, faculty at ICAI. He delivered a lecture on e-filing under income tax. He helped students to understand what taxation is and how taxes are imposed. He also taught students to file ITR using income tax portal.

On Day 6 & Day 7, the resource person was CA Dipti Mody, faculty at ICAI. She delivered a lecture on goods and service tax. Basic concepts such of GST was discussed by her. She also taught how to get registered under GST using the GST portal.

On Day 8 & Day 9, the resource person was CA Chirag Jain, articled assistant at Sachin. G. Kore & Co. His session was on Tally accounting. He taught tally to the students and also helped them to enhance their concepts related to Tally ERP.

On Day 10 & Day 11, the resource person was CA Monika Kothari, practicing CA & HR consultant for finance profiles. She explained the basics of Excel. Students also learned application of formulas of excel in accounting and shortcut keys as well.

Day 12 was the last day, the session was conducted on Tax deducted at source. The resource person was CA Rucha Kshirsagar, faculty at ICAI. Trainer gave a brief introduction about TDS and various sections related to TDS. She also gave the practical knowledge of how TDS is calculated.

After the lecture, a valedictory session took place. The HOD of BAF Dept Mr. Sandip Khandekar along with Mr. Ajaykumar Poojary thanked the ICAI and their entire team for putting up such knowledgeable and great program. The students also shared their wonderful experiences about the program. The Deputy Director of WIRC Mrs. Srabani Kapoor ma'am, shared her valuable words and wished good luck to all the students. The Principal of VSIT Dr. Rohini Kelkar ma'am also addressed the students and motivated them to work hard to achieve their dreams. The session came to an end by taking a group photograph.

Value Added Course on Risk Management through Derivatives

Date: - 30th June 2021

Sub: - Value added course on “Risk Management through Derivatives”

BFM Department of Vidyalankar School of Information Technology is planning to organise a Value-Added Course “**Risk Management through Derivatives**” for students of Finance Domain.

About the Course: -

A derivative is a form of financial tool that is reliant upon (or derived from) an asset (often referred to as the ‘underlying asset’). Derivatives are most frequently traded in order to hedge (reduce risk). Derivatives can be used in a variety of ways: to hedge a position, to speculate on the future price movement of an asset, or to give leverage.

This course will provide insight on concept of Financial Derivative, types of Derivative, its role in Risk Management, concept of Forward Futures and Options, Trading Strategies with the help of Futures and Options, Pay-off Charts, Concept of Hedging

Details of the Course: -

- 1) Resource Person: - Mr Amit Kabra
- 2) Topic: - Risk Management through Derivatives
- 3) Course Duration: - 15 Hrs (15 hours instructional and 15 hours assignment)
- 4) Date: - Second week of July 2021
- 5) Course Fess: - NIL
- 6) Batch Size:- to be decided
- 7) Requirements: - Internet Connectivity, Laptop/ Mobile Phone

Contents:

Sr.No	Week	Day	Topic	Hours
1.	Week 1	Day 1	Basics of derivatives, Evolution of derivatives market, Indian derivatives Market, Market participants	1 hour

The department of BMS conducted a Value Added Course on “Capital Market” in association with BSE Brokers Forum for the finance students of BMS. The speaker was Mr. Muzibar Shaikh who threw a light on how a stock market works.

Highlights of the Session:

- The speaker firstly briefed the students about stock market by explaining them what it is, the history of stock market, its current scenario and the membership fees.
- The speaker also explained what is IPO (Initial Public Offering), why companies raise money through IPO and what is the process of IPO.
- Markets and IPO of different well-known companies like Reliance, Burger King, Doodla Dairy and NTPC Ltd. were displayed and as well as explained.
- The Speaker started the session by explaining about demat account, what it is and the complete procedure of opening a demat account and the documents required to open one.
- The speaker continued the session by teaching the students about the different types of trading in the market i.e. intraday trading and delivery trading.
- He also explained in detail the different types of shares in the market i.e. equity shares and preference shares. The speaker also differentiated between the two types of shares.
- Scope of the Indian stock market was also discussed to increase the knowledge of the students.
- The whole market structure of the Reliance Industries Ltd. was explained by the speaker. The position of the above company was also briefed by displaying the statistics and charts, for the easy understanding of the students.

- The speaker also displayed the official website of the BSE, where he showed the current top 30 companies in SENSEX, which included companies like ICICI Bank, HDFC, Axis Bank, etc.
-

The speaker ended the session by clearing the doubts of the students.

VAC on Digital Marketing by Microsoft

Date	1st to 20th of October
Time	2:30 PM
Venue	Microsoft Teams
Resource Person	Deepak Garg, New Age Solutions Technologies
Faculty in charge	Harish Noula
No. of Participants	75

Department of BMS organized Value Added Course (VAC) on Digital Marketing in association with New Age Technologies for FYBMS F, SYBMS B&F and TYBMS B from 1st of October to 20th of October.

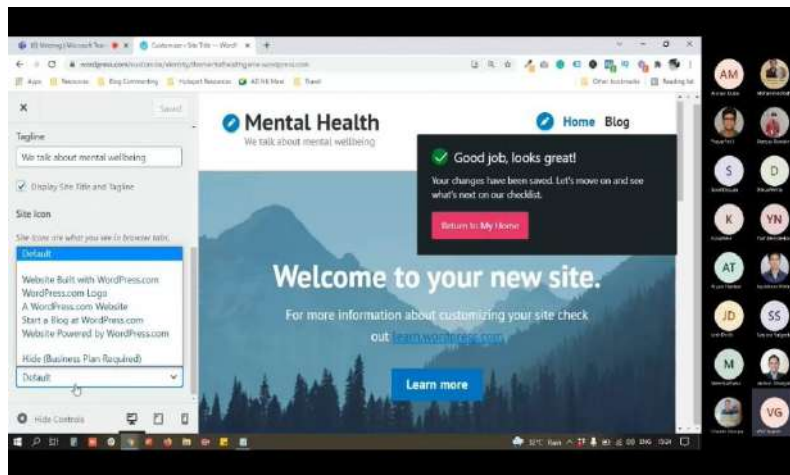

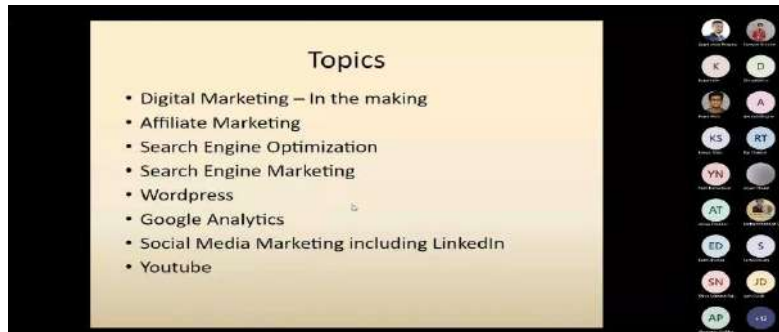

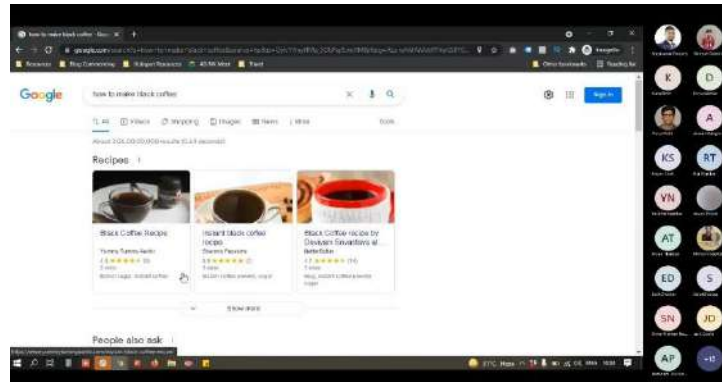

The course was divided in two batches, so provide attention to every single student participating in the course.

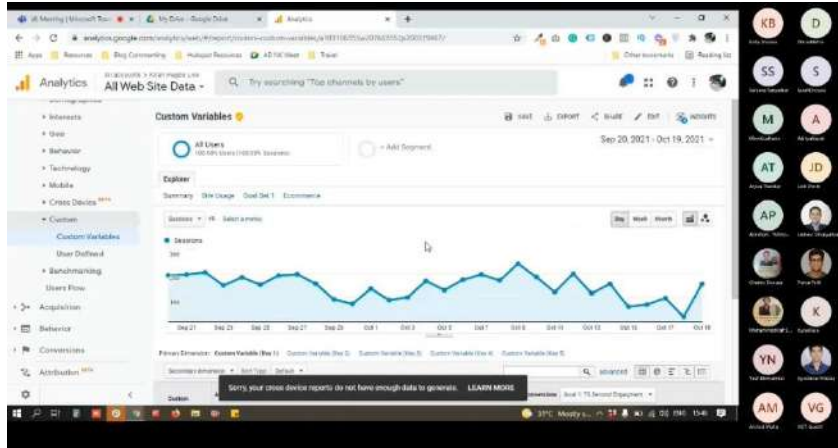

At the start of the course, students were provided with basic information of Digital marketing, Tools that are used for Digital Marketing and how useful Digital marketing can be to anyone or any organization. Basic concepts concerning Digital Marketing like, Search Engine Organization (SEO), Email Marketing, Affiliate marketing were cleared first before proceeding with the Practical sessions,

During Practical sessions, students were taught how to create their own website using Wordpress from the start and also how to make that website attractive enough to attract consumers. Students were taught how use of specific words on the website description helps in Search Engine Optimization.

Then Students were shown working affiliate marketing and how inventory management happens in Digital Marketing Platforms. Also how Email Marketing is still relevant for promotions, if planned properly by considering the product and targeted audience.

Finally at the end of the course students appeared on an exam, on passing of the exam, students were awarded with participation certificate.

Duration and Venue

30 hours course (Online Mode) Venue-

Microsoft Teams

Course content

VAC in Public Speaking

Course Description:

In your life, no matter your occupation, at some point you will be asked to deliver a presentation. For you to be an effective speaker, your communication, verbal, nonverbal, and written must be consistent. Mastering the skills used in public speaking will greatly enhance your chances of being understood. An effective presentation includes good content, organization, delivery, audience, and analysis. These are the tools that you will be evaluated on during the course. In addition, the information you will learn will assist you in becoming a more critical consumer of information.

Student Learning Outcomes:

1. Students will become aware of the importance of communication in personal and professional environments.
2. Students will gain experience in interpersonal, group, and public communication.
3. Students will develop strategies for overcoming speech anxiety.
4. Students will practice the delivery of professional and personal speeches using visual aids where appropriate to enhance the presentation.

Modules:

1. Introduction speech. Students will be paired to interview and introduce each other. This introduction speech is not graded on content or style. If students complete all the requirements and give a 2-3 min. introduction of their partner, they will receive full credit.
2. Impromptu speeches. Students will do impromptu activities and speeches throughout the semester for participation grades. Two impromptu speeches will be designated to count as speech grades. For these two speeches, students will be put on the spot to present an impromptu speech of 1-3 minutes to the class based on randomly assigned topics, quotes, objects, or questions
3. Storybook reading. Students will bring a children's storybook to class and read a 2-minute excerpt. The purpose of this exercise is to practice speaking with expressiveness and vocal variation.
4. "Anthems of My Life" Speech. Students will choose 3-5 songs that represent them in some way and create a narrative speech based on the theme "Anthems of my life." In this speech of 4-

6 minutes, students will share the title, artist/songwriter, brief excerpts of the lyrics, and explain how the song relates to them. Songs should be chosen because they communicate something about your personality, values, aspirations, etc., or are associated with some major aspect of your life experience. The primary focus is to communicate something about yourself and not the artist or song in an interesting and organized way. Those who are not into music may organize their speeches on either movie, TV shows, books, poems, or famous works of art.

5. Birthday Headlines Speech. Students will use the resources in the library to research and present a speech of 4-7 minutes to inform the audience of the interesting facts and stories behind three news headlines from their birthdate (mo./day/year) they were born.

6. PPT Slideshow Speech. Students will prepare a slide show using 10 PowerPoint slides to tell a personal narrative organized around a theme of their choice. The 10 slides will be set up to transition automatically every 20 seconds, making this speech precisely 3 mins. and 20 secs

7. Debate Speech. Students will be paired to take sides on an issue and prepare and deliver a speech of 6-8 minutes that attempts to win over the audience to their position. This speech requires careful research that must include an audience survey and a minimum of six outside credible sources.

8. Q & A. Students will facilitate a Q & A after their personal bio. and debate speeches to field questions from the audience.

9. As time allows, students will gain extra experience through other public speaking assignments such as additional impromptu speeches, poetry readings, storytelling, mock debates, mock job interviews, etc.

10. Students are required to use a digital video recording device (smartphone, webcam, digital camera, video recorder, etc.) to record their Life Songs speeches in class. This will allow students to review and evaluate their speeches in the form of a written report (500 words minimum, typed, double-spaced, 12-pt. font

Students must complete all speech assignments to pass this course.

Assessment Procedure

Certificates will be awarded only to those participants who:

- 1. Attend all sessions meaningfully**
- 2. Submit assigned work given by instructor on time**
- 3. Submission of mini projects made by the students using tools learned from the workshop**

Take Away for Students

- 1. Course Manual**
- 2. Certificate of completion**

Value-added Course on Public Speaking

Date of activity	05.07.21 to 13.07.2021
Platform	Microsoft Teams
Time	01:00 pm – 02:30 pm
No. of students certified	41

VAC on Public Speaking

The Department of Mass Media & Communication, VSIT is organising Value Added Course on Public Speaking for undergraduate students.

Objective:

The session aims to:

- equip students with the goals and benefits of public speaking
- benefits of public speaking to education, personal life, and career
- To understand fundamental elements in a speech

Outcome:

By the end of the session, students will be able to:

- Identify the main differences between writing a paper and delivering a speech
- Outline the goals of a speech as a form of advocacy or civic engagement
- Recognize the variety of approaches to rhetoric and oratory in different times and cultures

Students of BAMMC are hereby informed to adhere to the schedule as follows:

Date	Time	Faculty
July 5th, 2021	1:00 pm to 2:30 pm	Rumeli Sharma
July 6th, 2021	1:00 pm to 2:30 pm	Anindita Banerji
July 7th, 2021	1:00 pm to 2:30 pm	Rumeli Sharma
July 8th, 2021	1:00 pm to 2:30 pm	Anindita Banerji
July 9th, 2021	1:00 pm to 2:30 pm	Rumeli Sharma
July 10th, 2021	1:00 pm to 2:30 pm	Anindita Banerji
July 12th, 2021	1:00 pm to 2:30 pm	Rumeli Sharma
July 13th, 2021	1:00 pm to 2:30 pm	Anindita Banerji

7. RENDERING AN IMAGE

CREATIVE LECTURE

1. UNDERSTANDING LAYERS
2. CLONE TOOL
3. SELECTIVE COLOURS
4. PERSPECTIVE PLACEMENT

ADVANCE

5. COMPOSITION
6. COLOUR THEORY
7. PHOTO MANIPULATION
8. DIGITAL PAINTING / MATTE PAINTING

HOW TO USE BASICS TO AN ADVANTAGE

1. ADDING PATTERNS TO CLOTHES
2. CHANGING COLOUR OF ELEMENTS
3. DEPTH OF FIELD EFFECT
4. FACE RETOUCHING BASICS
5. MASKING (CHANGING BACKGROUND)
6. COLOUR THEME EDITING
7. DOUBLE EXPOSURE
8. LOGO
9. SOCIAL MEDIA
10. WEBSITE
11. AD DESIGN PROJECT

CONTENTS TO PREMIERE PRO BASICS

1. SCOPE OF VIDEO EDITING
2. VIDEO BASICS
3. STARTING OUT
4. UNDERSTANDING INTERFACE
5. IMPORTING FOOTAGE / IMAGE SEQUENCE
6. EDITING YOUR FOOTAGE
7. ADDING EFFECTS
8. ADDING TITLES
9. EXPORTING VIDEO

ADVANCE EDITING

1. UNDERSTANDING CUTS
2. TRANSITIONS
3. MUSIC/AUDIO
4. MONTAGE EDITING
5. GREEN SCREEN
6. SOCIAL MEDIA EDITS

Assessment Procedure

Certificates will be awarded only to those participants who:

1. **Attend all sessions meaningfully**
2. **Submit assigned work given by instructor on time**
3. **Submission of mini projects made by the students using tools learned from the workshop**

Take Away for Students

1. **Course Manual**
2. **Certificate of completion**

Report on Value-added Course on Adobe Photoshop and Adobe Premier Pro

Resource Person : Vinay Darekar & Ashni Methe

Date: 15-2-21

Platform : Microsoft Teams

Target Audience : SYBAMMC

Time : 2:00 PM to 4:00 PM

Topic: Value-added Course on Adobe Photoshop and Adobe Premier Pro

A Session on the topic “Value added course on Adobe Photoshop and Adobe Premier Pro” was held on 15th January 2021 at 2.00 pm which was the last day of the session. The Session was conducted by Vinay Darekar, Ashni Methe .It was organized by the Department of BMM for the SYBAMMC students.

The resource persons Vinay Darekar and Ashni Methe are the ex-students of VSIT. Both were extremely talented and experienced in Adobe Suite as they had come across many internships.

The highlights of the session were:

- Poster making
- Video footages, the uses and importance of various blending and editing modes.

. Lastly, the Session ended with some assignments on the discussed topic given by the supervisor. 60 students participated

Subject: Android app Using Kotlin

1. Overview of Kotlin

Introduction about Basic level tutorials Introduction about Intermediate level tutorials About Android studio About Kotlin Features of Kotlin.

2. Installation of Android Studio

Installation of Android Studio System prerequisites for installation Demonstration on how to install Android Studio on Ubuntu Linux OS.

3. Getting started with Hello World app

Launch the Android studio Create a new Android Studio project Steps for creating a new Application How to create a new activity? Explore the Android Studio interface.

4. Creating a Registration form

Creating a simple registration form How to use tools such as TextView, Plain Text and Buttons? Add a TextView and set the attributes How to align and resize a view in Constraint.

5. Adding Radio Buttons

Open an existing Android Studio Project Why we need Radio Group? How to add Radio Group? Set the attributes for Radio Group How to add Radio button?

6. Adding spinner and Image

Open an existing Android Studio Project How to add Spinner? Set the attributes for spinner Add list of items to spinner through kotlin code Create an array adapter Source code.

7. Creating a Search App

Create a new Android Studio project as ST search Data identification in Spoken tutorial server Design the App with Text views, Spinner and Search button How to store the FOSS.

8. URL Request

About Spoken tutorial server About API Spoken Tutorial URL format How to make a request to the URL? Add the dependency of Volley library and Picasso.

9. Display Search Result

About RecyclerView Add RecyclerView and set its attributes Create a custom layout Add ImageView to display the thumbnail of videos Add TextView to display the video title.

10. Playing video using YouTube API

Create a new project in Google cloud Generate the API key and save it Enable the YouTube API How to use YouTubePlayerView provided by YouTube.

Subject: Linux

1.Ubuntu Desktop 16.04

Ubuntu Linux Desktop 16.04 Ubuntu Linux Desktop on gnome environment The launcher Some of the icons visible on Launcher Calculator, gedit Text Editor, Terminal,

2.Desktop Customization 16.04

Desktop Customization 16.04 The Launcher Remove applications from the Launcher Add applications to the Launcher System Settings Appearance settings Workspace switcher.

3.Installing Software 16.04

Installing software in Ubuntu Linux 16.04 OS Install software via Terminal Installing Synaptic Package Manager Install software via Synaptic Package Manager Configure proxy

4.Basic Commands

Basic Commands Commands with example Command interpreter Shell Using man Apropos Whatis Using --help option

5.General Purpose Utilities in Linux

General Purpose Utilities in Linux echo uname who passwd date cal Brief overview on Files and directories pwd ls cat.

6.File System

File System File Directory File Inode Types of Files Home directory and Current directory Change Directory(cd) mkdir,rmdir

7.Working with Regular Files

Working with Regular Files cat rm cp mv cmp wc

8.File Attributes

File Attributes chown, chmod, chmod -R, displaying files with ls -l chmod u+, chmod a-w, chmod g+w, chmod -r, chgrp inode, hard link, symbolic link

9.Redirection Pipes

Redirection Pipes Input,output and error stream Redirection : > and >> Pipes :

10.Working with Linux Process

Working with Linux Process Shell process spawning - parent and child process
Process attributes - pid, ppid Init Process User proces.

11.The Linux Environment

The Linux Environment Environment variable vs Local variables set command env command
SHELL, HOME, PATH, LOGNAME, PS1, PS2 history !

12.Basics of System Administration

Basics of System Administration Root login-su User management - UID, GID, useradd, usermod,
userdel Discs – Du, df

13.Simple filters

Simple filters Head tail sort cut paste

14.The grep command

The grep command To see the content of a file To list the entries of a particular stream To ignore
cases Lines that do not match the pattern

15.More on grep command

More on grep command Search using grep To match more than one pattern To check a word that
has different spelling Character class

16.The sed command

The sed command sed To print using sed Line Addressing Context Addressing.

17.More on sed command

Some more on sed command substitute insert delete.

Subject: Git

1. Overview and Installation of Git

Introduction to Version Control System - Introduction to Git - Installation of Git on Ubuntu Linux and Windows operating systems.

2. Basic commands of Git

Outline: -Explain the Git repository -Explain about .git folder -How to configure Git -Explain about staging area -Explain about SHA-1 hash -Explain the basic commands of Git .

3. The git checkout command

Add multiple files to Git repository - Remove a file from Git repository - Restore the removed file - Discard the changes made to a file and - Revert to an earlier revision.

4. Inspection and Comparison of Git

The commands for inspection and comparison of files using Git - git diff - git show - git blame - git help.

5. Tagging in Git

What is tagging - Types of tags Lightweight tag Annotated tag.

6. Branching in Git

What is Branching - Work flow of Branching - How to create a branch - Switching between branches

7. Merging and Deleting branches

What is merging - How to merge two branches - How to revert a merge - How to delete branches after merging - How to delete branches without merging.

8. Stashing and Cleaning

About stashing - Creating stashes - Applying stashes - Deleting a stash - Removing all the stashes at once.

9. Hosting Git Repositories

Git repository hosting services - Creating a GitHub account - Exploring the GitHub interface - Creating a repository in GitHub - Creating branches in the repository .

10. Working with Remote Repositories

Explaining what is a remote repository - Synchronizing data to a remote repository

Working with Linux Process Shell process spawning - parent and child process
Process attributes - pid, ppid Init Process User proces.

11.The Linux Environment

The Linux Environment Environment variable vs Local variables set command env command
SHELL, HOME, PATH, LOGNAME, PS1, PS2 history !

12.Basics of System Administration

Basics of System Administration Root login-su User management - UID, GID, useradd, usermod,
userdel Discs – Du, df

13.Simple filters

Simple filters Head tail sort cut paste

14.The grep command

The grep command To see the content of a file To list the entries of a particular stream To ignore
cases Lines that do not match the pattern

15.More on grep command

More on grep command Search using grep To match more than one pattern To check a word that
has different spelling Character class

16.The sed command

The sed command sed To print using sed Line Addressing Context Addressing.

17.More on sed command

Some more on sed command substitute insert delete.

Subject: Python 3.4.3

1. Getting started with IPython

Use Python 3.5.2 ,Use Ipython version 5.1.0 , IPython is an enhanced interactive Python interpreter, Invoke the IPython interpreter ,Quit the IPython interpreter.

2. Using plot command interactively

Use Python 3.4.3 ,Use Ipython version 5.1.0 ,Start IPython with pylab, ImportError if matplotlib is not installed clf() function

3. Embellishing a plot

Use Python 3.4.3 Use Ipython version 5.1.0 Modify the attributes of a plot Pass additional keyword arguments to plot command Add title to a plot using 'title' command.

4. Saving plots

Use Python 3.4.3 Use Ipython version 5.1.0 Save plots using the savefig() function. Save the plots in different formats like pdf ps png svg eps.

5. Multiple plots

Use Python 3.4.3 - Use IPython 5.1.0 - Draw multiple plots which are overlaid. - Operations on individual plots. - Use the figure command. - Distinguish between multiple over.

6. Subplots

Use Python 3.4.3 * Use IPython 5.1.0 * Creating subplots * Switching between subplots. * Subplot command * Passing arguments to subplot command. * First argument is the num.

7. Additional features of IPython

* Use Python 3.4.3 * Use IPython 5.1.0 * Retrieve the history using %history command. * View only a part of history by passing argument to %history command.

8. Loading Data From Files

load data from file single column multiple columns separated by delimiter cat command loadtxt() columns separated by spaces columns separated by semi-colon unpack argument.

9. Plotting Data

plotting data list list element-wise squaring plot data points clear plots errorbar function dots or filled circles in plot plot with red pluses explore documentation.

10. Other Types Of Plots

Subject: RDBMS Postgre SQL

1. Overview of RDBMS - PostgreSQL

Introduction to RDBMS Common Software based on RDBMS Prerequisites for learning PostgreSQL OS and PostgreSQL version used Features of PostgreSQL Who can use PostgreSQL?

2. Installation of PostgreSQL

Installation of PostgreSQL on Linux Installation of PostgreSQL on Windows Installation of pgAdmin Connect to PostgreSQL database Set Password for the database

3. Create database using PgAdmin

How to connect to the server Introduction to database and its objects How to create a database Table and its attributes pgAdmin interface.

4. Table with primary keys

Insert single row to the table Insert multiple rows to the table How to execute the query Retrieve the data using select statement Introduction to Primary key.

5. Select statement

View data in the Edit data window Insert records in the Edit data window Inserting a NULL value in a record Basic SELECT statement SELECT statement with WHERE clause Comparison.

6. Select with Aggregate functions

DISTINCT clause in SELECT statement How to use BETWEEN operator in SELECT statement How to use LIKE operator in SELECT statement Usage of percent and underscore wildcards.

7. Foreign key Constraint

What is a Foreign key? Foreign key link between students and department table Create a parent table department Alter table command Add a new column to the existing students tab.

8. Aggregation facilities in SQL

Aggregate functions What is Group by clause? Syntax for Group by clause Examples for using Group by clause with one/multiple columns Having clause Syntax for Having clause.

9. Updating Data

Update statement Syntax for Update statement Examples for Update statement Updating multiple columns Syntax for Delete statement Examples for Delete statement Delete rows for.

Subject: LaTeX

<p>1. LaTeX on Windows using TeXworks Installing MikTeX on Windows Writing basic LaTeX document using TeXworks editor Configuring MikTeX to download missing packages</p>
<p>2. Report Writing report style having chapter, section and subsection article style having section, subsection and subsubsection Automatic generation of table of contents toc file to store the information that goes into the table of contents Automatic numbering of section numbers Appendix; its appearance in report and article style exiting from LaTeX when a compilation error occurs</p>
<p>3. Letter Writing Letter document class, From address, Automatic generation and format of date, Starting a new line with double slash, To address, Starting a new paragraph with a blank line, itemize environment for bullet points, enumerate environment for numbered points, Closing statement, Signature, Carbon copy</p>
<p>4. Mathematical Typesetting sign to begin and end mathematical expressions, Creating alpha, beta, gamma and delta Space being used as a terminator of symbols, Creating spaces in mathematical formulae Difference in font of text and formula, Difference in the minus sign in text and in formula frac command to create fractions, Subscripts and superscripts, Use of braces {} to demarcate arguments, Not equal to, greater than or equal to, less than or equal to, much less than Right arrow, left arrow, left right arrow, up arrow, Integral sign, limits of an integral Matrices of different rows and columns</p>
<p>5. Equations Creating an equation, Writing multiple equations, Aligning multiple equations, amsmath package, \$ mode, align environment, intertext command, Unnumbered align* environment, Creating matrices in LaTeX, label command, Cross referencing with ref command, Leslie Lamport's book</p>
<p>6. Numbering Equations Amsmath, numbering equations, align environment, nonumber command, labelling equations with the label command, cross referencing equations with the ref command, case dependence of variables in label command, taking help from stackexchange, learning from ltx-primer.pdf typing if-else with cases command</p>
<p>7. Tables and Figures Creating tables and figures in LaTeX</p>
<p>8. Beamer Beamer Creating a presentation using Beamer</p>
<p>9. Bibliography Bibliography Creating Bibliography in LaTeX</p>
<p>10. Feedback diagram with Maths Open the .fig file saved in the feedback control tutorial, Put $G(z) = \frac{z}{z-1}$ in the second block diagram, Choose the special flag, Save and export it as combined tex and pdf, Show that if "special" is not chosen, we get only text, Change /frac into /dfrac, Show that at the time of compilation, dfrac unknown error, Include \usepackage{amsmath} in the tex file, Recompile it and show that the equation is now coming properly, Use pdfcrop to trim the pdf file, mention Briss</p>
<p>11. newcommand in LaTeX What is a command? Different types of commands with examples Defining a new command Defining short commands for long repeated input. Commands with parameter Passing parameter</p>

Passing parameters to the commands defined Renewcommand, Redefining the existing commands to the required output

12. newenvironment in LaTeX

What is an environment? Defining a new environment Defining environments with parameters Renewenvironment Redefining an existing environment to the required output

13. Writing Style Files in LaTeX

About LaTeX Styles files. Writing a Style file for LaTeX. Importing a Style file in LaTeX. Defining a standard Style file for LaTeX. New command in LaTeX. New environment in LaTeX. RequirePackage command in LaTeX. usepackage command in LaTeX. Style file identification. Preliminary declarations of a Style file. NeedsTeXFormat. ProvidesPackage.

14. Indic Language Typesetting in LaTeX

Typeset a document in Indic language using XeLaTeX. Indic language fonts bundle. Installing Indic language Fonts. Installing Nirmala UI Fonts. XeLaTeX Compiler. Using Fontspec package. Using Polyglossia package. Select language command. Set default language in LaTeX. Set other language in LaTeX.

15. Beamer Themes and Animation

About Beamer Theme Matrix, Add Beamer Themes, Add Beamer Color Themes, Usage of Warsaw and Madrid Themes, Usage of Beaver and Crane Color Themes, Navigating between slides using the Section Title, Navigating between slides using the Sub section Title, Text Animations using Overlay command, Overlay – onslide, Overlay – uncover, Overlay - only

Subject: Java Business Application

1. Overview of Library Management System

Overview of Library Management System Web application. To create a basic inventory system. Library Management System Example of a Library Management system.

2. Creating a Java web project

Developing a simple web project , Deployment descriptor , Web content folder, web.xml ,HTML Page ,Run the application.

3. Java servlets and JSPs

Definition of web server Definition of web container Creating a servlet Running the servlet Including HTML inside Java code Running the Project again.

4. Servlet Methods

Creating the home page of Library Management System Go to index.jsp Modify the index.jsp by creating a form Create GreetingServlet.java Servlet as a controller Inside the doGet method ,retrieve the form data parameters, Run the project and see the output Repeat the same for doPost method,Difference between doGet and doPost methods.

5. Database Validation

Create database library, Create table users, Load JDBC Driver, Run the project,Login and show success Greeting page, Explain GreetingServlet.java, Explain getParameter method, Explain code for JDBC connection, To redirect to successGreeting.jsp use RequestDispatcher, Similarly explain how to print error messages on index.jsp, Explain about scriptlet in index.jsp.

6. Creating and viewing inventories

Modify the login page to redirect to admin page, Create Book and Checkout model Modifying GreetingServlet.java, Creating AdminSection.java , Create listBooks.jsp, Fetch all the book details ,Create listBorrowedBooks.jsp, Fetch borrowed book details To display the books borrowed by logged in user.

7. Issuing and Returning a book

Adding more functionalities to the Admin Section Page Listing all the users Checkout/Return a book Modifications in the corresponding servlets Interface for checkout and return.

Subject: Android app Using Kotlin

1. Overview of Kotlin

Introduction about Basic level tutorials Introduction about Intermediate level tutorials About Android studio About Kotlin Features of Kotlin.

2. Installation of Android Studio

Installation of Android Studio System prerequisites for installation Demonstration on how to install Android Studio on Ubuntu Linux OS.

3. Getting started with Hello World app

Launch the Android studio Create a new Android Studio project Steps for creating a new Application How to create a new activity? Explore the Android Studio interface.

4. Creating a Registration form

Creating a simple registration form How to use tools such as TextView, Plain Text and Buttons? Add a TextView and set the attributes How to align and resize a view in Constraint.

5. Adding Radio Buttons

Open an existing Android Studio Project Why we need Radio Group? How to add Radio Group? Set the attributes for Radio Group How to add Radio button?

6. Adding spinner and Image

Open an existing Android Studio Project How to add Spinner? Set the attributes for spinner Add list of items to spinner through kotlin code Create an array adapter Source code.

7. Creating a Search App

Create a new Android Studio project as ST search Data identification in Spoken tutorial server Design the App with Text views, Spinner and Search button How to store the FOSS.

8. URL Request

About Spoken tutorial server About API Spoken Tutorial URL format How to make a request to the URL? Add the dependency of Volley library and Picasso.

9. Display Search Result

About RecyclerView Add RecyclerView and set its attributes Create a custom layout Add ImageView to display the thumbnail of videos Add TextView to display the video title.

10. Playing video using YouTube API

Create a new project in Google cloud Generate the API key and save it Enable the YouTube API How to use YouTubePlayerView provided by YouTube.

Subject: java

1.Getting started java Installation Getting started with Java Installation, Install jdk from Synaptic Package Manager, Choose openjdk-6-jdk from the list of packages available, Mark it for installation
2.First Java Program Java - First Program, write simple java program, print “My First Java Program!” on Console, save the file, file name given to the java file, compile the file*
3.Installing Eclipse Installing Eclipse, Install Eclipse on Ubuntu on the Terminal, Set up the proxy on the Terminal, Then fetch the list of all the available softwares, Type sudo apt-get update , Then install eclipse on the Terminal , Type sudo apt-get install eclipse , Verify if Eclipse is installed on the system , Installing Eclipse on Debian,Kubuntu,Xubuntu , Installing Eclipse on Redhat , Installing Eclipse on Fedora,centos and suse linux
4.Getting started Eclipse Getting started with Eclipse, Eclipse is an Integrated Development Environment, It is a tool on which one can write, debug and run java programs easily
5.Hello World Program in Eclipse HelloWorld in Java using Eclipse, Open Eclipse, Create a Java Project named DemoProject, Create a class named DemoClass, Class name and file name will be the same.
6.Errors and Debugging in Eclipse Errors and Debugging, When writing a Java Program, here is a list of typical errors:, Missing semicolon(;), Missing double quotes("."), Mis-match of filename and classname
7.Programming features Eclipse Programming features of Eclipse, Auto completion, Sets the corresponding closing brace when we open the brace, Provides a drop-down list of method
8.Numerical Datatypes Numerical datatypes, define datatypes and numerical datatypes, int, float, byte, short, long, double, range of each numerical datatypes, declaration and initialization.
9.Arithmetic Operations Arithmetic Operations, Define an operator, Define arithmetic operators, Addition, Subtraction, Multiplication, Division, Modulo, Simple program to demonstrate arithmetic operations.
10.Strings Strings, char datatype, letter,digit,punctuation marks, tab, or space are all characters, Program explaining the variable and the character data, Introduction to strings
11.Primitive type conversions Primitive Type Conversion, define type conversion or type casting, higher order integer to lower order integer- Explicit type casting, program to show explicit type casting
12.Relational Operations Relational Operations, boolean datatype, equal to, not equal to, less than, less than or equal to, greater than, greater than or equal to
13.Logical Operations

<p>Logical Operations, use of logical operators, and (&&) operator, example to explain and operator, program to demonstrate and operator, or () operator, example</p>
<p>14.if else Conditional Statements and types of Conditional Statements, Use of if statement, Syntax for if statement, Program using if statement, Use of if else statement</p>
<p>15.Nested if explain nested if, nested if syntax, program to demonstrate nested if, explain the control flow of the program, explain ternary operator, syntax for ternary operator</p>
<p>16.Switch Case switch statement define switch case statement compare switch and nested if switch case syntax working of a switch case statement use of keyword switch ..case</p>
<p>17.while loop while loop, Loop control statement, types of loop control statements, Introduction to while loop, syntax of while loop, Program using while loop</p>
<p>18.For Loop for loop - introduction to for loop - for loop syntax - loop variable - loop condition - loop variable increment or decrement - loop block - flow of loop</p>
<p>19.do while define do while, do while syntax, working of do while loop, example of do while loop, explain the do while programming, save, compile and run the program to check the output.</p>
<p>20.Introduction to Array Introduction to arrays - about arrays. - declare an array - initialize an array - initialization using for loop - index of an array elements - change values of an array</p>
<p>21.Array Operations Array operations - import java.util.Arrays - use methods from class Arrays - toString() method - sort() method - fill() method - copyOf() method - copyOfRange() method</p>
<p>22.Creating Class Whatever we can see in this world are all objects, Objects can be categorized into groups known as class, This is class in real world, Human Being is an example of class in real world, Class in java is the blue print from which individual objects are created, Class consists defines a set of properties called variables and a set of behaviors called methods, Syntax for creating class, Create a simple class Student using Eclipse, The Student class can contain pro</p>
<p>23.Creating object Creating Object, An object is an instance of a class, Each object consist of state and behavior, Object stores it state in fields or variables</p>
<p>24.Instance fields Instance fields, Also known as non-static fields, Open the TestStudent class which we have created, Access the fields roll_number and name using dot operator</p>
<p>25.Methods Methods, method definition, write simple method, method returning value, call a method in another method, flow of the program, call a static method</p>
<p>26.Default constructor Default Constructor, what is a constructor?, what is a default constructor?, when is it called?, define a constructor, initialize the variables, call the constructor</p>
<p>27.Parameterized constructors</p>

Parameterized Constructor, What is a parameterized constructor?, create constructor without parameter, create a constructor with parameter, assign values to the variables.
28.Using this keyword Using this keyword, this is a reference to the current object, helps to avoid name conflicts, we can use this keyword inside a constructor to call another one
29.Non static block Non-static block Any code written between two curly brackets Executed for each object that is created Executes before constructor's execution
30.Constructor overloading Constructor overloading, define multiple constructor, what is constructor overloading?, constructor with different number of parameters.
31.Method overloading Method overloading, define multiple methods., methods with same name., methods with different number of parameters., methods with different datatypes of parameter.
32.User Input Taking user input in Java, What is BufferedReader?, Importing three classes from Java.io package, How to take the input from the user?, Syntax to implement BufferedReader.
33.Subclassing and Method Overriding Definition of subclassing Demo of subclassing using an Employee and Manager class Single inheritance Use of extends keyword Private members in a super class
34.Calling methods of the superclass super keyword Call methods of the super class Constructor of the super class Demo of super keyword using an Employee and Manager class Single inheritance
35.Using final keyword final keyword What is final keyword and its application? Where final keyword can be declared? final variable final static variables static block final variable as parameter
36.Polymorphism Polymorphism in Java Run-time polymorphism Virtual Method Invocation Compile-time polymorphism Role of JVM What is IS-A test? What is Static binding? What is Dynamic binding Dispatch
37.Abstract Classes Abstract Classes in Java - What are Abstract Methods - What are Concrete Methods - Properties of Abstract Methods and Abstract Classes - How to use Abstract Methods
38.Java Interfaces Java Interfaces - Implementing Interface - Implementation Classes - Interfaces Vs Abstract classes - Implementing Multiple Interfaces - Usage of Interfaces with an example
39.Static Variables What is Static Variable in Java? Usage of Static Variables with Example Static Variables Vs Instance Variables Final Static Constants
40.Static Methods What is static method in Java? - Static methods Vs Instance methods - Usage of static method with example - Passing object variables in a static method
41.Static Blocks What is a static block - Declaring and defining a static block - How static blocks are invoked and executed
42.Exception Handling

What is an Exception - Types of Exceptions - Checked Exceptions - Unchecked Exceptions - Explaining "ArrayIndexOutOfBoundsException"

43. Custom Exceptions

What is a Custom Exception - Demonstration of custom exception - Custom exception example - "InvalidMarkException" - Usage of "throw" keyword

Project at
IIT Bombay

Certificate for Completion of Java Training

This is to certify that **ADISH ANDHERE** has successfully completed **Java** test organized at **Vidyalankar School of Information Technology (VSIT)**, by **BEENA KAPADIA** with course material provided by the Spoken Tutorial Project, IIT Bombay. Passing an online exam, conducted remotely from IIT Bombay, is a pre-requisite for completing this training.

Swapnali Sawant from **Vidyalankar School of Information Technology (VSIT)**, invigilated this examination. This training is offered by the Spoken Tutorial Project, IIT Bombay.

February 16th 2022

Subject: Blender

<p>1.Hardware requirement to install Blender Hardware Requirements for Blender List the hardware requirements of a machine in order to run Blender. Provides you with a brief introduction about Blender</p>
<p>2.Installation Process for Windows Installing Blender in Windows Guide to install Blender on Windows Visit the Official Blender Website Download Blender as an installer/archive as per your system</p>
<p>3.3D Cursor 3D Cursor Navigation - Concept of 3D Cursor Using the 3D Cursor while Modeling/Animating To add new objects to the 3D view in Blender using 3D cursor</p>
<p>4.Moving in 3D Space Navigation - Moving in 3D Space Keyboard and Mouse Controls to traverse in 3D Change viewport Camera Orientation To Pan the view To Rotate in Blender Viewport.</p>
<p>5.Camera View Settings Navigation - Camera View To change the location of the camera to get a new camera view To roll the camera view To pan the camera view To dolly the camera view</p>
<p>6.The Blender Interface Basic Description of Blender Interface Outline the basics of the Blender Interface The parameters and tabs assigned to each window How to select an object</p>
<p>7.How to Change Window types in Blender How to Change Window types in Blender Resize any window in the Blender Interface Toggle between different windows Split the windows Merge them back together</p>
<p>8.Types of Windows File Browser Info Panel Types of Windows - File Browser and Info Panel Describes the File Browser window Locate blend file saved on your system Create a new directory</p>
<p>9.Types of Windows User Preference Types of Windows - User Preferences Describes the User Preferences window Describes the various options available To customize Blender Interface using User Preference</p>
<p>10.Types of Windows Outliner Types of Windows - Outliner Describes the Outliner window Significance of the Eye icon Significance of the Arrow icon Significance of the Camera icon</p>
<p>11.Types of Windows Properties Part 1 Types of Windows - Properties Part 1 Describes the first panel [Render] of the Properties window Image Option Animation Option Render Panel Reference</p>
<p>12.Types of Windows Properties Part 2 Properties Part 2 Describes the Scene Panel Describes the World Panel Describes the Object Data panel</p>
<p>13.Types of Windows Properties Part 3 Types of Windows - Properties Part 3 Describes the Object constraints panel Describes the Modifiers Panel Describes the Object Data Panel The various settings</p>
<p>14.Types of Windows Properties Part 4 Types of Windows - Properties Part 4 Describes the Material panel Applying a new material Naming the new material Types of render outputs – Surface, Wire etc</p>
<p>15.Types of Windows Properties Part 5 Types of Windows - Properties Part 5 Describes the Texture panel Describes the Texture Slot Box Adding, deleting and copying textures Lists the types of Textures</p>

Subject: Scilab

1. Introduction to Scilab and its benefits

About Scilab and its benefits Scilab is reliable Use of Scilab in CNES Use of Scilab for space mission analysis and flight dynamics Industrial applications.

2. Self learning of Scilab through Spoken Tutorials

About Spoken Tutorial Created for self learning Dubbed in all 22 languages Scilab spoken tutorials 25 spoken tutorials on Scilab Side by side learning Spoken tutorial used as MOOCS in many universities Certificates based on online tests.

3. The amazing resource of Scilab Textbook Companion

Opensource software problem, no good documentation for FLOSS Solution: Textbook companion project Scilab code for standard textbooks Demo of Textbook companion Download Scilab .

4. Scilab Lab migration, Toolboxes and Forums

Lab migration Demo of Lab migration on FOSSEE Scilab website Download PDF for lab solution Scilab Toolboxes FOSSEE Optimisation toolbox available on atoms website IEEE paper .

5. Installing

Installing Show where to download from and how to decide which version to choose (OS and 32/64bit) (www.scilab.org/download) Windows installation.

6. Getting Started

Expressions: Show mathematical expressions with numbers, Variables, Diary command, Define symbolic constants. Basic functions, suppressing output(;), help.

7. Vector Operations

Vector Operations Define vector, Calculate length of a vector, Perform mathematical operations on Vectors such as addition, subtraction and multiplication.

8. Matrix Operations

Matrix Operations *Access the elements of Matrix *Determine the determinant, inverse and eigen values of a matrix. *Define special matrices. *Perform elementary row operation.

9. Conditional Branching

Conditional Branching * 'if' and 'then' with the example * use of the 'else' keyword * use of the 'elseif' keyword

10. Iteration

Iteration Explain syntax of 'for' statement- tell that the variable iterates over a list/vector/matrix (or an expression that evaluates to any of these).

11. Scripts and Functions

Scripts and Functions *Introduction to the file formats in Scilab. *SCRIPT files. *sce versus .sci
*Inline functions.

12. Plotting 2D graphs

Plotting 2D graphs About linspace: linspace is a linearly spaced vector. Plot a simple graph:
`x=linspace(12,34,10)`, `y=linspace(-.1,2,10)`, `plot(x,y)` `plot2d` Using `clf()` `clear`.

13. Xcos Introduction

Xcos Introduction What is XCOS. What is palette. To collect the blocks from the palette and connect them to construct the block diagram. Set the parameters of different blocks.

14. File Handling

Writing to a file using `write()`, Reading from a file using `read()`, Opening an existing file using `mopen()`, Closing an already opened file using `mclose()`.

15. User Defined Input and Output

User Defined Input and Output in Scilab Input Function. `mprintf()` `save()` and `load()` Used to quit scilab midway through calculation and continue at later stage.

16. Integration

*Develop Scilab code for different Composite *Numerical Integration algorithms, *Divide the integral into equal intervals, *Apply the algorithm to each interval *Calculate the composite value of the integral.

17. Solving Non linear Equations

Numerical methods- Solving Non- linear Equations , Learn how to solve nonlinear equations using numerical methods, Learn Bisection method, Learn Secant method, Learn how to develop Scilab code for solving nonlinear equations

18. Linear equations Gaussian Methods

Explain Gauss Elimination method algorithm, Explain code for Gauss Elimination method and solve an example using this code, Explain Gauss Jordan method algorithm, Explain code for Gauss Jordan method and solve an example using this code.

19. Linear equations Iterative Methods

Solve system of linear equations using iterative methods, Use Jacobi and Gauss Seidel iterative methods, Learn how to iterate until we converge at the solution, Learn how Gauss Seidel method is faster than Jacobi method, Develop Scilab code for these two methods to solve linear equations

20. Interpolation

Numerical Interpolation Develop Scilab code for different Numerical Interpolation algorithms
Calculate new value of function from given data points

Certificate for Completion of Scilab Training

This is to certify that **ROMULUS DARWIN** - has successfully completed **Scilab** test organized at **Vidyalankar School of Information Technology (VSIT)**. by **BEENA KAPADIA** with course material provided by the Spoken Tutorial Project, IIT Bombay. Passing an online exam, conducted remotely from IIT Bombay, is a pre-requisite for completing this training.

Swapnali Sawant from **Vidyalankar School of Information Technology (VSIT)**. invigilated this examination. This training is offered by the Spoken Tutorial Project, IIT Bombay.

Subject: QGIS

<p>1.Installation of QGIS System requirements to install QGIS Add QGIS repositories on Ubuntu Linux OS Installation of QGIS on Ubuntu Linux OS Visit the Official QGIS Website Download QGIS installer</p>
<p>2.Coordinate Reference Systems Add layers to the projections in QGIS Change the color of the layer Resize the panels on the canvas View metadata information for layers in QGIS Save selected features</p>
<p>3.Digitizing Map Data Create Point and Polygon shape files Digitize Point and Polygon shape files About Toggle editing and Add Feature tools Open attribute table for Point feature</p>
<p>4.Importing Spreadsheets Import spreadsheets in CSV format to create a Point layer Convert Point layer to a Polyline layer About QGIS Geoalgorithm About WMS layers Select a WMS map from Bhuvan website</p>
<p>5.Vector Data Styling Load vector data in QGIS Open attribute table for the layer Learn to style vector layers using, Single symbol styling Categorized styling Graduated</p>
<p>6.Geometric Properties of Vectors Show attribute table for a shapefile layer Show selected features from attribute table on the map Change the CRS of the layer Add columns to the attribute table</p>
<p>7.Raster Data Styling Information about download and save example files from the Code files link Change Coordinate Reference System for the given layer Use Identify Features tool</p>
<p>8.Creating a Map Information on how to download the example files given in Code files link Add vector layer on canvas Show labels for the cities on the map About Print Composer tool</p>
<p>9.Creating Dataset Using Google Earth Pro About Google Earth Pro program. Download and install Google Earth Pro on Ubuntu Linux 16.04. Navigate Google Earth Pro. Create a point dataset for a few locations in Maharashtra</p>
<p>10.Plugins Information about the Plugins Enable Core Plugins Install an External Plugin Locate a Plugin on QGIS interface Install QuickMapServices Plugin Download OpenStreetMap data</p>
<p>11.Table Joins and Spatial Joins Load vector layer on QGIS canvas Open attribute table for the layer About different types of combining attribute data Add Delimited Text Layer on QGIS canvas</p>
<p>12.Nearest Neighbour Analysis Open shape files showing locations of volcanoes and cities on QGIS canvas Open attribute table for the layers About Nearest Neighbour Analysis Statistical analysis</p>
<p>13.DEM Analysis About Digital Elevation Model (DEM) analysis Open Shuttle Radar Topography Mission (SRTM) data website Download DEM data from SRTM data website Save DEM data from SRTM data website</p>
<p>14.Create Contour Lines Add DEM on QGIS map canvas Clip area in DEM using Clipper tool About contour lines Show contour lines for the DEM Change the color of the contour lines</p>

15. Interpolation

About Interpolation Methods of interpolation Load the vector layer on QGIS canvas Label the Point features on the map Enable Interpolation Plugin About Inverse Distance Weight.

Subject: R

<p>1. Overview of R and RStudio About R programming language, Features of R, Applications of R, Discuss the contents available on the R Project website, Use the command-line interface of R, About RStudio, Features of RStudio Discuss the contents available on the RStudio website, Explain the interface of RStudio, Topics covered in this series</p>
<p>2. Installing R and RStudio on Linux Install R on Linux, Use the command-line interface of R, Show the value of exponential function in R, Install wget utility, Install gdebi utility, Install RStudio on Linux, Launch RStudio on Linux, Run a plot in RStudio, View packages in RStudio, Install packages</p>
<p>3. Installing R and RStudio on Windows Install R on Linux, Use the command-line interface of R, Show the value of exponential function in R, Install wget utility, Install gdebi utility, Install RStudio on Linux, Launch RStudio on Linux, Run a plot in RStudio, View packages in RStudio, Install packages</p>
<p>4. Introduction to basics of R Version of R and RStudio used, Operating systems on which these run, Quick introduction to R and RStudio, Resizing the font and window size, , +, -, ^, sqrt, exp, log, sin, Different ways of invoking log, Vectors using seq and length, pi, Plotting a sine function, Defining more points to get a smooth plot, Plotting with points and as line, Introduction to help</p>
<p>5. Introduction to Data Frames in R Storing captaincy information in vectors, constructing a data frame using vectors, Plotting one vector of a data frame vs. another one, Adding a vector to a data frame, Saving a data frame into a CSV file, Preventing the writing of row numbers into the CSV file, Changing the contents of a CSV file through a text editor, Loading a CSV file into a data frame, Accessing the data sets that come with R</p>
<p>6. Introduction to RStudio Features of RStudio, A look at the windows in R Studio interface: Source and Console windows, Workspace window, Plots and Files window, Example to plot a simple data set, Introduction to packages in R, How to find the list of packages installed in R, Installation of R packages in RStudio Loading and using R package.</p>
<p>7. Introduction to R script What is an R script, features of an R script, how to create and save an R script from the user, interface (UI) of RStudio, Shortcut keys to create an R script, how to use auto-completion of commands, how to run an entire script, how to run a block of a script, how to add comments, How to comment an existing line, How to load one script into another script</p>
<p>8. Working directories in RStudio What is working directory in R How to know the current working directory, How to use getwd function, How to set a working directory from the user interface of RStudio, How to set a working directory from the Console window of RStudio, How to use setwd function, How to read and store a CSV file in R, How to use read.csv function, How to view a stored CSV file in R, How to use the View function</p>
<p>9. Indexing and Slicing Data Frames Shortcut key for assignment operator (<-), How to perform numeric indexing, How to extract a row or column from a data frame, How to retrieve multiple rows from a data frame, How to combine objects to form a vector, How to perform logical indexing on a data frame, How to perform name indexing on a data frame, How to slice a data frame using subset function</p>

<p>How to select required columns (by name) from a data frame, How to retrieve data using double square brackets</p>
<p>10.Creating Matrices using Data Frames Data required in a matrix format, Convert a data frame into a matrix, Create a matrix with known data, Add two matrices, Subtract two matrices, Multiply two matrices elementwise, Perform true matrix multiplication, Calculate the transpose of a matrix, Calculate the determinant of a matrix</p>
<p>11.Operations on Matrices and Data Frames How to find the inverse of a matrix, How to calculate the sum of elements in a matrix using for loop, How to calculate the sum of elements in a matrix using the sum function, How to calculate the time elapsed in an operation, How to find out the sum of rows of a matrix, How to find out the sum of columns of a matrix, How to add a new column or row to an existing data-frame How to use cbind and rbind function</p>
<p>12.Merging and Importing Data Use of built-in functions in R for exploring a data frame, Access help in RStudio, Advantages of merging data frames, Merge two data frames, Import data from command line, Import xml file and txt file in R, Import data from user interface of RStudio</p>
<p>13.Data types and Factors What is an object in R, Types of R – objects, What is an atomic vector in R, Types of atomic vectors How to find types of vectors, Factors in R, Levels of a factor in R, Identification of categorical variables, How to change the type of a vector</p>
<p>14.Lists and its Operations Lists in R, Atomic vectors in R, Difference between atomic vectors and lists in R, How to create a list, How to assign names to the elements of a list, Named list in R, How to access elements of a list by its index, How to access an element of a list by its name, How to access an element of an element of a list, Combine two different lists</p>
<p>15.Plotting Histograms and Pie Chart How to find the dimensions of a data frame, Define a histogram, Plot a histogram in R, Add labels to the histogram, Add color to the bins of a histogram, Change the number of breaks in the histogram, Define a pie chart, Plotting a pie chart in R, Add a label to the pie chart, Saving the plot as an image</p>
<p>16.Plotting Bar Charts and Scatter Plot What is a bar chart, Draw a bar chart, Use the barplot function, Add labels to the bar chart Adjust the labels of the bar chart, What is a scatter plot, Draw a scatter plot, Use plot function with two objects, Find the correlation coefficient, Range of correlation coefficient</p>
<p>17.Introduction to ggplot2 Define visualization, About grammar of graphics- ggplot2, Use of the plot function, Add labels to a plot, Change the color and type of plot, Plot two graphs in the same plot, Add a legend to the plot About ggplot2 package, Draw a scatter plot using ggplot2 function, Save plots using ggsave function</p>
<p>18.Aesthetic Mapping in ggplot2 Define aesthetic, Need for aesthetic in plotting, Draw a scatter plot, Customize a scatter plot, View the structure of an object, View the levels of a categorical variable, Draw a bar chart using ggplot Add labels to a plot in ggplot, Use the fill argument in aesthetic mapping, Draw a histogram using ggplot</p>
<p>19.Data Manipulation using dplyr Package What is data visualization Need for data manipulation, What is dplyr package, Functions in dplyr package, Install dplyr package, Use filter function, Use filter function with a logical operator, Use</p>

match operator, Use arrange function for ascending order, Use arrange function for descending order

20. More Functions in dplyr Package

Functions in the dplyr package Select multiple variables in a data frame Remove variables from a data frame Use of select function Use of starts_with function Change the name of a variable Use of rename function, Create a new variable from existing variables, Use of mutate function Property of mutate function

Spoken Tutorial
Project at
IIT Bombay

Certificate for Completion of R Training

This is to certify that **AMAN KORLEKAR** has successfully completed **R** test organized at **Vidyalankar School of Information Technology (VSIT)**. by **BEENA KAPADIA** with course material provided by the Spoken Tutorial Project, IIT Bombay. Passing an online exam, conducted remotely from IIT Bombay, is a pre-requisite for completing this training.

AKSHATHA JAIN from **Vidyalankar School of Information Technology (VSIT)**. invigilated this examination. This training is offered by the Spoken Tutorial Project, IIT Bombay.

April 20th 2022

Prof. Kannan M Moudgalya

**Subject: Geographic Information
Systems**

Week 1: What is Geographic Information Systems?
Essential components of GIS
Different types of vector data
Concept of topology
Demonstration through GIS software
Week 2: Raster data model and comparisons with vector
TIN data model and comparisons with raster
Non-spatial data (attributes) and their types
Vector Data Compression Techniques
Demonstration through GIS software
Week 3: Raster Data Compression Techniques-01
Raster Data Compression Techniques-02
Georeferencing
Pre- processing of spatial datasets-01
Demonstration through GIS software
Week 4: Pre-processing of spatial datasets-02
Pre-processing of spatial datasets-03
Spatial Interpolation Techniques-01
Spatial Interpolation Techniques-02
GIS Analysis- 01
Week 5: GIS Analysis-02
GIS Analysis-03
GIS Analysis- 04
GIS Analysis-05
Demonstration through GIS software
Week 6: GIS Analysis-06
GIS Analysis-07
Attributes Classification Methods
Spatial Database systems and their types-01

Demonstration through GIS software
Week 7: Spatial Database systems and their types-02
Concept of NoData in Raster
Different map projections
Concept of digital elevation model (DEM) and how it is represented
Demonstration through GIS software
Week 8: Various techniques to generate digital elevation models-1
Various techniques to generate digital elevation models-2
Various techniques to generate digital elevation models-3
Digital Elevation Models and different types of resolutions
Demonstration through GIS software
Week 9: How to assess quality of a DEM
Integration of DEMs with satellite data
Common derivatives of DEMs - Slope and aspect-01
Common derivatives of DEMs - Slope and aspect-02
Demonstration through GIS software
Week 10: Common derivatives of DEMs - Slope and aspect-03
DEMs derivatives-1
DEMs derivatives-2
DEMs derivatives-3
DEMs derivatives-4
Week 11: Triangulated Irregular Network (TIN) and its derivatives
Shaded relief models and their applications
DEM based Surface Hydrologic Modelling-1
DEM based Surface Hydrologic Modelling-2
DEMs and Dam Simulation and its application in groundwater hydrology
Week 12: DEMs Sources,limitations and future of Digital Elevation Models
Applications of DEMs in Viewshed and Flood Hazard Mapping
Applications of DEMs in solar and wind energy potential estimations
Errors in GIS and key elements of maps
Limitation of GIS

Introduction to Psychology

with a consolidated score of **57** %

Online Assignments	21/25	Proctored Exam	36/75
--------------------	-------	----------------	-------

Total number of candidates certified in this course: **504**

Pathish

Prof. B. V. Ratish Kumar
Chairman, Centre for Continuing Education
IIT Kanpur

Jan-Mar 2022
(8 week course)

Satyaki Roy

Prof. Satyaki Roy
NPTEL Coordinator
IIT Kanpur

Indian Institute of Technology Kanpur

This certificate is computer generated and can be verified by scanning the QR code given below.

Roll No: NPTEL22HS20S34020262

To
VARAD TAWDE
FLAT NO 4, ALAKNANDA APARTMENT
ANAND VIHAR COLONY, GANGAPUR ROAD
NASHIK
MAHARASHTRA - 422005
PH. NO :9175994893

Score	Type of Certificate
>=90	Elite+Gold
75-89	Elite+Silver
>=60	Elite
40-59	Successfully Completed
<40	No Certificate

No. of credits recommended by NPTEL:2

An additional 1 credit may be awarded if the University deems it fit, based on the actual student effort involved.

NPTEL Online Certification

(Funded by the MoE, Govt. of India)

This certificate is awarded to

VARAD TAWDE

for successfully completing the course

Introduction to Psychology

with a consolidated score of **57** %

Online Assignments	22.45/25	Proctored Exam	34.5/75

Course Outline

Subject: Inkscape

<p>1. Overview of Inkscape</p> <ul style="list-style-type: none"> - Introduction to Inkscape - Interesting features - Usage of Inkscape - Installation of Inkscape in Linux and Windows OS - Draw a rectangle - Saving an Inkscape file
<p>2. Create and edit shapes</p> <ul style="list-style-type: none"> - Inkscape interface - Create basic shapes like rectangle, square, circle, ellipse, polygons, stars - Fill color - Learn about the different types of handles – resize, rotate, skew - Modify shapes using handles
<p>3. Fill color and stroke</p> <p>Fill color in objects Give objects an outline Various types of Gradients Giving Patterns and Stroke paint and style</p>
<p>4. Create and edit multiple objects</p> <p>*Copy and paste objects *Duplicate and clone objects *Group and Order various objects *Multiple selection and invert selection *Clipping and Masking</p>
<p>5. Layers and Boolean operations</p> <p>*Layers and layer palette *Add a new layer *Rename a layer *Position a layer above or below other layers *Lock a layer *Hide a layer *Various modes *Add various filters</p>
<p>6. Align and distribute objects</p> <p>*Align and distribute various objects *Align objects with reference to something *Arrange objects in rows and columns *Set spacing between objects *Create a tile pattern</p>
<p>7. Create and Format Text</p> <p>- Inserting text - Formatting text - Aligning text - Spacing and bullet - Making a simple flyer</p>
<p>8. Text tool features</p> <p>-Manual kerning -Horizontal kerning -Vertical shift -Character rotation -Spell check -Superscript -Subscript</p>
<p>9. Basics of Bezier Tool</p> <p>-Drawing using Bezier tool -Modes of bezier tool -Shapes of the paths -Node tool -Add, edit, delete nodes -Join and break paths</p>
<p>10. Text Manipulation</p> <p>-Text on path in Inkscape -Text on shape in inkscape -Image inside text -Text in perspective - Cutout text in inkscape</p>
<p>11. Create an A4 Poster</p> <p>- To make an A4 poster for Spoken Tutorial - Explaining to set page size for A4, default units (pixel/cm/inch), Orientation and Guides - Explaining to design with shapes and path</p>
<p>12. Create a 3-fold brochure</p> <p>- Explaining how to set page size, default unit in Inkscape - Orientation and about Guides for 3-fold - Separating the page into 3 fold with rulers - Design the brochure</p>
<p>13. Design a CD label</p>

- Creating a CD design label - Document settings - Designing the layout - Alignment of text and images - Saving the document and exporting in various formats.

14. Design a visiting card

- To set the page size for visiting card and setting other document properties in Inkscape - Arrangement of the various objects in the visiting card - Explaining how to arrange for multiple prints on the same page of the visiting card in Inkscape

15. Create patterns in Inkscape

- Create Patterns in Inkscape - Patterns using Cloning - Pattern along Path in Inkscape - Patterns using Spray tool - Path Effect Editor in Inkscape

16.Special effects on text

Special effects on text in Inkscape - Reflected text in Inkscape - Labeled text - Change the text case in Inkscape

17.Trace bitmaps in Inkscape

- Inkscape - Difference between raster and vector image - Various raster and vector formats - Convert raster image to vector

18.Warli art for Textile design

- Creating a simple Warli art in Inkscape - Repeat patterns using cloning - Application of the Warli art in Textile design

19.Mango pattern for Textile design

- Mango pattern in Inkscape for Textile design - Repeat patterns using cloning - Draw using Pattern along Path
