

**Integrated Library Management System (ILMS)**

Library automation is an important part of library management. As there is incredible growth in the different fields of knowledge and there is a need for access to the desired information. By keeping the motto of ‘Right Book at Right Time to the Right user ‘, the VSIT has also taken initiative to move its library towards paperless functioning by automated library management software. The design & development of this library automated software is carried out at the institute level & customized to suit as per our requirements. It is difficult to have access to the desired resources with manually operated devices. Library automation is the use of software to perform such traditional library activities as acquisition, cataloguing and circulation, stock verification and generation of various reports as per the requirement. Functioning of VIT ILMS (vMIS)The Institute has developed its own Library Management Software and is available to all through the vMIS system. All the Library functions are fully automated and are listed below

**Functions of ILMS**

The Institute has introduced its own Library Management Software and is available to all through the vMIS system. All the Library functions are fully automated and are listed below.

**Overview of VSIT’s Library Management System Software (vMIS)**

V MIS library module well equipped with all the library functions for e.g.,

- Issuing library purchase order,
- Entry of Invoice Details
- Creation of books, and Journal Database
- Add Edit Guest (Inter Library Loan)
- Online Public Access Catalogue (OPAC)

**Criteria IV: Infrastructure and Learning Resources**

- Circulation – Issue / Receive Books
- stock verification etc.
- Report Creation: VMIS is easily able to generate various reports like issue return reports, stock check report, user history, book history, optimum utilized resources etc.

### Issuing Purchase Order:

V-MIS is also facilitating creation of Purchase order as per the library requirement, easily purchase order can be generated and able to send via mail to be concerned vendor.

The screenshot displays the 'Issue Purchase Order' screen in the VSIT Automated Library system. The interface includes a navigation menu at the top with options like 'MyDashboard', 'Documents', 'Admissions', 'HR', 'Academics', 'Systems', 'Library', 'Committees', 'Accounts', and 'Registry'. A toolbar contains various icons for 'Masters', 'Issue Purchase Order', 'GRIN', 'Enter Invoice Details', 'Add/Edit Books/Non-Books', 'Add/Edit Subscription', 'Add/Edit Guest', 'Search Book', 'Issue / Receive Books', 'Receive', 'Stock Verificator', 'Settings', and 'Reports'. The main content area shows a table of purchase orders with the following data:
